No. 6956F.—25th August 1936.—In exercise of the powers conferred by rule 44 of the Civil Services (Classification, Control and Appeal) Rules, and in supersession of the rule promulgated with Bengal Government, Finance Department, notification, dated the 23rd September 1929, the Governor in Council is pleased to make the following amendment to the Fundamental Rules, namely:—

Amendment.

Below Fundamental Rule 27 the following shall be inserted as a note, namely:—

"*Note*—A subordinate police officer, *i.e.*, an officer of or below the rank of Inspector, when re-enlisted after discharge or resignation may, with the sanction of the authority competent to fill the appointment held by him, be allowed to count towards increment of pay the service (including military police service) rendered before such discharge or resignation, even though it was not on the same time-scale or was under another Government. Each case, however, will be decided on its merits and it must always be considered whether the individual is deserving of the privilege."

No. 6703F.—13th August 1936.—In exercise of the power conferred by rule 41 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers is pleased to make the following rule regulating the pension of the incumbent of the post of Junior Public Prosecutor, Calcutta:—

Rule.

For the purpose of pension, the incumbent of the said post shall be treated as if he were an officer enumerated in articles 349A and 404A of the Civil Service Regulations.

2. All existing orders relating to the pension of the holder of the said post in so far as they are not inconsistent with the above rule are hereby confirmed.

No. 6710F.—14th August 1936.—In exercise of the powers conferred by Fundamental Rule 44 and rules 41 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers is pleased to make the following amendment to the Subsidiary Rules made under Fundamental Rule 44:—

Page 69.—S.R. 113.—At the end of S.R. 113 the following shall be inserted as a note:—

"*Note.*—In cases where a Government servant is transferred from station A to station B and is again transferred within a reasonably short time to another station C, he may be allowed under Subsidiary Rule 113(*a*) I (*iii*) to recover the cost of carriage of personal effects from station A to station C subject to the conditions (1) that the total weight carried

from station B to station C and from station A to station C does not exceed the maximum limit prescribed in the rule and (2) that the total cost of transporting the effects from station A to station B, from station B to station C and from station A to station C does not exceed the amount admissible from station A to station B *plus* that admissible from station B to station C."

ADDENDUM AND CORRIGENDUM.

No. 7116F.—29th August 1936.—The following correction, which has been authorised, is published for general information:—

Fundamental and Subsidiary Rules, 1st Edition (Reprint), 1929.

(2) *Delete* the proviso to the said notification.

No. 6277Com.—27th August 1936.—In exercise of the powers conferred by sub-section (*2*) of section 10B of the Workmen's Compensation Act, 1923 (VIII of 1923), the Governor in Council is pleased to direct that the provisions of sub-section (*1*) of the said section shall apply to all ships wherein, whereon or in connection with which any of the operations enumerated in clause (*vii*) of Schedule II to the said Act are carried on and that the report referred to in the said sub-section (*1*) shall be sent to the Commissioner by the owners or the agents of such ship.

No. 6331Com.—31st August 1936.—In exercise of the power conferred by the first proviso to rule 9 of the Bengal Electricity Duty Rules, 1935, the Governor in Council is pleased hereby to appoint the Chief Electric Inspector, Bengal, to make assessments under the said proviso and to exempt consumers from the requirements of the said rules within the district of the 24-Parganas.

No. 6373Com.—1st September 1936.—The following draft of certain rules which the Government of Bengal propose to make in exercise of the powers conferred by sub-section (*2*) of section 26 of the Payment of Wages Act, 1936 (IV of 1936), read with section 22 of the General Clauses Act, 1897 (X of 1897), is published as required by sub-section (*5*) of section 26 of the first named Act for the information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration on or after the 4th December 1936.

Any objection or suggestions which may be received in respect of the draft before the date specified will be considered by the Government of Bengal:—

Draft Rules.

1. *Title*.—These rules may be called the Bengal Payment of Wages Rules, 1936.

2. *Definitions*.—In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Payment of Wages Act (IV of 1936);

(*b*) "the Authority" means the authority appointed under sub-section (*1*) of section 15 of the Act;

(*c*) "the Chief Inspector of Factories" means the Chief Inspector of Factories appointed under sub-section (*2*) of section 10 of the Factories Act (XXV of 1934);

(*d*) "the Court" means the court mentioned in sub-section (*1*) of section 17 of the Act;

(*e*) "deduction for breach of contract" means a deduction made in accordance with the provisions of the proviso to sub-section (*2*) of section 9;

(*f*) "deduction for damage or loss" means a deduction made in accordance with the provisions of clause (*c*) of sub-section (*2*) of section 7;

(*g*) "Form" means a form appended to these rules;

(*h*) "Inspector" means the Inspector authorized by or under section 14 of the Act;

(*i*) "person employed" excludes all persons to the payment of whose wages the Act does not apply;

(*j*) "section" means a section of the Act;

(*k*) "paymaster" means an employer or other person responsible under section 3 of the Act for the payment of wages;

(*l*) words and expressions defined in the Act shall be deemed to have the same meaning as in the Act.

3. *Register of Fines.*—(1) In any factory in respect of which the employer has obtained approval under sub-section (*1*) of section 8 to a list of acts and omissions in respect of which fines may be imposed, the paymaster shall maintain a Register of Fines in Form I.

(2) At the beginning of the Register of Fines there shall be entered serially numbered the approved purpose or purposes on which the fines realized are to be expended.

(3) When any disbursements are made from the fines realized, a deduct entry of the amount so expended shall be made in the Register of Fines, and a voucher or receipt in respect of the amount shall be affixed to the register. If more than one purpose has been approved the entry of the disbursement shall also indicate the purpose for which it is made.

4. *Register of deductions for damage or loss.*—In every factory in which deductions for damage or loss are made the paymaster shall maintain the register required by sub-section (*2*) of section 10 in Form II.

5. *Register of Wages.*—A Register of Wages shall be maintained in every factory and may be kept in such form as the paymaster finds convenient but shall include the following particulars :—

(*a*) the gross wages earned by each person employed for each wage period;

(*b*) all deductions made from those wages, with an indication in each case of the clause of sub-section (*2*) of section 7 under which the deduction is made;

(*c*) the wages actually paid to each person employed for each wage period.

6. *Maintenance of Registers.*—The registers required by rules 3, 4, 5 and 17 shall be preserved for twelve months after the date of the last entry made in them.

7. *Weights and Measures.*—(1) All weights, measures, or weighing machines which are used in checking, or ascertaining the wages of persons employed in any factory shall be examined at least biennially by an Inspector who may prohibit the use of any weight, measure, or weighing machine which he finds to register incorrectly.

(2) If the Inspector considers that any action should be taken under the Indian Weights and Measures of Capacity Act (XXXI of 1871), or the Indian Penal Code (XLV of 1860), he may seize the article in question and shall record his opinion and send it to the District Magistrate for such action as he may think fit.

8. *Notice of dates of payment.*—The paymaster shall display, in a conspicuous place at or near the main entrance of the factory a notice, in English and in the language of the majority of the persons employed therein, giving for not less than two months in advance, the days on which wages are to be paid.

9. *Prescribed authority.*—The Chief Inspector of Factories shall be the authority competent to approve, under sub-section (*1*) of section 8, acts and omissions in respect of which fines may be imposed and, under sub-section (*3*) of section 8, the purposes on which the proceeds of fines shall be expended.

10. *Application in respect of fines.*—Every employer requiring the power to impose fines in respect of any acts and omissions on the part of employed persons shall send to the Chief Inspector of Factories—

(*a*) a list, in English, in duplicate, clearly defining such acts and omissions;

(*b*) in cases where the employer himself does not intend to be the sole person empowered to impose fines, a list, in duplicate, showing those appointments in his factory of which the incumbents may pass orders imposing fines and the class of establishment on which the incumbent of each such appointment may impose fine.

11. *Approval of list of acts and omissions.*—The authority appointed under rule 9 on receipt of the lists prescribed in the preceding rule may, after such enquiry as he considers necessary, pass orders either—

(*a*) disapproving the lists,

(*b*) approving the lists either in their original form or as amended by him, in which case such lists shall be considered to be approved lists,

provided that no order disapproving or amending any lists shall be passed unless the employer shall have been given an opportunity of showing cause orally or in writing why the lists as submitted by him should be approved.

12. *Posting of list.*—The employer shall display at or near the main entrance of the factory a copy in English, together with a literal translation thereof, in the language of the majority of the persons employed therein, of the list approved under rule 11.

13. *Persons authorized to impose fines.*—No fine may be imposed by any person other than an employer, or a person holding an appointment named in a list submitted under rule 10.

14. *Procedure in imposing fines and deductions.*—Any person desiring to impose a fine on an employed person or to make a deduction for damage or loss shall explain personally to the said person the act or omission, or damage or loss, in respect of which the fine or deduction is proposed to be imposed and the amount of the fine or deduction, which it is proposed to impose, and shall hear his explanation in the presence of at least one other person.

15. *Information to paymaster.*—The person imposing a fine or directing the making of a deduction for damage or loss shall at once inform the paymaster of all particulars, so that the register prescribed in rule 3 or rule 4 may be duly completed.

16. *Deductions for breach of contract.*—(1) No deduction for breach of contract shall be made from the wages of an employed person who is under the age of fifteen years or is a woman.

(2) No deduction for breach of contract shall be made from the wages of any employed person unless:—

(*a*) there is provision in writing forming part of the terms of the contract of employment requiring him to give notice of the termination of his employment, and

(*i*) the period of this notice does not exceed fifteen days or the wage-period, whichever is less; and

(*ii*) the period of this notice does not exceed the period of notice which the employer is required to give of the termination of that employment;

(*b*) this rule has been displayed in English and in the language of the majority of the employed persons at or near the main entrance of the factory and has been so displayed for not less than one month before the commencement of the absence in respect of which the deduction is made;

(*c*) a notice has been displayed at or near the main entrance of the factory giving the names of the persons from whom the deduction is proposed to be made, the number of days' wages to be deducted and the conditions (if any) on which the deduction will be remitted.

Provided that where the deduction is proposed to be made from all the persons employed in any departments or sections of the factory, it shall be sufficient, in lieu of giving the names of the persons in such departments or sections, to specify the departments or sections affected.

(3) No deduction for breach of contract shall exceed the wages of the person employed for the period by which the notice of termination of service given falls short of the period of such notice required by the contract of employment.

(4) If any conditions have been specified in the notice displayed under clause (*c*) of sub-rule (*2*), no deduction for breach of contract shall be made from any person who has complied with these conditions.

17. *Advances.*—(1) An advance of wages not already earned shall not, without the previous permission of an Inspector, exceed an amount equivalent to the wages earned by the employed person during the preceding two calendar months, or if he has not been employed for that period, twice the wages he is likely to earn during the two subsequent calendar months.

(2) The advance may be recovered in instalments by deductions from wages spread over not more than twelve months. No instalment shall exceed one-third, or where the wages for any wage-period are not more than twenty rupees, one-fourth of the wages for the wage-period in respect of which the deduction is made.

(3) The amounts of all advances sanctioned and the repayments thereof shall be entered in a register in Form III.

18. *Annual Return.*—In respect of every factory in which during the calendar year any fines have been imposed or any deductions for breach of contract or for damage or loss have been made from wages, a return shall be sent in Form IV so as to reach the Chief Inspector of Factories not later than the 15th of February following the end of the calendar year to which it relates.

19. *Costs.*—(1) Where the Authority or the Court, as the case may be, directs that any costs shall not follow the event, he shall state his reasons for so doing in writing.

(2) The costs which may be awarded shall include:—

(*a*) the charges necessarily incurred on account of court-fees;

(*b*) the charges necessarily incurred on subsistence money to witnesses; and

(*c*) pleader's fees which shall ordinarily be Rs. 10 provided that the Authority or the Court, as the case may be, in any proceedings, may reduce the fee to a sum not less than Rs. 5 or increase it to a sum not exceeding Rs. 30.

(3) When a party engages more pleaders than one to defend a case, he shall be allowed one set of costs only.

20. The Authority or the Court, as the case may be, may fix fees on the payment of which any person entitled to do so may obtain copies of any documents filed with the Authority or the Court, as the case may be.

Provided that the Authority or the Court, as the case may be, may, in consideration of the poverty of the applicant, grant copies free of cost.

21. *Fees.*—The fee payable in respect of proceedings under the Act shall be:—

(*i*) For every application to summon a witness.—Four annas in respect of each witness.

(*ii*) For every other application made by or on behalf of an individual person before the Authority.—Eight annas.

(*iii*) For every other application made by or on behalf of an unpaid group before the Authority.—Four annas for each member of the group, subject to a maximum of five rupees.

(*iv*) For every appeal lodged with the Court.—Five rupees.

Provided that the Authority or the Court may, in consideration of the poverty of the applicant, reduce or remit this fee.

Provided further that no fee shall be chargeable in respect of an application presented by an Inspector.

22. *Abstracts.*—The abstracts of the Act and of the rules made thereunder to be displayed under section 25 shall be in Form V.

23. *Penalties.*—Any breach of rules 3, 4, 5, 6, 8, 12, 15 and 18 of these rules shall be punishable with fine which may extend to two hundred rupees.

FORM V.

Abstract of the Payment of Wages Act, 1936, and the Rules made thereunder.

Whom the Act affects.

1. The Act applies to the payment of wages to persons in this factory receiving less than Rs. 200 a month.

2. No employed person can give up by contract, or agreement, his rights under the Act.

Definition of wages.

3. "Wages" means all remuneration payable to an employed person on the fulfilment of his contract of employment.

It includes bonus and any sum payable for want of a proper notice of discharge.

It excludes:—

(*a*) the value of house-accommodation, supply of light, water, medical attendance, or other amenity or of any service excluded by the Governor-General in Council or the Local Government;

(*b*) the employer's contribution to a pension or provident fund;

(*c*) travelling allowance or concession or other special expenses entailed by the employment;

(*d*) any gratuity payable on discharge.

Responsibility for and method of payment.

4. The manager of the factory is responsible for the payment under the Act of wages to persons employed under him, and any contractor employing persons is responsible for payment to the persons he employs.

5. Wage-periods shall be fixed for the payment of wages at intervals not exceeding one month.

6. Wages shall be paid on a working day within seven days of the end of the wage-period (or within ten days if 1,000 or more persons are employed).

The wages of a person discharged shall be paid not later than the second working day after his discharge.

7. Payments in kind are prohibited.

Fines and deductions.

8. No deductions shall be made from wages except those authorised under the Act (*see* paragraphs 9—15 below).

9. (1) Fines can be imposed only for such acts and omissions as the employer may, with the previous approval of the Chief Inspector of Factories, specify by a notice displayed at or near the main entrance of the factory and after giving the employed person an opportunity for explanation.

(2) Fines—

(*a*) shall not exceed half-an-anna in the rupee;

(*b*) shall not be recovered by instalments, or later than sixty days of the date of imposition;

(*c*) shall be recorded in a register and applied to such purposes beneficial to the employed persons as are approved by the Chief Inspector of Factories;

(*d*) shall not be imposed on a child.

10. (*a*) Deductions for absence from duty can be made only on account of the absence of the employed person at times when he should be working, and such deductions must not exceed an amount which is in the same proportion to his wages for the wage period, as the time he was absent in that period is to the total time he should have been at work.

(*b*) If ten or more employed persons, acting in concert, absent themselves without reasonable cause and without due notice, the deduction for absence can include wages for eight days in lieu of notice, but:—

(1) no deduction for breaking a contract can be made from a person under 15 or a woman,

(2) there must be a provision in writing which form part of the contract of employment, requiring that a specific period of notice of intention to cease work not exceeding fifteen days or the period of notice which the employer has to give to discharge a worker, must be given to the employer and that wages may be deducted in lieu of such notice.

(3) The above provision must be displayed at or near the main entrance of the factory.

(4) No deduction of this nature can be made until a notice that this deduction is to be made has been posted at or near the main entrance of the factory.

(5) No deduction must exceed the wages of the employed person for the period by which the notice he gives of leaving employment, is less than the notice he should give under his contract.

11. Deductions can be made for damage to or loss of goods expressly entrusted to an employed person or for loss of money for which he is required to account, where such damage or loss is due to his neglect or default.

Such deduction cannot exceed the amount of the damage or loss caused and can be made only after giving the employed person an opportunity for explanation.

12. Deductions can be made, equivalent to the value thereof, for house accommodation, amenities, or services (other than tools and raw material) supplied by the employer, provided these are accepted by the employed person as a part of the terms of his employment and have in the case of amenities and services been authorised by order of Government.

13. (*a*) Deductions can be made for the recovery of advances, or for adjustment of overpayment of wages.

(*b*) Advances made before the employment began can only be recovered from the first payment of wages for a complete wage-period but no recovery can be made of advances given for travelling expenses before employment began.

(*c*) Advances of unearned wages can be made at the paymaster's discretion during employment but must not exceed the amount of two months' wages without the permission of an Inspector.

These advances can be recovered by instalments, spread over not more than twelve months and the instalments must not exceed $\frac{1}{3}$rd, or if the wages are not more than Rs. 20, $\frac{1}{4}$th of the wages for any wage-period.

14. Deductions can be made for subscription to and for repayment of advances from any recognised provident fund.

15. Deductions can be made for payments to co-operative societies approved by the Local Government or to the postal insurance, subject to any conditions imposed by the Local Government.

Inspections.

16. An Inspector can enter on any premises, and can exercise powers of inspection (including examination of documents and taking of evidence) as he may deem necessary for carrying out the purposes of the Act.

Complaints of deductions or delays.

17. (1) Where irregular deductions are made from wages, or delays in payment take place, an employed person can make an application in the prescribed form within six months to the Authority appointed by the Local Government for the purpose. An application delayed beyond this period may be rejected unless sufficient cause for the delay is shown.

(2) Any legal practitioner, official of a registered trade union, Inspector under the Act, or other person acting with the permission of the Authority, can make the complaint on behalf of an employed person.

(3) A single application may be presented by, or on behalf of, any number of persons belonging to the same factory the payment of whose wages has been delayed.

Action by the Authority.

18. The Authority may award compensation to the employed person in addition to ordering the payment of delayed wages or the refund of illegal deductions.

If a malicious or vexatious complaint is made, the Authority may impose a penalty not exceeding Rs. 50 on the applicant and order that it be paid to the employer.

Appeal against the Authority.

19. An appeal in the prescribed form against a direction made by the Authority may be preferred, within thirty days (in Calcutta to the Court of Small Causes) to the District Court:—

(*a*) by the paymaster if the total amount directed to be paid exceeds Rs. 300;

(*b*) by an employed person, if the total amount of wages withheld from him or his co-workers, exceeds Rs. 50;

(*c*) by a person directed to pay a penalty for a malicious or vexatious application.

Punishments for breaches of the Act.

20. Any one delaying the payment of wages beyond the due date, or making any unauthorised deduction from wages is liable to a fine up to Rs. 500, but only if prosecuted with the sanction of the Authority or the Appellate Court.

21. The paymaster who,—

(1) does not fix a wage-period, or
(2) makes payment in kind, or
(3) fails to display at or near the main entrance of the factory this Abstract in English and in the language of the majority of the employed persons, or
(4) breaks certain rules made under the Act,

is liable to a fine not exceeding Rs. 200.

A complaint to this effect can be made only by the Inspector, or with his sanction.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Industries.

CALCUTTA, THE 25TH AUGUST 1936.

RESOLUTION—No. 5633 IND.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

Read an application from Babus Durga Narayan Pal, Narendra Narayan Pal, Sarojaksya Pal and Bhola Nath Pal of village Bhadrapur, police-station Nalhati, district Birbhum (as modified by their subsequent letter of 30th October 1935), asking for a loan of Rs. 1,325 under the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for the purpose of developing their Bhadrapur Silk Factory in Birbhum district.

Read also the resolution adopted by the Board of Industries, Bengal, at a meeting held on the 20th November 1935, incorporated in the report submitted with letter No. 785B.I., dated the 20th February 1936, from the Secretary to the Board of Industries, Bengal, and resolution No. 13, dated the 24th June 1936, adopted in its meeting, dated the 24th June 1936, and submitted with the Secretary to Board's letter No. 277B.I., dated the 13th July 1936.

Order.—Ordered that the loan of Rs. 1,325 only asked for be sanctioned, provided that it does not exceed 50 per cent. of the net value of the assets of the applicants in the factory after deducting all encumbrances thereon existing at the time when the application was made. The loan is also subject to the following conditions:—

(1) that suitable alterations be made in their factory in order to enable the cooking and the cleaning of the cocoons being conducted separately from the hot water containing vessels attached to the ghais on the same lines as the Italian pattern machinery installed in the Berhampore Silk Weaving Institute;

(2) that the skilled reeler already in their employ be deputed to the Berhampore Silk Weaving Institute for necessary training in the use of up-to-date improved reeling machinery;

(3) that a mortgage bond be executed jointly by the applicants in the form prescribed by Government for the purpose;

(4) that interest be charged at the rate of 6¼ per cent. per annum payable with each instalment on the balance of the unpaid principal;

(5) that penal interest be charged at the rate of 8 per cent. per annum on any overdue instalment of repayment of the loan; and

(6) that the entire amount of the loan with interest thereon be repaid in ten yearly instalments of Rs. 132-8 each *plus* interest, the first instalment being payable next year on the day and month in which it will be advanced this year.

2. This cancels the orders issued with this department resolution No. 35T.A.I., dated the 24th April 1936.

Ordered also that the resolution be published in the *Calcutta Gazette*.

Excise.

NOTIFICATIONS.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

No. 786Ex.—5th August 1936.—Maulvi Motahar Husain Khan, Superintendent of Excise and Salt, is allowed leave on average pay for one month, under rule 81 (*b*) (*ii*) of the Fundamental Rules, in extension of the leave granted to him under orders of the 25th May 1936.

No. 812Ex.—12th August 1936.—In exercise of the powers conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Government of Bengal (Ministry of Excise) are pleased to make the following rules for the manufacture of Ayurvedic preparations such as Mritasanjibani Sura, Mritasanjibani Sudha, etc., in which processes of fermentation and distillation are used in their production.

Definition.

1. *The Ayurvedic medicinal preparations in which process of fermentation and distillation are used in their preparations such as Mritasanjibani Sura or Mritasanjibani Sudha or Mritasanjibani or any other preparation manufactured in accordance with the recipe and direction laid down in Arkaprokash, Ayurved Sangraha and Vaisaja-Ratnabali, hereafter referred to as "the preparations" are medicated wines of spirits.*

To be manufactured in a bonded warehouse.

2. The preparations shall be manufactured only in bond by a qualified Kabiraj or by a Kabiraji firm having a qualified Kabiraj for supervision of the manufacturing operations, and the place of manufacture shall be deemed to be a private warehouse within the meaning of the notification No. 601S.R., dated 30th March 1915.

3. Any Kabiraj or Kabiraji firm desiring to manufacture the preparations in bond shall apply for a license to the Collector of the district concerned giving the following particulars, namely:—

(*i*) the name or names, and the address or addresses of the person or persons applying; if a private firm, the name of every partner of the firm; and if a joint stock company, the name of every director thereof;

(*ii*) the name of the place at which and the full description of the premises in which the manufacture will be carried on;

(*iii*) the capital likely to be invested in the venture;

(*iv*) the name and qualifications of the Kabiraj under whose supervision the manufacture will be carried on;

(*v*) the number and full description of fermenting vessels, stills, receivers, etc., to be installed in the warehouse;

(*vi*) the amount of security the applicant or applicants are in a position to deposit with the Government in case the hypothecation of the warehouse premises and of the plants, utensils, apparatus, etc., that the bonded premises may contain at any time, is not practicable or desirable;

(*vii*) if a whole-time officer is not required, the number of days in a week on which the warehouse will have to be kept open by an Excise Officer;

(*viii*) the maximum quantity of finished preparations in L. P. gallons intended to be stored at any one time; and

(*ix*) a correct plan (in triplicate) of the proposed warehouse premises showing therein the respective position of the fermentation room,

still room, bottling room, store room, Excise Office and also of the fermenting vessels, receivers, stills and other permanent apparatus.

4. The Collector after causing such enquiries to be made as he deems necessary, shall forward the application to the Commissioner along with his report stating particularly therein if it would be possible for the existing Excise staff under him to manage the work of the warehouse. The Commissioner, if he finds no objection, shall ask the Collector to issue a license in form No. 28C, to the applicant or applicants. The license shall be renewed annually by the Collector subject to the approval of the Commissioner.

5. Prior to the commencement of work in the warehouse the licensee or the licensees (hereinafter referred to as the licensee) shall deposit Rs. 250 (two hundred and fifty rupees) as cash security for the due observance of the conditions of the license and shall also execute a bond in the prescribed form pledging the warehouse premises and also the plants, utensils, apparatus and the stock of finished preparations that the bonded premises may contain at any time for due discharge of all payments which may become due to the Government. In lieu of executing such a bond the licensee may deposit Government promissory notes of such value as the Commissioner may direct.

6. Unless the Commissioner directs otherwise, the Excise establishment attached to the warehouse shall consist of one Inspector and two peons. The licensee shall pay at the end of each calendar month the actual cost of the peons as well as such portion of the actual cost of the officer-in-charge as the Commissioner may deem commensurate with the officer's attendance. If it be not possible to detail an officer from the ordinary Excise establishment of the district for the supervision of the warehouse, the officer who may be placed in charge thereof shall, unless he is also the officer-in-charge of another warehouse, be deemed to be a whole-time officer and the entire actual cost shall be borne by the licensee, actual cost shall imply pay as well as leave and pension contribution.

7. (1) The licensee shall provide for the peons rent-free quarters in close proximity to the warehouse premises and also such quarters, to the satisfaction of the Commissioner, for a whole-time officer. In lieu of rent-free quarters for the whole-time officer-in-charge, the licensee may pay such house allowance at the end of each calendar month as may be directed by the Commissioner. If an officer is appointed exclusively for the supervision of more than one private warehouse, house allowance in such proportions as may be fixed by the Commissioner shall be realised from the different licensees.

(2) Office furniture required by the officer-in-charge shall be supplied and maintained in proper condition by the licensee at his own cost.

8. The warehouse building shall have brick walls and a roof of fire resisting material. It shall consist of a fermentation room, a still room, a large room where receivers may be installed in a separate enclosure and bottling carried on, and at least one store room for finished preparations. All the rooms, especially the fermentation room, shall be well ventilated and all the windows securely barred and wirenetted the net having a mesh not more than one inch. If a fire-heated still is intended to be used, the still room shall be situated at a safe distance from the bottling and store room, and also sufficiently protected to eliminate all possibilities of an outbreak of fire. The licensee, if he

so desire, may be permitted to store raw materials in a separate room in the warehouse. Every room shall bear on the outside a board on which shall be legibly painted in oil colour the name of the room. The receiving room, bottling room and store room for finished preparations shall have but one entrance each and shall be separately locked by the officer-in-charge and the licensee. During the hours between sunset and sunrise, the still room, when the still therein remain charged with wash, shall also be similarly locked.

9. The fermenting vessels shall be serially numbered but need not be guaged. A fire-heated still shall have a closed furnace with a chimney to carry off the smoke. The man-hole of the still intended to be used shall have a suitable contrivance so that it may be secured either with a lock or with wire and lead seals after running in work. The receivers shall be non-portable, serially numbered and gauged vessels made of approved materials and provided with suitable arrangements for taking dips and locking the man-holes and discharge cocks. Distillates must be conveyed direct from the still to a receiver through a closed pipe which shall be sealed and provided with cocks to the satisfaction of the Commissioner.

10. The warehouse shall be built strictly in accordance with the plan approved by the Commissioner. No additions and alterations to the bonded premises and to the permanent fixtures therein shall be made without his previous sanction; provided that any addition and alteration urgently required may be sanctioned by the Collector subject to the final approval of the Commissioner. The licensee shall carry out any addition or alteration which the latter may consider desirable at any time. A fresh plan of the warehouse in triplicate shall be submitted by him to the Collector whenever any addition or alteration is made.

11. A sufficient number of chemical fire extinguishers and fire-buckets shall be maintained by the licensee in the warehouse. Smoking and use of naked lights within the warehouse is prohibited. A notice to this effect should be conspiciously displayed in the warehouse building.

12. Where there is no whole-time officer, the licensee shall give in writing at least 24 hours' notice of his intention to keep the warehouse open for work, stating clearly therein the operations to be carried out. Such a notice shall be given also to a whole-time officer for work to be done on an approved holiday. He shall not keep the warehouse open for more than 8 hours on any working day, or between sunset and sunrise. For work done on an approved holiday on a requisition of the licensee, he shall pay such overtime fees for the officer as the Commissioner may prescribe.

13. The quantities of molasses and water placed in each fermenting vessel, the bulk of the fermented wash therein and the original and final gravities of the wash shall be ascertained by the officer-in-charge. For the first two items he may rely on the figures furnished by the licensee who shall keep correct accounts of materials and of wash, manufactured and distilled. No fermented wash shall be taken out of the warehouse and none brought within from outside.

14. The Commissioner may, if he deems it necessary, fix normal spirit strength and allowable margins for the preparations.

15. (1) Distillation shall be so conducted that distillates from a complete number of fermenting vessels may be collected in a receiver

at a strength of about 42 per cent. proof. After the distillation is over the licensee shall be permitted to take a duty free sample not exceeding 22 ounces from a receiver for analysis and declaration of spirit strength of the distillate. If the strength is found to be over 42 per cent. proof, the distillate shall be reduced and a fresh sample similar to the first one again be tested by the licensee before declaring the final strength. If, however, the strength of the first distillation is found to be below 42 per cent. it shall not be increased except with the previous sanction of the Collector of the district. When the requisite strength has been reached, the officer-in-charge shall send at the cost of the licensee a quart bottle of duty free sample of the product to the Head Chemist, Excise Laboratory, Calcutta, for a report on the correct strength and obscuration, and also for a declaration as to whether the product is free from deleterious matters and, therefore, fit for consumption. He shall then take charge of the receiver and issue at the strength declared by the licensee. The strength must however be corrected and necessary adjustments in the precribed registers shall be made if the actual strength as found by the Head Chemist differs from it by more than 3·0 proof degree or exceeds 42 per cent. proof.

(2) No issues shall be given prior to the receipt of the Head Chemist's report, or if the actual strength as declared by him exceeds 42 per cent. proof.

(3) The residue remaining in the still after distillation shall be destroyed by running into a drain. The officer-in-charge must personally see that the fire in the furnace is put out completely at the end of each day's distillation.

16. Only colouring matter previously approved by the Head Chemist and in such proportions as may be declared by him to be suitable shall be used. Colouring shall be done in presence of the officer-in-charge prior to drawing of a sample from a receiver for analysis and declaration of strength by the licensee. Flavouring substances other than those included in the recipe must not be used.

17. (1) Except in the case of trade samples intended for free distribution, the preparation shall be put up only in reputed quart and pint bottles and nibs containing not less than 22 ounces per quart and 11 ounces per pint and 6 ounces per nib. Each bottle shall be sealed and capsuled by the licensee in such a manner as the Commissioner may consider adequate for an easy detection of any attempt to tamper with the contents. The licensee shall also affix on each bottle a label previously approved by the Commissioner on which shall be legibly printed not only the name of the preparation and the name and address of the manufacturer, the percentage of proof spirit contained in the preparation in English and Bengali, but also the dosage and the words "for medicinal use only." The batch number shall be noted in a corner of the label. The preparation shall be removed to the store room immediately after bottling, labelling, sealing and capsuling and kept there well arranged.

(2) If for any reason re-bottling is found indispensible, it shall be permitted by the officer-in-charge. The new spirit strength shall be determined by him in such a case with the hydrometer making necessary correction for the obscuration already declared by the Head Chemist. In case reduction of the spirit strength is necessary prior to re-bottling, this may be done in an ordinary vessel noting carefully the exact quantity of the water added.

(3) Whenever bottling or re-bottling is carried on it shall be th duty of the officer-in-charge to check at random the contents of least 5 per cent. of the bottles.

(4) The Collector may approve, reject or withdraw any label fro use, whenever he considers that any such label does not conform wit the provisions of the Indian Merchandise Marks Act, 1889 (IV of 1889) of any rules or orders made thereunder, or is in any way so coloured drawn or worded as to mislead the public regarding the nature of th liquor contained in the bottle.

18. (1) Issue of the preparation shall be given by the officer-in charge on receipt of a requisition in the prescribed form from th licensee. Only batches declared by the Head Chemist to be fit for con sumption shall be issued and a new batch shall not be issued so lon as there is an older batch of requisite quality in stock.

(2) For sale in Bengal duty shall be realised at the rate of Rs. 21-1 per proof gallon, and for export to other provinces at the rates pre vailing therein. The preparations shall be exported from the ware house, and duty on the exports paid strictly in accordance with th instructions issued from time to time by the Commissioner of Excise Under-bond issues shall not be given except for export.

NOTIFICATION.

Simla, the 18th August 1936.

No. L.-3067.—The following draft of certain rules which the Governor General in Council proposes to make in exercise of the powers conferred by sub-section (*1*) of section 26 of the Payment of Wages Act, 1936 (IV of 1936), read with section 22 of the General Clauses Act, 1897 (X of 1897), is published as required by sub-section (*5*) of section 26 of the first named Act for the information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration on or after the 22nd November 1936.

Any objection or suggestions which may be received in respect of the draft before the date specified will be considered by the Governor General in Council.

Draft Rules.

1. *Short Title.*—These rules may be called the Payment of Wages (Procedure) Rules, 1936.

2. *Definitions.*—In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Payment of Wages Act (IV of 1936);

(*b*) "appeal" means an appeal under section 17;

(*c*) "the Authority" means the authority appointed under sub-section (1) of section 15;

(*d*) "the Court" means the court mentioned in sub-section (1) of section 17;

(*e*) "employer" includes the persons responsible for the payment of wages under section 3;

(*f*) "section" means a section of the Act;

(*g*) "Form" means a form appended to these rules;

(*h*) words and expressions defined in the Act shall be deemed to have the same meaning as in the Act.

3. *Form of Application.*—Applications under sub-section (*2*) of section 15 by or on behalf of an employed person or group of employed persons shall be made in duplicate in Form A, Form B or Form C as the case may be, one copy of which shall bear the prescribed court-fee:

Provided that no application presented by an Inspector under the Act shall be required to bear a court-fee.

4. *Authorisations.*—The authorisation to act on behalf of an employed person or persons, under section 15, shall be given by a certificate in Form D and shall bear the prescribed court-fee, shall be presented to the Authority hearing the application and shall form part of the record.

5. *Permission to appear.*—Any person desiring the permission of the Authority to act on behalf of any employed person or persons shall present to the Authority a brief written statement explaining his interest in the matter, and the Authority shall record an order on the statement, which in the case of refusal shall include reasons for the order, and shall incorporate it in the record.

6. *Presentation of applications.*—Any application, or any other document relevant to an application may be presented in person to the Authority at any time during hours to be fixed by the Authority, or may be sent to him by registered post. The Authority shall at once endorse, or cause to be endorsed, on the document the date of the presentation or receipt, as the case may be.

7. *Rejection of application.*—(1) The Authority may refuse to entertain an application presented under rule 3, if after giving the applicant an opportunity of being heard, the Authority is satisfied, for reasons to be recorded in writing that:—

(*a*) the applicant is not entitled to present an application, or

(*b*) the application is barred by reason of the provisions in the provisos to sub-section (2) of section 15, or

(*c*) the applicant shows no sufficient cause for making a direction under section 15.

(2) The Authority shall refuse to entertain any application which bears an insufficient court-fee and shall return it at once for representation after the deficit has been made good. The date of such representation shall be taken to be the date of presentation for determining whether an application is presented within the time prescribed by sub-section (2) of section 15.

8. *Appearance of parties.*—(1) If the application is entertained, the Authority shall call upon the employer by a notice in Form E, delivered by registered post, to appear before him on a specified date together with all relevant documents and witnesses, if any, and shall inform the applicant of the date so specified.

(2) If the employer or his representative fails to appear on the specified date, the Authority may proceed to hear and determine the application *ex parte*.

(3) If the applicant fails to appear on the specified date, the Authority may dismiss the application:

Provided that an order passed under sub-rule (2) or sub-rule (3) may be set aside and the application reheard on good cause being shown within one month of the date of the said order.

9. *Further inquiry.*—When the Authority considers that a further inquiry is necessary, he shall proceed to make such enquiry or depute such other person as he may deem fit to make the enquiry.

10. *Record of Proceedings.*—(*i*) In a case where no appeal lies, the Authority need not record the evidence, but shall enter the particulars in Form F.

(*ii*) In each case in which an appeal lies, the Authority shall enter the particulars in Form F and, before disposing of the case, shall embody in it the substance of the evidence.

11. *Appeals.*—(1) An appeal shall be preferred in duplicate in the form of a memorandum one copy of which shall bear the prescribed court-fee, setting forth concisely the grounds of objection to the direction and shall be accompanied by a certified copy of that direction.

(2) When an appeal is lodged a notice shall issue to the respondent in Form G.

(3) The Court after hearing the parties and after such further inquiry, if any, as it may deem necessary, may confirm, vary, or set aside the direction from which the appeal is preferred, and shall make an order accordingly.

12. *Inspection of documents.*—Any employed person, or any employer or his representative, or any person permitted under sub-section (2) of section 15 to apply for a direction, shall be entitled to inspect any application, memorandum of appeal, or any other document filed with the Authority or the Court, as the case may be, in a case to which he is a party, and may obtain copies thereof on the payment of such fees as may be prescribed.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

NOTIFICATION.

Simla, the 20th August, 1936.

No. F. 134-I/36-A.—Under Rule 18 of the Indian Legislative Rules, the Governor General has been pleased to order the publication in the Gazette of India of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly published for general information:—

L. A. BILL No. 31* OF 1936.

A Bill further to amend the Indian Motor Vehicles Act, 1914, for certain purposes.

WHEREAS it is expedient further to amend the Indian Motor Vehicles Act, 1914, for the purposes hereinafter appearing; It is hereby enacted as follows:— VIII of 1914.

Short title and extent.

1. (*1*) This Act may be called the Indian Motor Vehicles (Amendment) Act, 1936.

(*2*) It extends to all parts of British India in which the Indian Motor Vehicles Act, 1914, or any part thereof is now in force, except the United Provinces; but the Local Government of the United Provinces may, by notification in the local official Gazette, extend this Act to that Province. VIII of 1914.

Amendment of section 2, Act VIII of 1914.

2. In section 2 of the Indian Motor Vehicles Act, 1914 (hereinafter referred to as the said Act),— VIII of 1914.

(*a*) in the definition of "Motor vehicle", for the word "includes" the word "means" shall be substituted, and to that definition the following words shall be added, namely:—

", and includes a vehicle drawn by or attached to or adapted to be drawn by or attached to such vehicle, carriage or means of conveyance"; and

(*b*) after the definition of the words "public place" the following definition shall be inserted, namely:—

"'transport motor vehicle' means a motor vehicle used or normally used for the carriage for hire or reward of passengers or of passengers and goods, or a motor vehicle used or normally used for the carriage of goods whether for hire or reward or otherwise, and includes any motor vehicle having seating capacity for more than seven persons."

Insertion of new sections 10A and 10B in Act VIII of 1914.

Transport authorities and road service permits.

3. After section 10 of the said Act the following sections shall be inserted, namely:—

"10A. (*1*) The Local Government may, by notification in the local official Gazette, constitute for the province and for specified areas or for specified roads in the province, transport authorities to exercise and discharge throughout the province or such areas or roads respectively the powers and functions conferred by or under this Act on transport authorities, or such of those powers and functions as may be specified in the notification either in respect of all transport motor vehicles or in respect of specified classes of transport motor vehicles.

(*2*) Where any transport authority has been constituted by notification under sub-section (*1*) no transport motor vehicle or no transport motor vehicle of a class specified in the notification as the case may be shall, save as otherwise provided under clause (*b*) of section 11A, be used in any public place except under and in accordance with the conditions of a

*The Governor General has been pleased to accord the sanction required by section 67(2) of the Government of India Act.

road service permit issued or countersigned by the transport authority having jurisdiction in respect of such place.

Powers of transport authorities.

10B. A transport authority may, subject to the provisions of any rules made under section 11A,—

(*a*) limit the number of transport motor vehicles or the number of any specified class of transport motor vehicles in respect of which road service permits may be granted for a specified area or a specified route;

(*b*) issue road service permits in respect of particular vehicles or a service of vehicles for a specified area or a specified route;

(*c*) attach to road service permits any prescribed condition and any one or more of the following conditions, namely:—

(*i*) that the charges made for the carriage of passengers or goods in any vehicle covered by the permit shall be as fixed by, or within limits fixed by, the transport authority or other prescribed authority;

(*ii*) that any vehicle covered by the permit or, in the case of a service of vehicles, the vehicles of that service shall adhere to a time-table to be approved by the transport authority or other prescribed authority;

(*iii*) that time-tables and fare-tables shall be published to the satisfaction of the transport authority or other prescribed authority;

(*d*) modify any road service permit issued by it."

Amendment of section 11, Act VIII of 1914.

4. In sub-section (*2*) of section 11 of the said Act,—

(*a*) to clause (*c*) the following words shall be added, namely:—

"and in the case of transport motor vehicles, providing for limiting the number of passengers carried in, or the maximum laden weight of, any such vehicle, and for the inspection of such vehicles or any class of such vehicles",

(*b*) clause (*e*) shall be omitted;

(*c*) after clause (*f*) the following clause shall be inserted, namely:—

"(*ff*) providing for the establishment of authorised stations for the regular taking up or setting down of passengers and goods by transport motor vehicles of any specified class in any specified area, and for prohibiting the use for that purpose of any place not so authorised;";

(*d*) After clause (*g*) the following clause shall be inserted, namely:—

"(*gg*) in the case of transport motor vehicles or any class thereof, regulating the conduct of passengers, drivers and conductors, prescribing the records to be maintained by drivers and conductors, and limiting the hours of work of drivers;";

(*e*) in clause (*h*), before the word "prohibiting" the words "restricting in respect of specified areas or roads the classes of motor vehicle that may be driven and" shall be inserted, and the word "and" shall be omitted;

(*f*) after clause (*h*) the following clause shall be inserted, namely:—

"(*hh*) requiring the owners of motor vehicles or any class of motor vehicles to effect policies of insurance against liabilities incurred through the death or bodily injury of any person caused by or arising out of the use of such vehicle in a public place, defining the provisions to be included in such policies, and specifying the companies with which such policies may be effected; and".

Insertion of new section 11A in Act VIII of 1914.

5. After section 11 of the said Act the following section shall be inserted, namely:—

Further power of of Local Government to make rules respecting transport authorities and road service permits.

"11A. The Local Government may, by notification in the local official Gazette, and subject to the condition of previous publication, make rules for all or any of the following purposes, namely:—

(*a*) prescribing the form and the duration of road service permits, the fees (if any) payable in respect thereof, and the procedure to be followed in applying therefor;

(*b*) providing for the issue of special or temporary road service permits;

(*c*) prescribing the conditions that may be attached to road service permits;

(*d*) regulating the powers and functions of transport authorities;

(*e*) regulating the procedure of transport authorities;

(*f*) defining the considerations by which transport authorities shall be guided in granting or refusing to grant road service permits;

(*g*) providing for appeals from the orders of transport authorities;

(*h*) prescribing the conditions and limitations subject to which road service permits may be suspended or cancelled, and the authorities (other than the Local Government or a transport authority) which may suspend permits, and providing for appeals against the orders of any such authorities;

(*i*) prescribing the authorities (other than the transport authority) referred to in clause (*c*) of section 10B."

Amendment of section 18, Act VIII of 1914.

6. In section 18 of the said Act,—

(*a*) in clauses (i) and (ii) of sub-section (*1*), after the word "licence" the words "or road service permit" shall be inserted;

(*b*) after sub-section (*1A*) the following sub-section shall be inserted, namely:—

"(*1B*) A transport authority may cancel or suspend a road service permit issued by it, and the prescribed authority may suspend any road service permit."; and

(*c*) after sub-section (*7*) the following sub-section shall be inserted, namely:—

"(*8*) The provisions of sub-sections (*4*), (*5*), (*6*) and (*7*) relating to licences shall apply in like manner to road service permits."

Saving of rules made under section 11.

7. Notwithstanding the repeal by this Act of clause (*e*) of sub-section (*2*) of section 11 of the said Act, rules made under that clause and in force at the commencement of this Act shall continue to be in force and of effect until cancelled by the Local Government by notification in the local official Gazette.

STATEMENT OF OBJECTS AND REASONS.

The Indian Motor Vehicles Act, 1914, was framed to suit conditions prevailing at a very early stage in the development of motor transport in India. The rapid growth of that form of transport in twenty-two years makes it necessary to empower local authorities to exercise a closer control than the present Act permits in the interests alike of the development of a co-ordinated policy of roads and railways, and of the safety and convenience of the public.

The question of the co-ordination of road and railway, the elimination of wasteful and uneconomic competition between the two forms of transport and the methods by which these objects can be secured consistently with the public interest, has engaged the attention of the Government of India for some years past. In 1932-33, Messrs. Mitchell and Kirkness carried out, at the instance of the Government of India, an enquiry into these problems and their report, which was published in January 1933, emphasised the importance of early action. The Road-Rail Conference convened by the Government of India in April 1933 passed a resolution, *inter alia*, recommending control of public service and goods motor transport in the interests of public safety and convenience, and restriction of vehicles to prevent wasteful competition. Thereafter, in January 1935, the Transport Advisory Council, at its first meeting, made definite recommendations to the same effect. Amendments to the Act were drafted to give effect to the recommendations as far as possible and Local Governments were consulted. The latter were, on the whole, in favour of legislation but there were differences on points of detail. It is generally recognised that it will be necessary, before long, to undertake a general revision of the Act, but the Government of India consider that it is essential in the meantime to give powers to Local Governments to regulate transport motor vehicles, as well as trailers and other attachments, and to enforce where necessary regional and route control as recommended by the Transport Advisory Council. The Government of the United Provinces have already enacted a similar measure. The Bill now presented is the outcome of the discussions referred to and represents the final recommendations of the Transport Advisory Council at its last meeting in July 1936.

F. NOYCE.

SIMLA;

The 3rd August, 1936.

NOTES ON CLAUSES.

Clause 1 (*1*).—In order to avoid possible complications on the coming into force of the Government of India Act, 1935, it is proposed that the amendments take effect forthwith. Clause 7 ensures that there will be no embarrassment to Local Governments.

Clause 1 (*2*).—Since the local legislature of the United Provinces have recently passed an Act much on the lines of the Bill, it is proposed to exclude that Province from the immediate scope of the Bill, but provide that the Local Government may, by notification in the Local Gazette, extend the amended Act to the United Provinces.

Clause 2 (*a*).—The widening of the definition of "motor vehicle" is intended to bring trailers and other attachments as such within the scope of the provisions of Part III of the 1914 Act. Suitable exemptions can be allowed under section 13 if Local Governments consider it unnecessary to require the registration of light trailers or other attachments.

Clause 2 (*b*).—The term "transport motor vehicle" has been used in preference to the more familiar "public service motor vehicle" or "public motor vehicle" as less likely to cause confusion with the British Acts and existing provincial rules. The term has been very widely defined so as to include not only vehicles *used* for the carriage for hire or reward of passenger or goods or both but vehicles *adapted for such use*. This must be borne in mind in considering the suitability of the provisions which follow.

Clause 3.—Proposed new section 10A.—(*1*) This sub-clause as drafted gives Local Governments very wide discretion as to the authorities to be appointed the powers to be exercised by those authorities, and the classes of public transport motor vehicles to be controlled. In the opinion of the Government of India it is desirable to empower Local Governments to constitute, in each province, a provincial authority with power to supervise and co-ordinate, and "area" authorities exercising jurisdiction within specified areas.

(*2*) This sub-clause introduces no new principle, as motor vehicles which are let or plied for hire are already subject to special regulation. The word "countersigned" has been preferred to "endorsed," in view of the special meaning attached to endorsements in section 18.

Proposed new section 10B.—(*a*) This confers power to limit the number of public transport motor vehicles of any specified class to be used in any area or on any specified route. The absence of this power is one of the main defects in the Act as it now stands.

(*b*) "Road Service Permits" may be granted for an area or a route and not only for individual vehicles but for "services" or "fleets," *e.g.*, an owner employing ten vehicles of which not more than 8 are in use at any one time would be able to obtain a permit covering the simultaneous use of eight vehicles of a stated capacity.

(*c*) It will be seen that power is given to fix the limits of the rates to be charged for goods. It is obviously desirable that the transport authority or other prescribed authority should have such power.

(*d*) The power to cancel or suspend is dealt with in clause 6.

Clause 4.—(*a*) Provision for inspection is clearly needed. Vehicles found on inspection to be unfit for use can be dealt with under rules made under section 11(*2*) (*i*).

(*b*) In view of new sections 10B and 11A, section 11 (*2*) (*e*) is no longer required and it is proposed to repeal it subject to the safeguard provided in clause 7.

(*c*) Unauthorised bus stands have been found to be a source of confusion and have interfered with proper traffic regulation.

(*e*) It is considered that existing clauses (*c*), (*h*) and (*i*) of section 11 (*2*) are possibly insufficient to enable Local Governments to make rules regulating the classes of motor vehicles which may be used in specified areas or on specified routes, or where necessary prohibiting altogether the use of specified classes of motor vehicle.

(*f*) The first Transport Advisory Council which met in January 1935, recommended that provision should be made for insurance against passenger and third party risks, and the importance of having such a provision has been brought to notice in connection with several road accidents in recent months.

Clause 5.—The new section 11A confers rule making powers on Local Governments with special reference to transport motor vehicles, transport authorities and road service permits which will enable them to carry out the recommendations of the Transport Advisory Council.

Clause 6.—Local Governments are given full discretionary powers to cancel or suspend road service permits and to make disqualifications; transport authorities are given power to cancel or suspend road service permits issued by them, and other prescribed authorities the power to suspend road service permits.

Clause 7 is intended to remove any doubts that might exist as to the rules now in force.

No. 10332A.—2nd September 1936.—In exercise of the powers conferred by rule 44 of the Civil Services (Classification, Control, and Appeal) Rules, 1930, the following rules are hereby made by the Local Government:—

Part I.

1. These rules shall be called the Bengal Subordinate Services (General Recruitment) Rules, 1936.

2. They shall apply to all subordinate services and posts under the Government of Bengal, other than—

(1) Services or posts manned by—

(*i*) persons employed occasionally or subject to discharge at less than one month's notice; or

(*ii*) persons for whose appointment and conditions of employment special provision is made by or under any law for the time being in force;

(2) services or posts which have been excluded from the operation of the Civil Services (Classification, Control and Appeal) Rules by declaration of the Local Government under rule 4 of those rules.

3. All rules and orders issued by the Governor in Council or the Governor acting with his Ministers, as the case may be, to regulate recruitment to particular subordinate services and posts shall be so framed and shall be so interpreted as to be consistent with these rules.

4. For the purpose of these rules—

(1) where there is nothing in the context repugnant thereto "Government" shall mean the local Government as defined in section 134(4) of the Government of India Act, 1919;

(2) the "appointing authority" means the authority having power to fill a post substantively;

(3) "recruitment" means the appointment to a service or post—

(*a*) of a person not already in Government service;

(*b*) of a person in Government service to a service or post which is not included in the cadre of his service or recognised by the local Government to be a post normally filled by persons in his service or post.

5. All first appointments to subordinate services and posts included in the Schedule to the Subordinate Services (Discipline and Appeal) Rules, 1936, shall be made by the authority mentioned in column 2 of that Schedule.

6. All first appointments to subordinate services or posts not included in the Schedule to the Subordinate Services (Discipline and Appeal) Rules, 1936, shall be made by the head of the office in administrative charge of the service or post.

NOTE.—If any doubt arises as to who is the head of the office for the purposes of this rule the matter shall be referred to Government whose decision shall be final.

7. No person shall be appointed to any subordinate service or post who is not of good character, sound health, good physique and active habits and free from organic defect or physical infirmity and in respect of whom the appointing authority is not satisfied that he is physically fit and in all respects suitable for appointment to Government service.

8. Without the previous sanction of the Governor-General in Council, no person shall be appointed to any subordinate service or post who is not a British subject or the subject of a State in India.

9. In special circumstances and for reasons to be recorded in writing and subject to the provisions of Subsidiary Rule 7 of the Fundamental and Subsidiary Rules, a person whose age does not fall within the limits prescribed by any rule or order may be appointed to a subordinate service or post with the specific sanction of the Head of the Department previously obtained.

Part II.

10. To regulate recruitment to any of the subordinate services or posts Government may frame special recruitment rules which shall prescribe the method of recruitment, the age limits, and the physical, educational, and other qualifications required from candidates.

11. Such special rules shall provide:—

A. In the case of subordinate services or posts entered in the Schedule to these rules that—

(*i*) Candidates not already in Government service shall before appointment, be required to attend before a Medical Board or an officer in medical charge of a civil station and submit to a test similar to that prescribed for candidates for a provincial service.

(*ii*) Unless recruitment is made from among persons already in Government service—

(*a*) The number of vacancies shall be publicly notified beforehand, together with instructions for the submission of applications and other particulars for the guidance of candidates.

(*b*) Every candidate must furnish with his application certificates written not more than one year prior to the date of his application from two responsible persons not related to him nor connected with him by marriage, testifying to his private character; these certificates must be in addition to any furnished from persons connected with his college or university.

(*iii*) Recruitment of all candidates whether in Government service or not shall be made either on the result of a competitive examination or after consultation with a selection committee constituted by the appointing authority in accordance with principles approved by Government.

(*iv*) No person will be eligible for appointment to a subordinate service or post who has endeavoured to enlist for his candidature the support of persons of influence or of officials of Government. Spontaneous recommendations from persons interested in, or otherwise known to, the candidate will be disregarded.

B. In the case of other subordinate services or posts that—

Candidates not already in Government service shall before appointment (1) be subjected to a prescribed medical test or furnish a certificate of health signed by a commissioned medical officer of Government or by an officer in medical charge of a civil station, and (2) furnish certificates of character to the satisfaction of the appointing authority.

12. Any subordinate service or post may be entered into or removed from the Schedule to these rules at any time by order of the local Government.

Building by-laws regulating construction of buildings in less advanced municipalities (section 328 of the Bengal Municipal Act, 1932).

1. *Particulars to accompany application of erecting or re-erecting a masonry building.*—Every person who intends to erect or re-erect a masonry building shall forward to the Chairman an application with a plan and specification of the building and a site-plan of the land on which he proposes to make the erection or re-erection. In the said application he shall give a description of the building and its dimensions, and shall indicate the position of the site, the number assigned to it in the assessment book, its dimensions and such other particulars as may be required by the commissioners.

2. *Floor of buildings used for manufacture and storage of article for human consumption.*—The floor of every masonry building intended to be used for the manufacture or storage of articles for human consumption, shall be constructed of some impermeable material approved by the commissioners.

3. *Building over municipal drain.*—A masonry building shall not extend over any municipal drain.

4. *Level of floor.*—The lowest floor of every masonry building erected or re-erected from the ground shall be constructed at such level as will admit of the construction of a drain sufficient for the effectual drainage of the building, and placed at such level as will admit of the drainage being led into an existing or projected municipal drain.

5. *Foundation.*—Except with the sanction of the commissioners, the foundation of a masonry building shall rest on natural ground.

6. *Plinth.*—The plinth of a masonry building shall be at least two feet above the level of the centre of the nearest street: provided that the plinth of stables and cow-sheds need not be more than one foot above such level.

7. *Walls in building exceeding one story in height.*—(*1*) If a masonry building exceeds one story in height—

(*a*) no part of any wall, other than a cornice or a moulding, shall overhang any part of a wall underneath it; and

(*b*) every wall shall be of such thickness as the commissioners may consider necessary to ensure safety, regard being had to the height of the building, the materials of which it is constructed and the purpose for which it is intended.

(*2*) Nothing contained in sub-rule (*1*) shall prevent the erection of a second story upon an existing masonry building, the walls of which are certified by the commissioners as being able to bear the load proposed to be put upon them.

8. *Interior courtyards and open spaces to be raised.*—Every interior courtyard and every open space shall be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage.

9. *Height.*—No masonry building exceeding fifty feet in height shall be erected without the special permission of the commissioners.

10. *Site-plan.*—The site-plan sent to the Chairman under rule 1 shall be drawn to a scale of not less than one-fiftieth of an inch to a foot, shall be sent in duplicate and shall show—

(*a*) the boundaries of the site and of any contiguous land belonging to the owner thereof;

(*b*) the position, form and dimensions of privies, urinals, drains, cesspools, stables, cattle-sheds, cow-sheds, wells and other appurtenances of the building;

(*c*) the space which it is proposed to leave about the building to secure the free circulation of air, the admission of light and access for scavengering purposes; and

(*d*) such other particulars as may be required by the commissioners.

11. *Building-plan.*—The plan of the building (and the elevations and sections, whenever necessary), sent to the commissioners under rule 1, shall be neatly and accurately drawn to a scale of not less than one-eigth of an inch to a foot, shall be sent in duplicate and shall show—

(*a*) the depth and width of the foundation of the building;

(*b*) the level of the lowest floor of the building; and

(*c*) the level of all courtyards and open spaces in the building or premises and the plinth level of the building with reference to the level of the centre of the nearest street.

12. *Specifications.*—The specifications sent to the Chairman with any such plan shall comprise full information as to the following particulars :—

(*i*) the manner in which roof and house drainage and the surface drainage of the land will be disposed of;

(*ii*) the means of access to service-privies that will be available to scavengers;

(*iii*) the means of ingress and egress if the building is intended to be used as a dwelling house for two or more families or as a place for carrying on any trade or business in which more than 20 people may be employed, or as a place of public-resort; and

(*iv*) such other particulars as may be required by the Commissioners.

13. *Signature of plans, elevations and sections.*—The plan, elevation and sections referred to in rules 10 and 11 shall be signed clearly and in a prominent place by the owner of the building, or if he is illiterate, by any other person authorised by him to sign in his behalf, in which case they shall be marked with the owner's thumb-impression.

14. *Chairman to sign approved plans.*—The Chairman shall sign all passed plans in token of the approval of the commissioners.

15. *Restriction on application of certain rules.*—Rules 1, 10, 11, 12, 13 and 14 shall not be applied in the case of any alteration of, or addition to, a masonry building, unless one or more of the following works is under taken, namely :—

(*a*) the construction of a roof or an external or party-wall;

(*b*) any repairs to the building which involve the reconstruction of a masonry wall after the same has been entirely or in a great part demolished;

(*c*) the closing of any door or window in an external wall;

(*d*) the construction or removal of an internal wall or partition;

(*e*) any other alteration of the internal arrangements of a building which affects its courtyard or courtyards, or its drainage, ventilation or sanitary arrangements or which affects its security;

(*f*) the addition of any building, room, outhouse or other structure;

(*g*) the roofing of any space adjoining a wall or building; and

(*h*) the alteration of a building for the purpose of effecting a partition.

16. The penalty for the infringement of any of the by-law Nos. 2 to 9 shall be—

(*a*) a fine not exceeding Rs. 50, and

(*b*) in the case of a continuing infringement, a daily fine not exceeding Rs. 5 for each day after written notice of the offence is served by the commissioners.

24-Parganas.—No. 6877M.—2nd September 1936.—The following draft by-laws, which has been framed by the commissioners of the South Dum Dum Municipality, in the district of 24-Parganas, under section 417 of the Bengal Municipal Act, 1932 (Bengal Act XV 1932), and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 506 of the Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 4th December 1936 and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered :—

Draft by-laws.

By-laws regarding standardization of weights and measures (section 417 of the Bengal Municipal Act, 1932).

1. In these by-laws the word "vendor" includes a shop-keeper, stall-holder, squatter or other salesman in any market or in any other place within the municipality.

2. All vendors within the municipality shall use—

(*i*) Government standard weights, that is to say, a *maund* consisting of forty *seers*, a *seer* consisting of eighty *tolas* and a *tola* consisting of one hundred and eighty *grains;* and

(*ii*) a standard cubit consisting of eighteen inches for the measures of commodities other than land.

3. The commissioners shall require the Superintendents of the municipal markets or any other officers duly authorised by them in that behalf, and may require the owner, manager or other person in charge of a private market to keep in their custody standards of weights and measures conforming with the standard prescribed in by-law 2 for the purpose of verifying the weights and measures used by any vendor for the sale of articles in any market or in any other place. Such Superintendents or other officers duly authorized by the commissioners shall keep in their custody a die for the purpose of stamping weights and measures, which have been duly verified in the manner provided in by-law 4.

4. The Superintendent of a municipal market or any other officer duly authorized by the commissioners in that behalf, shall, not less than once in every three months, test and verify the weights and measures used by each vendor in every market or other place by comparison with the aforesaid standards and shall also similarly test and verify every weights or measure that may be brought to him by any person at his office for the purpose of verification; and if, in either case, he finds the same to be correct, shall stamp it with the die mentioned in by-law 3 by way of verification on payment of such fee, not *exceeding annas four* in each case as the commissioners may from time to time direct :

Provided that weights and measures once stamped shall not be stamped with the die a second time unless the stamp has become faint or obliterated.

Bogra.—No. 7012M.—5th September 1936.—The following draft of by-laws, which has been framed by the Commissioners of the Bogra Municipality, in the district of Bogra, under section 375(*a*) of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 506 of the Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 1st December 1936, and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered:—

Draft by-laws.

By-laws under clause (a) of section 375 of the Bengal Municipal Act, 1932, for the regulation of conduct of business in places used for the purposes mentioned in clauses (i), (ii) and (v) of sub-section (1) of section 370.

1. The licensee shall connect all drains in the place licensed under section 370 intended for the discharge of foul water with a municipal sewer, and the licensee shall not allow any foul water or refuse matter from such place to be discharged into a river, or channel, or any other reservoir of water intended for bathing, drinking or any other domestic purpose.

2. Where there is no sewer, the licensee shall collect the waste water from a place licensed under section 370 in properly constructed cesspools. Such cesspools shall be periodically cleansed or treated by the licensee in such a way as to render them inoffensive by activated sludge process or the contents thereof shall be otherwise disposed of in such manner as may be required by the Sanitary Inspector, Health Officer, or Chairman.

3. The licensee shall arrange for sufficient supply of water for cleansing the place licensed under section 370.

4. The licensee shall not cause or suffer any skin or hide which by reason of decomposition has become useless for the purpose of leather dressing, to be kept for a longer time than may be necessary in any part of the place licensed under section 370.

5. The licensee shall, at the close of every working day, cause every floor or pavement in the place licensed under section 370 to be thoroughly swept and washed. He shall, at the same time, cause all filth or refuse deposited on the floor or pavement of such place to be collected in suitable vessels or receptacles furnished with closely fitting covers and to be forthwith removed therein from the place.

6. The licensee shall cause the supply of water in every tank or other receptacle used upon the place licensed under section 370 for the washing or soaking of any skin or hide and not being a liming pit to be renewed as often as may be necessary to prevent the emission of noxious or injurious effluvia from the contents of the tank or other receptacles.

He shall cause every such tank or other receptacle to be furnished with a suitable cover and to be kept covered unless it is required to be kept open.

He shall cause every part of the tank or other receptacle, when emptied, to be thoroughly cleansed and shall cause all filth which has been removed therefrom to be forthwith conveyed from the place licensed under section 370 in suitable vessels or receptacles furnished with closely fitting covers, for disposal in a manner approved by the Commissioners.

7. The licensee shall cause all waste lime which has been taken out of any pit upon the place licensed under section 370 to be forthwith deposited in suitable vessels or receptacles or in a properly constructed cart or carriage which, when filled or loaded, shall be covered in such a manner as to prevent the emission of noxious or injurious effluvia from the contents thereof, and shall with all reasonable despatch be removed from the said place for deposit in a place fixed by the Commissioners or disposal in a manner approved by the Commissioners.

8. The licensee shall cause every beam, table, bench, knife, hammer or other implement or apparatus used upon the place licensed under section 370 for the purpose of unhairing, fleshing, breaking, scrapping, rounding, scudding or stocking any hide, butt or pelt or in any other process of his trade, to be cleansed from time to time as often as may be necessary to prevent any accumulation of filth upon the beam, table, bench, knife, hammer, implement, or apparatus.

9. The licensee shall cause all filth which has been splashed upon any part of the internal surface of any wall of any building upon the place licensed under section 370 to be removed by scraping or by some other effectual means of cleansing at least twice in every year, that is to say, at least once during each of the periods between the first and twenty-first day of March and the first and twenty-first day of September. He shall at the same time cause every part of the internal surface above the floor or pavement of the building to be thoroughly washed with hot limewash:

Provided (*i*) that the foregoing requirements as to limewashing shall not apply to any part of the internal surface of any building which is painted or covered with impervious material and may be otherwise properly cleansed, and (*ii*) that this by-law shall not apply to any part of any such building which is used only for the storage of dry leather.

10. The licensee shall cause any part of the internal surface of the walls of any building and every floor or pavement upon the place licensed under section 370 to be kept at all times in good order and repair so as to prevent the absorption therein of any liquid filth or refuse or any noxious or injurious matter which may be splashed or may fall or be deposited thereon.

11. The licensee shall cause every part of the interior and exterior of every tub or other vessel or receptacle used upon the place licensed under section 370 to hold a solution of the material known as "puer" to be thoroughly cleansed by scrubbing or by some other effectual means once at least in every week.

12. In a place licensed under section 370 in which the fleshing meat is dried for subsequent sale for the manufacture of such articles as glue or jujubes, the licensee shall cover the drying area by wire netting so as to prevent carrion birds from carrying away the material and dropping it in the vicinity of inhabited areas.

13. A breach of any of the provisions of by-laws 1 to 12 shall be punishable with fine which may extend to fifty rupees and when the breach is a continuing one, with a further fine which may extend to five rupees for every day after the date of first conviction during which the offender is proved to have persisted in the offence.

24-Parganas.—No. 7014M.—5th September 1936.—The following draft of by-laws, which has been framed by the Commissioners of the Bhatpara Municipality, in the district of 24-Parganas, under section 417 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 506 of the Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 7tth December 1936 and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered:—

Draft by-laws.

By-laws regarding standardization of weights and measures (section 417 of the Bengal Municipal Act, 1932).

1. In these by-laws the word "vendor" includes a shop-keeper, stall-holder, squatter or other salesman in any market or in any other place within the municipality.

2. All vendors within the municipality shall use—

(*i*) Government standard weights, that is to say, a *maund* consisting of forty *seers*, a *seer* consisting of eighty *tolas* and a *tola* consisting of one hundred and eight *grains*; and

(*ii*) a standard cubit consisting of eighteen inches for the measure of commodities other than land.

3. The Commissioners shall require the Superintendents of the municipal markets or any other officers duly authorised by them in that behalf, and may require the owner, manager or other person in charge of a private market to keep in their custody standards of weights and measures conforming with the standard prescribed in by-law 2 for the purpose of verifying the weights and measures used by any vendor for the sale of articles in any market or in any other place. Such Superintendents or other officers duly authorized by the Commissioners shall keep in their custody a die for the purpose of stamping weights and measures, which have been duly verified in the manner provided in by-law 4.

4. The Superintendent of a municipal market or any other officer duly authorized by the Commissioners in that behalf, shall, not less than once in every three months, test and verify the weights and measures used by each vendor in every market or other place by comparison with the aforesaid standards and shall also similarly test and verify every weight or measure that may be brought to him by any person at his office for the purpose of verification; and if, in either case, he finds the same to be correct, shall stamp it with the die mentioned in by-law 3 by way of verification on payment of such fee, *not exceeding annas four* in each case as the Commissioners may from time to time direct:

Provided that weights and measures once stamped shall not be stamped with the die a second time unless the stamp has become faint or obliterated.

No. 7028L. S.-G.—7th September 1936.—In exercise of the power conferred by section 12 of the Bengal Motor Vehicles Tax Act, 1932 (Bengal Act I of 1932), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendment in the rules published under notification No. 5859L.S.-G., dated the 31st October 1933, at

pages 1575-1593 of Part I of the *Calcutta Gazette*, dated the 9th November 1933 :—

Amendment.

At the end of rule 37 of the said rules *add* the following :—

"Provided that failure to surrender a token when claiming a refund shall not be a bar to the granting of the refund, if the Taxing Officer is satisfied that the token has been destroyed under circumstances beyond the control of the owner and which did not call for the application for a duplicate under rule 17."

CALCUTTA, THE 1st SEPTEMBER 1936.

RESOLUTION—No. 6846M.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The situation created by the mal-administration of the Vishnupur Municipality (in the district of Bankura), particularly in respect of the Assessment and Collection Departments has been under the consideration of Government for some time past. Their attention was first drawn to the matter in May 1935 by the local officers who recommended that these two departments of the municipality be superseded under section 550 of the Bengal Municipal Act, 1932, for a period of two years. The case for supersession of the Collection Department was based mainly on the ground that collections were extremely unsatisfactory and that the measures provided by law for the realisation of taxes had been neglected. It was reported that the outstanding arrears of taxes at the end of the year 1934-35 amounted to Rs. 13,416 against a current demand of Rs. 12,920 with nearly half the holdings out of assessment and that in spite of the large arrears the distress warrants issued by the municipality covered only a small portion of the demand. The proposal for superseding the Assessment Department was based on the fact that the Municipal Commissioners had not taken, nor had they shown any intention of taking, any action towards imposing a rate on holdings under the new Municipal Act, in spite of warnings from the local officers. On the facts reported, Government were of opinion that there was a strong *prima facie* case for superseding the Assessment and Collection Departments of the municipality; but before taking this extreme step, they considered it desirable to give the Municipal Commissioners a chance to improve their administration within a reasonable time and, accordingly in July 1935, a warning was given to the Municipal Commissioners to the effect that Government would seriously consider the question of superseding the two departments unless the Commissioners took necessary steps towards the imposition of a rate on holdings in place of the tax on persons from the commencement of the year 1936-37 and showed considerable actual improvement in the collection of taxes within a period of three months. Under the orders of Government, the Subdivisional Officer of Vishnupur inspected the municipality on the 21st October 1935. It appeared from his report that the Municipal Commissioners had practically taken no steps towards the introduction of the rate on holdings and the improvement of collections in spite of the warning given by Government. The municipality was again inspected by the District Magistrate on the 16th January 1936 and it appeared from his inspection notes that the Municipal Commissioners had not been able to effect any real improvement in the collection of the arrear and current taxes and that they had made no progress in the matter of imposition of a rate on holdings in place of the tax on persons under the old Municipal Act.

2. In view of the above state of affairs, the Municipal Commissioners were called upon, under section 550, sub-section (*1*), of the Bengal Municipal Act, to show cause why steps should not be taken to appoint a suitable person to take charge of the Assessment and Collection Departments of the municipality for a period of two years.

Government have carefully considered the explanation given by the Municipal Commissioners. They are of opinion that the inordinate delay made by the Commissioners in appointing an assessor for the purpose of imposing a rate on holdings was entirely unjustified and it only shows that they never seriously contemplated revising the assessment in accordance with the provisions of the new Municipal Act. There has no doubt been some improvement in the collection of taxes but the arrears are still very large and were allowed to accumulate for far too long a period. The improvement has not also been at all commensurate with the desperate financial position of the municipality.

3. In the circumstances stated above, Government of Bengal (Ministry of Local Self-Government) have come to the conclusion that the Commissioners of the Vishnupur Municipality have, in respect of the Assessment and Collection Departments, persistently made default in the performance of the duties imposed on them by the Municipal Act, and in exercise of the power conferred by sub-section (*2*) of section 550 of the Bengal Municipal Act, 1932, they direct that the Subdivisional Officer of Vishnupur shall take charge of the said departments for a period of two years with effect from the date of publication of this resolution in the *Calcutta Gazette*.

4. Ordered that this resolution be published in the *Calcutta Gazette*.

APPENDIX 18.

[F. R. 74(*a*).]

Instructions issued by the Auditor-General under Fundamental Rule 74.

I. PROCEDURE RELATING TO LEAVE.

Certificate of Admissibility.

1. *Gazetted Government servants.*—Leave should be sanctioned to a gazetted Government servant only after its admissibility has been certified by the Audit Officer who has been auditing his pay.

NOTE.—The leave accounts of the Archdeacon of Calcutta and the President Senior Chaplain, Church of Scotland, Bengal, are maintained by the Accountant-General, Central Revenues. The leave accounts of all other Chaplains both of the Church of England and of the Church of Scotland, including those attached to regiments, are maintained by the Accountant-General of the Province in which they serve. In the case of Chaplains therefore the certificate of admissibility of leave required by the above rule will be issued by the Accountant-General who maintains the leave accounts.

2. *Non-Gazetted Government servants.*—Before leave in India is sanctioned to a non-gazetted Government servant, the authority sanctioning the leave should either consult the leave account prescribed in Fundamental Rule 76, and satisfy himself that the leave is admissible, or obtain a certificate to that effect from the officer entrusted with the attestation of the entries in the leave account. When the application is for leave out of India, the authority sanctioning the leave should obtain a certificate of admissibility from the Audit Officer before sanctioning the leave.

3. *Military Officers.*—When a Military Officer becomes subject to the Civil Leave Rules, the Audit Officer in charge of his record of pension service will, on application and on being furnished with the date of commencement of active service in Civil employ, furnish to the Audit Officer to whose audit he becomes subject, a memorandum showing the furlough earned, the different kinds of leave taken (distinguishing those which should be deducted from the maximum furlough admissible) and the balance of furlough due under Military Rules.

4. (*a*) Applications for leave from Military Officers in Civil employ, whether they are subject to the Military Leave Rules or the Civil Leave Rules, should be sent through the Civil Audit Officer who audits the pay of the officer going on leave. The Civil Audit Officer will, if he considers it necessary, consult the Controller of Military Accounts from whose payment the officer is transferred to the Civil Department before certifying to the leave and specifying the leave salary. No leave should be sanctioned to such an officer before a report is received from the Civil Audit Officer.

(*b*) In the case of a Military Officer subject to the Military Leave Rules the Civil Audit Officer should obtain from the Controller of Military Accounts from whose payment the officer is transferred to the Civil Department a certificate stating the amount of leave to which the officer is entitled, and the rate of leave pay and allowances admissible during the said period of leave, before issuing a leave-salary certificate, or a warrant, or a certificate of leave granted to an officer proceeding on leave out of India who does not intend to draw his leave salary at the Home Treasury or in a Colony.

5. *Government servants in foreign service.*—In the case of a Government servant on foreign service, leave cannot be sanctioned until the Audit Officer of the Government (central or provincial), under which he was permanently employed at the time of his transfer to foreign service, has certified the amount of leave and the leave-salary admissible.

NOTE 1.—For the purpose of this rule, the Accountant-General of the Province in which the contributions towards leave-salary and pension of a Government servant on foreign service are recovered will act as the Audit Officer of the Central Government.

NOTE 2.—In the case of Military Officers in temporary civil employ, the Controller of Military Accounts who receives the foreign service contributions of the officers concerned is responsible for certifying to the amount of leave and leave-salary admissible, the necessary information in the case of military officers subject to the civil leave rules being obtained from the civil audit officer concerned. Similarly in the case of Government servants in commercial departments (*e.g.*, Railways and Indian Posts and Telegraphs Departments) the certificate will be given by the departmental accounts officer who is responsible for bringing the contributions to account.

Payment of Leave-salary in India.

6. *Non-Gazetted Government servants.*—The leave-salary of a non-gazetted Government servant on leave in India or on leave out of India cannot be drawn in India, except under the signature of the head of his office ; and the latter is responsible for any overcharge.

7. *Gazetted Government servants.*—No gazetted Government servant can begin to draw his leave-salary at any office of payment in India without producing a leave-salary certificate from the Audit Officer who audited his pay before he proceeded on leave.

8. The certificate should be in F. R. Form No. 2 B. ; and if during leave the gazetted Government servant desires to change the office at which he receives payment of his leave-salary, he must obtain a new certificate from the Audit Officer within whose jurisdiction his leave-salary was last paid.

8A. A gazetted Government servant desirous of discontinuing his subscription to the General Provident Fund during leave or of subscribing to the Fund at the usual rates during leave on average pay and at half rates during other leave, should intimate his wishes in the matter to his audit officer before proceeding on leave.

8-B. In the case of a Government servant entitled to Sterling Overseas Pay, who draws his leave-salary in India that portion of leave-salary which represents sterling overseas pay is payable by the High Commissioner for India. A separate authority should be issued to the High Commissioner for India for payment of the sterling portion of the leave-salary and to stop payment of duty sterling overseas pay. A copy of this authority should also be sent to the officer to enable him to draw the amount in accordance with the procedure laid down for the payment of leave-salary from the Home Treasury.

9. If a gazetted Government servant signs his bill himself he must either appear in person at the place of payment or furnish a life certificate signed by a responsible officer of Government or some other well-known and trustworthy person. If he draws his leave-salary through an authorised agent, the agent, whether he has or has not a power of attorney, must either furnish a life certificate as aforesaid, or execute a bond to refund overpayments. A life certificate may be given periodically, a bond being given to cover intermediate payments not supported by life certificates.

10. The provisions of paragraphs 7 to 9 above apply also to gazetted Government servants who spend their leave out of India but reside in Asia and who have to draw their leave-salary in rupees in India under Fundamental Rule 91.

NOTE.—A certificate of residence should be obtained from Government servants who draw their leave-salary at the rupee rate.

11. *Railway and Telegraph Departments and Military Engineer Services.*—In the case of the Railway and Telegraph Departments and the Military Engineer Services the above rules will be generally applicable subject to any modifications which may be made by the Accountant-General concerned in accordance with special rules of his department.

12. *Return to duty.*—Before returning to duty a Government servant who has drawn his leave-salary in India should obtain a last-pay certificate from the Audit Officer, within whose jurisdiction his leave-salary was last paid, and deliver it to the Audit Officer who audits his pay. Without such a certificate he cannot obtain payment of any arrears of leave-salary or pay due to him.

Leave out of India.

13. *Memorandum of Informations.*—A copy of the "Memorandum of Information for the guidance of Government servants proceeding on leave out of India" should be supplied to each Government servant proceeding on leave out of India by the Audit Officer who audits his pay, as soon as the grant of leave is gazetted or otherwise notified to him.

14. *Leave-salary Certificate and Colonial Leave-salary Warrant.*—(*a*) A Government servant proceeding on leave out of India and intending

to draw his leave-salary while on leave should be given a leave-salary certificate by the Audit Officer who audited his pay before he proceeded on leave—

(1) in F. R. Form No. 2, if he intends to draw his leave-salary at the Home Treasury ;

(2) in the shape of a leave-salary warrant in Form No. 1 under the Supplementary Rules, if he is proceeding to a Colony and intends to draw his leave-salary there.

(*b*) If during any period of leave on average pay a gazetted Government servant wishes, under the provisions of Fundamental Rule 91, to draw his leave-salary in India, a separate leave-salary certificate should be issued in respect of that period under the provisions of paragraph 8 above.

NOTE 1.—When vacation is taken alone or combined with holidays and spent out of India, or when vacation or/and holidays is/are prefixed or affixed to leave out of India, and is/are actually spent out of India, the Government servant may, in the absence of any specific restriction laid down either in a statutory rule or by a local Government, be authorised to draw his pay or leave-salary or both for the whole period at the Home Treasury or in a Colony, but the exact amounts to be paid on account of each separate period must be stated in the certificate or warrant, as the case may be, issued by the audit officer.

NOTE 2.—When a Chaplain of the Church of Scotland proceeds to the United Kingdom on leave granted by the civil authority on his being reverted for the purpose from military to civil duty and intends to draw his leave-salary from the Home Treasury, the Controller of Military Accounts from whose office he was in receipt of pay sends to the Accountant-General concerned a last-pay certificate on receipt of which a leave-salary certificate should be issued by the Accountant-General.

14A. In the case of a Government servant proceeding on leave to a Dominion or Colony and intending to draw that portion of his leave salary which represents sterling overseas pay from the Home Treasury, the Colonial leave-salary warrant issued under paragraph 14 (2) above should authorise payment of leave-salary based on rupee pay only. A separate intimation should be sent to the High Commissioner to pay that portion of leave-salary which represents sterling overseas pay. A copy of this intimation should also be given to the Government servant in order that he may arrange to draw the amount in accordance with the procedure laid down for the payment of leave-salary from the Home Treasury.

15. When a Government servant proceeds out of India on leave other than extraordinary leave, the Audit Officer who audits his pay will, as soon as the leave is gazetted or otherwise notified, send him a letter in F. R. Form No. 4 with enclosures in F. R. Form No. 5 requiring him to call at his office or give the necessary information.

NOTE.—If a Government servant sent home to Europe as a lunatic is granted leave, a leave-salary certificate should be prepared, if necessary, by the Audit Officer who audits his pay on the data available to him, and forwarded to the High Commissioner for India at the earliest possible date.

16. If the Government servant calls at the Audit office he will be paid up to the date of his relief and will be given a leave-salary certificate in the appropriate form as prescribed in paragraph 14 above. In the case of Government servants proceeding to a Colony, the Colonial leave-salary warrant (Form No. I under the Supplementary Rules) will be issued in triplicate. The original, bearing the Government servant's signature, will be forwarded by the Audit Officer to the Colonial Authority concerned, the duplicate to the High Commissioner for India and the triplicate will be made over to the Government servant concerned.

NOTE.—If the Government servant takes a certificate under clause (*b*) of paragraph 14 above, he will not be paid up to the date of relief, but will be allowed to draw his pay and allowances for the broken period of the month at the commencement of the next month along with the leave-salary for the rest of the month.

17. If the Government servant is unable to call at the Audit office, the Audit Officer will cause the leave-salary certificate to be sent to the address

specified by the Government servant and the pay and allowances to be paid through the Officer from whom the Government servant draws his pay and allowances.

NOTE.—The orders in the Note under paragraph 16 apply also in the circumstances specified in this paragraph.

18. When a Government servant proceeds on extraordinary leave out of India, or on leave on average pay or half average pay out of India during which he does not propose to draw leave-salary, or when a Government servant is given a Colonial leave-salary warrant, he should be given a certificate of leave in Form No. II under the Supplementary Rules. This certificate has to be presented by the Government servant to the High Commissioner for India, if he is on leave in Europe, North Africa, America or the West Indies and applies for extension of leave, or for permission to return to duty or for a last-pay certificate before returning to duty.

NOTE.—Whenever a Government servant is proceeding to a Dominion or Colony which does not account directly to India, a duplicate copy of the certificate in Form II under the Supplementary Rules should be sent to the High Commissioner with the duplicate copy of the Colonial leave-salary warrant (*vide* paragraph 16).

19. *Deleted.*

20. With every leave-salary certificate, Colonial leave-salary warrant or certificate of leave, given to Government servants to whom the leave rules in Sections I to V of Chapter X of the Fundamental Rules are not applicable a blank F. R. Form No. 7 will be given on which the Government servant concerned will report to the Audit Officer, from the first port at which the vessel touches, the day of his departure from India.

21. As soon as an Audit Officer has delivered a leave-salary certificate, certificate of leave or a Colonial leave-salary warrant to a Government servant who proposes to spend his leave out of India, or has caused it to be sent to the address specified by him, he must forward a copy of the leave-salary certificate or certificate of leave, or the duplicate copy of the Colonial leave-salary warrant to the High Commissioner for India.

22. *Deleted.*

23. *Amended Certificate.*—If it becomes necessary to amend a leave-salary certificate in F. R. Form No. 2, the amendment should take the form of a short corrigendum worded so as to show only the particular item or items in which alterations have been made : this corrigendum should be forwarded by the Audit Officer at the earliest possible date to the High Commissioner for India. Every corrected leave-salary certificate, whether original or duplicate, should be marked " Amended Certificate ".

24. *Extension or commutation of leave.*—Whenever the leave of a Government servant absent on leave out of India elsewhere than in Europe, North Africa, America, or the West Indies is extended or commuted by the authority in India which granted the leave, the fact should forthwith be notified by the Audit Officer to the High Commissioner for India to enable him to check the payment by Colonial Treasurers or Staff Officers.

NOTE.—This rule applies to Military Officers subject to the Military Leave Rules.

25. If the leave of a Government servant who draws his leave-salary in India under the provisions of Fundamental Rule 91 is extended or commuted, the Audit Officer who audited his pay at the time he proceeded on leave must, on receiving advice of such extension or commutation, forthwith communicate it to the Audit Officer within whose jurisdiction his leave-salary is drawn. He should also communicate any other circumstances connected with the leave which may be required to be known to the Audit Officer who passes the Government servant's leave-salary.

26. *Issue of a fresh Colonial leave-salary warrant.*—When no space for the entry of endorsements of payments remains upon the back of a Colonial leave-salary warrant, or when a warrant is lost or destroyed, a fresh warrant should be issued by the Audit Officer who issued the original warrant on the application of the Government servant concerned submitted through the Colonial Disbursing Officer.

27. *Return to duty.*—A Government servant who was on leave in Europe must, on return to India, deliver to the Audit Officer the last-pay certificate obtained by him from the High Commissioner before he can obtain payment of any arrears of leave-salary or pay due to him. A Government servant who has drawn his leave-salary on a warrant must deliver his copy of the warrant, which will serve as a last-pay certificate.

28. *Railway and Military Accounts Departments.*—Changes in the above rules, except those which relate to Colonial leave-salary warrants, may be made by the Controller of Railway Accounts, or the Military Accountant-General in accordance with the special rules of his own department.

Special Rules relating to Military Officers.

29. As soon as the grant of furlough or leave to a Military Officer in Civil employ has appeared in orders, the Audit Officer from whose payment the Officer is transferred to the Civil Department must, in the case of furlough to Europe, North Africa, America or the West Indies, forward to the High Commissioner for India a statement of the officer's service in such form as the Military authorities may prescribe. This statement is not required in the case of officers proceeding on furlough under the Staff or British Leave Rules.

30. When furlough or leave or an extension of furlough or leave is granted to a Military Officer in Civil employ, whether subject to the Civil or the Military Leave Rules, the Civil Audit Officer should intimate to the Audit Officer from whose payment the officer is transferred to the Civil Department the date of the beginning and end of the furlough or leave, the dates of embarkation and debarkation in the case of furlough out of India, as well as those of being struck-off or of resuming duty.

31. *Deleted.*

32. On the return of an officer from furlough or leave, it will be the duty of the Audit Officer in charge of his record of pension service to satisfy himself that he has returned within his leave ; and, if not, to report the case to the authority which sanctioned the leave.

Leave Account.

33. The leave account prescribed in Fundamental Rule 76 should be kept in F. R. Forms No. 9 and No. 9-A. in respect of Government servants under the Special Leave Rules and Ordinary Leave Rules respectively. The office in which the account should be kept for any Government servant and the person by whom the entries should be attested will be such as are prescribed by the local Government.

The leave accounts of permanent piece-workers and of permanent salaried industrial employees (below the grades of Overseer and Assistant Manager) in the Government of India presses, who are not classed as " Inferior ", should be kept in F. R. Forms 9-B and 9-C respectively.

NOTE.—A leave account in the subjoined form has been prescribed for inferior servants in the Railway Department who do not take leave exceeding one-eleventh of duty.

Leave Account Form.

Duty. 1					Leave earned at 2-11th of duty. 2	Leave equivalent to 1-11th of duty (*i.e.*, half of the period shown in column 2). 3	Leave. taken. 4	Balance of leave equivalent to 1-11th of duty (columns 3—4). 5
From.	To	Year.	Month.	Day.				

NOTE.—Care should be taken to see that leave taken does not exceed the period shown in column 3 *plus* the balance shown in column 5.

33-A. In the case of Government servants subject to the "Revised Leave Rules, 1933", leave accounts need not be maintained in the forms prescribed in paragraph 33 above, the particulars entered in Service Books or Histories of Services or other records of service being sufficient for the calculation of the amount of leave admissible at any time.

If a Government servant subject to the "Revised Leave Rules" is transferred permanently to another Government, the Audit Officer of the lending Government should draw up a leave account indicating therein the amount of "earned leave" at credit, leave-salary for which should be borne by the lending Government, and send it to the Audit Officer of the borrowing Government. The latter should pass on the debit in regard to leave-salary for "earned leave" up to the extent indicated in the leave account as and when the Government servant takes that leave after permanent transfer to the borrowing Government.

II.—SERVICE BOOKS.

34. A service book in F. R. Form No. 10 should be maintained for every non-gazetted Government servant holding a substantive post on a permanent establishment with the exception of those the particulars of whose service are recorded in a History of Services or in a service register maintained by the Audit Officer, or for whom special forms of record are prescribed by the local Government. In this book every step in the Government servant's official life should be recorded and each entry should be attested by such superior officer as may be prescribed by the local Government.

35. If a Government servant is transferred to foreign service, the Audit Officer referred to in paragraph 5 above will, on receipt of the service book from the head of the office or department concerned, note in it, under his signature, the order sanctioning the transfer, the effect of the transfer in regard to leave admissible during foreign service and any other particulars which he may consider to be necessary, and return the same to the officer from whom he received it. On the Government servant's re-transfer to Government service, the Audit Officer will again note in the service book, under his signature, all necessary particulars concerned with the foreign service. All entries relating to the time spent in foreign service should be attested by the Audit Officer.

NOTES.

1. Distinguish leave granted on medical certificate from leave granted without medical certificate, and if the leave, though technically of the latter description, was granted in consequence of the production of a medical certificate, or on medical grounds, mention the fact.

2. Except in the case of Chaplains, leave-salary should be stated in whole rupees only a month (fractions being omitted and the next higher rupee taken where the fraction exceeds one-half) and not in pounds a year; and in entering "the rate of leave-salary" it should be stated, in the first place, without reference to the maximum or minimum applicable, and then, if a maximum or minimum applies or if the leave-salary is such that a future change in the current rate of exchange may render a maximum or minimum applicable, the words should be added "subject to a maximum (or minimum) of, etc."

3. The ordinary rate of conversion will be the rate of exchange for telegraphic transfers from Calcutta on London on the day on which each monthly payment is made subject to a minimum rate of 1*s.* 4*d.* per rupee in respect of leave-salary drawn on account of the first four months of leave on average pay and of 1*s.* 6*d.* per rupee in other cases. The maximum rates of leave-salary are those prescribed in Fundamental Rule 89 and the minimum rates those prescribed in Fundamental Rule 90.

4. It must be shown whether a Government servant is entitled to the full amount of leave permitted by the rules.

5. In line 7 the Articles of the Fundamental or other Rules under which the advance is made should be mentioned.

6. The date on which any Government servant will, during the currency of leave, complete the term of service, or attain the age after which by any rule he is required to retire from the service, should be shown in line 10.

7. These rules apply also to leave-salary certificates granted to non-gazetted Government servants when they proceed on leave out of India and draw their leave-salary out of India. In such cases the fact that the Government servant is a non-gazetted Government servant should be noted against entry 2.

8. In preparing the leave-salary certificates of the subscribers under the Indian Military Service Family Pension Regulations and to the Indian Military Widows' and Orphans' Fund, who take leave under the Fundamental Rules, the instructions given in Government of India, Finance Department, No. 914-F. E., dated the 10th May 1922, should also be observed, *viz.*, the leave-salary certificate should show clearly the rate of leave-salary, the monthly maximum of average pay, whether it is likely to become effective or not and the period for which the leave-salary is not subject to the monthly maximum.

9. The following particulars should be noted in line 8 :—

(1) the major, minor and detailed head of account ;

(2) whether debitable to Central or Provincial revenues ; if the latter, the name of the Provincial Government ;

(3) whether the expenditure pertains to a "Reserved" or to a "Transferred" subject ;

(4) whether the expenditure is "voted" or "non-voted."

When the head of account to which the leave salary is debitable during extensions of leave differs from the head to which it was debitable during the period of leave originally granted, this fact should be indicated.

10. In line 11, if the leave granted is less than 22 months, calculations up to 28 months' absence only may be given in the first instance, and as soon as the leave is extended so as to bring the total period of absence from duty to 22 months or more, an amendment to the original leave-salary certificate should be issued at once showing the amount of further leave due on medical certificate beyond 28 months.

11. In the case of Government servants to whom the rules regarding the grant of passages to civilian Personnel of British Domicile engaged for service in India apply, an additional entry should be made showing whether they and their families were given the benefit of Rule VII, and whether they were allowed a similar benefit under either Rule VII or Rule VIII on returning to India.

12. In all English Leave Salary certificates the particulars of all outstanding advances (including passage advances) should be noted under item 16, and in the case of motor car and similar advances the date from which the recovery of monthly instalments should be effected should be stated.

13. With the exception of privilege leave earned in a Civil Department, which should be taken first, a Military Officer in Civil employ may set off the leave he takes against the civil leave or military leave at his credit, as he likes. A definite election in the matter should be obtained from all such officers and the election should be noted in the leave-salary certificate.

14. Where subscriptions or recoveries relate to Sterling Branches of Provident Funds this should be indicated clearly under item 16.

Audit Officer's letter to the Government servant proceeding on leave out of India.

To

Sir,

With reference to the order noted in the margin, granting you leave out of India, I have the honour to say that it is necessary for you to obtain from me a leave-salary certificate to enable you to draw your leave-salary.

Here enter number and date of the order, name of the authority granting the leave, and page of the gazette in which the leave is notified.

2. To enable me to prepare your leave-salary certificate, it is necessary that you send me the information asked for in the enclosed F. R. Form No. 5 and also your formal certificate of giving over charge of your office, date and hour, at your earliest convenience.

3. If you are in, or intended to pass through (Audit Officer's station), your certificate will be prepared, and your pay and allowances paid up to the date before your leave commences except in the case referred to in paragraph 4 below, on your calling personally at my office, and presenting a last-pay certificate from the officer from whom you last drew your pay and allowances. Otherwise, I shall cause the leave-salary certificate to be sent to the address specified by you, and the pay and allowances to be paid through the officer from whom you draw your pay and allowances.

---

*Where the deductions relate to Sterling Branches of Provident Funds this should be indicated clearly under item 5.

†The word Deputy or Assistant may, when necessary, be written before "Accountant-General."

4. Leave-salary due for the first four months of leave on average pay taken by itself or in combination with other leave may be drawn either in India or out of India. If you desire to draw it in India, a separate leave-salary certificate for this portion of the leave will be issued, but you will be allowed to draw the pay and allowances for the broken period of the month up to the date of relief only at the commencement of the next month along with the leave-salary for the rest of the month.

5. If you wish to draw your leave-salary in India under the provision of paragraph 4 above, you should either grant your Agents a power-of-attorney or leave your bills ready signed in their custody for presentation as they fall due. A guarantee bond undertaking to refund over-payments should be furnished by your Agents unless they have executed a general bond of indemnity.

NOTE.—(Paragraphs 4 and 5 do not apply to non-gazetted Government servants who have to draw their leave-salary through the Head of the office and should be omitted from the letters addressed to them).

6. I send herewith a copy of a Memo. of Information for the guidance of Government servants proceeding on leave out of India and a blank Form (F. R. Form No. 7) of the date of leaving India to be signed and sent to me from the first port at which your vessel touches.

7. If you wish to draw your leave-salary in a Colony, please send me three specimens of your signature.

Accountant-General.

Information required by the Audit Officer before the leave-salary certificate can be drawn up.

(This form should be returned duly filled up to the Audit Officer one clear week before the date of making over charge.)

1.	On what date do you intend to make over charge of your office?	1.
2.	Before or after noon? ..	2.
3.	At what port do you intend to embark? ..	3.
4.	By what ship will you sail, and on what date?	4.
5.	In what country do you wish to draw your leave-salary during leave on average pay for a period not exceeding four months, if any, at the commencement of your leave?	5.
5-A.	In what country do you intend to spend vacation or/and holidays? If out of India, in what country do you intend to draw your pay (and allowances) during vacation or/and holidays?	5-A.
	(*N. B.*—The words within brackets above should be scored out by the audit officer in all cases in which allowances are not payable out of India.)	
6.	What is your address in England or in India or elsewhere to which your leave-salary certificate, to enable you to draw your leave-salary, may be sent, in case it is not handed over to you before you go on leave?	6.

7.	What advance, if any, do you require now?	7.
8.	Do you intend to pay your—Civil Fund subscriptions in England or in India?	8.
9.	Do you wish to subscribe to the General Provident Fund? If so, for what period of your leave and at what rate?	9.

Nos. 3 and 4 are for Government servants to whom the leave rules in Sections I to V of Chapter X of the Fundamental Rules are not applicable.

No. 5. Leave-salary due for the first four months of the period of leave on average pay, if any, at the commencement of any period of leave out of India can be drawn in or out of India at the Government servant's option. In India it can be drawn only on the first of each month in arrears by an authorised agent under a guarantee bond or on production of a life certificate. The allowances for a broken period of a month may be drawn any time after the expiration of the leave.

No. 7 is for Military Officers subject to the Military Leave Rules and for Chaplains only.

No. 8 is for members of the Indian Civil Service only.

NOTE 1.—In the case of non-gazetted Government servants to whom Note 9 to F. R. Form 2 or Note 4 to Form No. 1 under the Supplementary Rules applies, an additional question should be inserted to obtain the information required under that note.

NOTE 2.—With the exception of privilege leave earned in a Civil Department which should be taken first, a Military officer in Civil employ may set off the leave he takes against the civil leave or military leave at his credit, as he likes. When Form 5 is sent to such an officer question 10 should be added in manuscript. 'Is the leave to be set off against the military leave or against civil leave at your credit ?' The answer should be noted on his leave-salary certificate.

NOTE 3.—Where subscriptions or recoveries relate to Sterling Branches, this should be indicated clearly against question 9.

Instruction for filling up Form No. F. R. 9-A.

1. The Account is to be maintained in terms of leave on average pay. For this purpose, actual periods of leave taken on half or quarter average pay as entered in column 13 should be divided by 2 and posted in column 14.

2. In the case of officers who were subject to the Civil Service Regulations leave rules before they elected the Fundamental Rules, the account should commence with an opening entry in columns 4, 5, 6, 7, 8, 11, 13, 14, 15, 16, 17 and 18. The words "Due on (date of coming under the Fundamental Rules)" should be written across columns 1, 2 and 3 and against these words credit under Rule 77 (*b*) (*ii*) (1) should be given in column 4 and column 6 and that under Rule 77 (*b*) (*ii*) (2) and Rule 77 (*c*) in column 5 and column 7, while debit for commuted furlough taken under the old leave rules should be given in column 11 and that under Rule 78, Note (2) (*i*) (*a*), in column 13, one half of the latter being entered in column 14. The sum total of the entries in columns 6 and 7 and in columns 11 and 14 should be entered in columns 8 and 15 respectively. The difference between the entries in columns 8 and 15 should be entered in column 18 and the entry in column 4 or 6 should be repeated in column 16, while the entry in column 5 or 7 *minus* the sum total of the entries in columns 11 and 14 should be shown in column 17.

3. When a Government servant applies for leave, columns 1 to 8 should be filled up. Columns 1, 2 and 3 should show the Government served under and the period of duty up to the date preceding that on which the Government servant intends to go on leave, and columns 4 and 5 should each show 1/11th of this period (but see Note 2 below), the sum total of the two entries representing the period of leave (*i. e.*, 2/11ths of duty) earned under Rule 77 (*b*) (*ii*) (3). To the new entry in column 4 should be added the last entry in column 16 and the resultant figure should be posted in column 6; similarly to the new entry in column 5 should be added the last entry in column 17 and the resultant figure should be posted in column 7. The total of the entries in columns 6 and 7 will be shown in column 8.

NOTE 1.—If during the period of duty prior to a Government servant's going on leave he has served under two or more Governments, the period of duty and the leave earned under each Government should be shown in separate lines in columns 1 to 5 and the sum total of the new entries in column 4 and the last entry in column 16 should be posted in column 6 and of those in column 5 and the last entry in column 17 in column 7, the total of the entries in columns 6 and 7 being shown in column 8.

NOTE 2.—The sum total of the entries in column 5, inclusive of the opening entry mentioned in instruction No. 2 should not exceed 2½ years [Rule 81 (*a*) (*ii*)], and no entry should be made in this column when this limit of 2½ years is reached.

When columns 1 to 8 have been posted, column 8 will show the *maximum* amount of leave which may be granted *in terms of leave on average pay* [but see Rule 81 (*d*)] to a Government servant on the date on which he intends to go on leave. The *maximum* amount of leave *on average pay* which may be granted on that date with medical certificate or out of India and Ceylon will be the sum total of the last entry in column 6, and the unspent balance of "one year" limited to 8 months at a time, provided this sum total is covered by the period entered in column 8; in the case of leave in India or Ceylon without medical certificate, the maximum will be the last entry in column 6, limited to 4 months at a time. The limits of 8 and 4 months may be exceeded as provided in the note to Fundamental Rule 81(*b*).

4. When a Government servant returns from leave, columns 9 to 18 should be filled up. The period of leave taken on average pay should be entered in columns 9, 10 and 11, that taken on medical certificate or spent elsewhere than in India or Ceylon should be entered in column 11 till the limit of one year is reached and thereafter in column 10. The actual periods of leave on half or quarter average pay (together with leave on subsistence grant under the Note to Fundamental Rule 88) and overstayal of leave (*vide* Fundamental Rule 73) should be entered in column 13 and one half of it in column 14.

NOTE 1.—Leave on average pay taken under the Fundamental Rules in India without medical certificate in excess of the last entry in column 6 before the deletion of "*plus* 1 year" from Rule 81 (*b*) (*ii*) should be entered in column 11.

NOTE 2.—If the leave taken on half average pay exceeds the amount at credit on half average pay, the excess should be shown in red ink in column 17. If this debit shown in column 17 exceeds the credit, if any, shown in column 16, the net debit in column 18 will be recorded in red ink. The entry in column 18 is the leave due under Fundamental Rule 80. The balance of leave due on average pay shown in column 16 remains unaffected by any debit entries in columns 17 and 18, but cannot be utilised until, under the operation of Fundamental Rules 77 and 81(*c*) leave again becomes due under Fundamental Rule 80 and then only to the extent of the leave due.

5. The total period of leave in terms of leave on average pay taken in a Government servant's whole service as entered in column 15 should not exceed the privilege leave credited to him in column 4 on his coming under the Fundamental Rules, *plus* all periods or leave subsequently entered in that column, *plus* 2½ years.

6. When a Government servant is transferred to service under another Government, a separate account should be opened in F. R. Form No. 9 for showing the leave earned under that Government and the leave the cost of which is debited to that Government. This account will be in addition to the main leave account, which must be a complete record of all leave earned and taken under these rules throughout his service.

Memorandum explaining how the existing orders in the several articles in the Civil Service Regulations have been dealt with in the instructions issued by the Auditor-General under Fundamental Rule 74.

1. *Paragraph 1.*—This includes the provisions contained at present in clauses (*a*) and (*d*) of Article 841 of the Civil Service Regulations. Under the existing system of audit it is necessary that the Audit Officer should certify the admissibility of the leave before it is sanctioned. The provision has, therefore, been retained as an instruction of the Auditor-General.

2. *Paragraph 2.*—This order is not based on any rule at present included in the Civil Account Code or the Civil Service Regulations. A similar rule is, however, included in some departmental codes (*e.g.*, paragraph 109, Public Works Department Code), and is followed in practice in all civil offices. Only leave which is admissible can be sanctioned and the admissibillity of the leave can be verified only by a reference to the leave account. It is considered that an explicit rule to this effect should be contained in the authorised instructions.

3. *Paragraph 3.*—This provides for the orders in the note under Rule 1 below clause (*i*) of Article 314, Civil Service Regulations.

4. *Paragraph 4, clause* (*a*).—The provision in this clause is intended to replace the orders contained in Articles 855-A and 856, Civil Service Regulations. The orders as they stand are very complicated and prescribe different sets of procedure for different kinds of officers. It would be sufficient if all the applications are required to be sent to the Civil Audit Officer who will when necessary, consult the Military Audit Officers. Clause (*b*) provides for the orders contained at present in Articles 856 (*c*), 860, the Note under 871 and 875. As the Civil Audit Officer has to consult the Military Controller he can obtain the certificate at the same time.

5. *Paragraph 5.*—This reproduces the portion of the orders in Article 780, Civil Service Regulations, which is essential for purposes of audit.

6. *Paragraph 6.*—Article 865 prescribes the locality in which the leave-salary of a non-gazetted Government servant should be drawn and the conditions which should be observed before it can be paid. Orders regarding locality cannot be issued as part of audit requirements and so paragraph 6 only prescribes the other conditions contained in Article 865. The general orders framed by the Governor General in Council under rule 16 of the Devolution Rules include a provision to the effect that the leave-salary of a non-gazetted Government servant paid in India should be drawn only in that district in which his pay could be drawn if he were on duty.

7. *Paragraph 7.*—This reproduces that portion of the orders in Article 874 which relates to payment of leave-salary in India. The term "office of payment" has been substituted for "treasury" so that the rule may be applied even in the case of those departments which make their own payments, *e.g.*, by cheques.

8. *Paragraph 8.*—This reproduces the orders in Article 878, except that the provision that a certificate is necessary only when the Government servant proceeds from one place to another has been cancelled because an authority from the Audit Officer specifying the leave-salary permissible is necessary in all cases. A clause has also been added at the end of this paragraph to the effect that, when the Government servant desires to change the office of payment, a fresh leave-salary certificate must be otained from the Audit Officer within whose jurisdiction his last pay was drawn. This clause is taken from Article 887. As the instructions apply also to cases of Government servants on leave in India, they have been included in this paragraph.

9. *Paragraph 9.*—This reproduces the orders in Article 864, Civil Service Regulations.

10. *Paragraph 10.*—This provides for the procedure laid down in Fundamental Rule 91, by which Government servants who reside in Asia during their leave have to draw their leave-salary in India. The note under the paragraph is an audit requirement.

11. *Paragraph 11.*—Is intended to preserve the special procedure obtaining at present in these departments which is safeguarded by Article 866, Civil Service Regulations.

12. *Paragraph 12.*—A last-pay certificate has to be produced by a Government servant who has to draw arrears of leave-salary or pay due under Article 41, Civil Account Code, Volume I (8th edition).

13. *Paragraph 13.*—This reproduces the orders in Article 775-A, Civil Account Code, Volume II (7th edition).

14. *Paragraph 14.*—This reproduces part of the orders in Article 874, Civil Service Regulations, relating to the issue of a leave-salary certificate to those who desire to draw their leave-salary at the Home treasury, and part of the orders in Article 888, Civil Service Regulations, relating to the issue of a Colonial warrant, with this difference that the Audit Officer who audits the pay of a Government servant is required to issue the Colonial leave-salary warrant in the place of Audit Officers at the ports of embarkation in India or Burma who were formerly issuing the warrants as stated in Article 888, Civil Service Regulations. The issue of a separate leave-salary certificate by the Audit Officer concerned as specified in Article 881 becomes unnecessary, as he will himself issue a Colonial leave-salary warrant. A clause has been added to this rule providing for cases in which a gazetted Government servant may wish to draw his leave-salary in India during the first four months of leave on average pay. In these cases a leave-salary certificate, such as is ordinarily issued to a Government servant, drawing his leave-salary in India, should be issued to cover the period during which the Government servant wishes to draw his leave-salary in India. This rule does not provide for non-gazetted Government servants proceeding on leave out of India, as their cases are covered by paragraph 6 of these Instructions.

15. *Paragraph 15.*—This provides for the orders in Article 880, Civil Service Regulations. The note under the article is taken from Article 775, Civil Account Code, Volume II (7th edition).

16. *Paragraph 16.*—Reproduces part of the orders in Article 881 which are not included in paragraph 14, as well as part of the orders in Article 889. The existing orders require that the Government servant going on leave out of India should be paid up to the day before he leaves India.

These orders apply to the case of Government servants who proceed on leave to which no privilege leave is prefixed. When the Government servant goes on privilege leave or on combined leave, he is allowed to draw his allowances in England from the commencement of such leave. In future it would be simpler to have the leave-salary due from the commencement of the leave paid in England, if the Government servant so chooses, in all cases, subject to the conditions in Fundamental Rule 91. This rule accordingly provides that the Government servant should be paid up to the date of his relief.

17. *Paragraph 17.*—This reproduces the orders in Article 882, except that it is provided that the Government servant should be paid up to the date of his relief and not up to the date of his sailing.

18. *Paragraph 18.*—This is taken from Articles 872 and 873, Civil Service Regulations.

19. *Paragraph 19.*—This is in accordance with Article 904, Civil Service Regulations.

20. *Paragraph 20.*—This reproduces the orders in Article 883, Civil Service Regulations. As, under Fundamental Rule 68, the leave of a Government servant commences on the day on which transfer of charge is affected and does not depend upon the date of departure of the vessel in which the Government servant sails, the report of actual sailing is not required in the case of those to whom the rules in sections I to V of Chapter X of the Fundamental Rules are applicable.

21. *Paragraph 21.*—This provides for the orders in Article 884 and part of Article 889. "The High Commissioner for India" has been substituted for the "Secretary of State" and "India Office" as the former officer is now making payments of leave-salary in England.

22. *Paragraph 22.*—This reproduces the orders in Article 885, Civil Service Regulations.

23. *Paragraph 23.*—This provides for the orders in Article 898 (*a*), Civil Service Regulations.

24. *Paragraph 24.*—This is taken from the latter part of Article 300, Civil Service Regulations.

25. *Paragraph 25.*—This is a reproduction of the orders in Article 877, Civil Service Regulations.

26. *Paragraph 26.*—This is a part of the orders in Article 889, Civil Service Regulations.

27. *Paragraph 27.*—This is taken from Articles 886 and 890, Civil Service Regulations.

28. *Paragraph 28* is taken from Article 876, Civil Service Regulations.

29. *Paragraphs 29 to 32* are taken from Articles 855, 857 (*b*) and (*c*) and 611, Civil Service Regulations.

30. *Paragraph 33.*—This is a necessary record for purposes of reference.

31. *Paragraphs 34 and 35.*—These rules indicate the form in which records of service of non-gazetted Government servants should be maintained and the procedure that should be followed in maintaining them.

F. R. FORM No. 5-A.

Memorandum of information for the guidance of Government servants proceeding on leave out of India.

1. *Report of sailing.*—If a certificate of departure accompanies this memorandum, the Government servant should sign, stamp and post it to the Audit Officer from whom the memorandum is received.

2. *Date of commencement of leave.*—Leave begins on the day on which transfer of charge is effected, or, if charge is transferred after noon, on the following day.

3. *Leave-salary certificate for payment in India.* — Under Fundamental Rule 91 a Government servant may draw in India the leave-salary of the first part of any period of leave on average pay up to a maximum of four months, whether such leave be taken by itself or at the commencement of a longer period of leave. When a Government servant on leave out of India exercises this option and desires to draw his leave-salary in India—

(1) his pay and allowances up to the date preceding that on which his leave commences are payable in India under the usual rules ; and

(2) if he is a gazetted Government servant, he must inform the Audit office, which audits his pay in his last post, through a form which will be received from it, from what treasury he wishes to draw his leave-salary and through what agency.

4. *Leave-salary certificate for payment at the Home Treasury.*—In cases not falling under paragraph 3 above—

(1) the pay and allowances of the Government servant will be paid to him before he leaves India and the Audit Officer who audits his pay in his last post will arrange for this ; and

(2) the Government servant must take with him a leave-salary certificate to enable him to draw his leave-salary from the Home Treasury.

If the certificate cannot be prepared in time, or if a Government servant proceeding on leave to Europe is compelled to leave without a certificate, it will be forwarded to him to any address which he may leave.

5. *Colonial leave-salary warrant for payment of leave-salary in a Colony.*—If a Government servant intends to draw his leave-salary in any of His Majesty's Colonies, the Audit Officer who audits his pay in his last post will furnish him with a warrant addressed to the Colonial officer only on condition that any fund subscriptions due from him shall either be paid in advance or taken by deduction ; in the latter case the warrant to the Colony will show only the net amount payable after such deduction.

6. *Leave on medical certificate.*—A Government servant taking leave out of India on medical certificate should take with him one copy of the Medical Report upon his case, and be prepared to produce it before the Medical Board at the India Office if required to do so.

7. *Certificate of leave necessary in certain cases.*—If a Government servant proceeds on extraordinary leave out of India, or on leave on average pay out of India during which he does not propose to draw leave-salary, or if a Government servant proceeds to a Colony, he should obtain a certificate of leave in Form No. II under the Supplementary Rules from the Audit Officer who audits his pay in his last post. This certificate has to be presented by the Government servant to the Secretary of State or the High Commissioner for India if he is on leave in Europe, North Africa, America or the West Indies and applies for extension of leave or for permission to return to duty or for a last-pay certificate before returning to duty.

8. *Subscriptions to Funds.*—Subscriptions on account of the Bengal, Bombay and Madras Civil Funds, and the Bengal and Madras Service Family Pension Fund may be paid either in India or in England at the option of the subscriber and arrangement should be made for such payment by the subscriber. In the case of Military Officers in Civil employ subscriptions on account of Indian Military Service Family Pension Fund will be deducted from the leave-salary of the

officers concerned. Officers should see that the necessary deductions are made. Premia and subscriptions on Postal Insurance policies and contracts for monthly allowances, subscriptions for the Bengal Uncovenanted Service Family Pension Fund, the Bombay Family Pension Fund of Government servants, the General Family Pension Fund and the Hindu Family Annuity Fund are not payable in England.

9. Subscriptions to the General Provident Fund may be paid by remittance in cash to the Audit office which audited his pay in his last post in the case of a Government servant on leave who draws his leave-salary from a Colonial Treasury but when a subscriber draws his leave-salary from the Home treasury of the Government of India, his subscription may be paid by deduction from such salary.

A Government servant who draws his leave-salary from the Home treasury and who desires to subscribe during his leave or any part of it must notify his intention beforehand in order to allow of the deductions from his leave-salary being noted in his leave-salary certificate. Unless an extension of leave is granted, the option thus notified will be final.

10. Before departure on leave, a subscriber to the Indian Civil Service Provident Fund should intimate to the Account Officer of the province or department in which he is permanently employed the amount which he desires to contribute monthly during his leave. A subscriber to the Bengal and Madras Service Family Pension Fund should communicate with the Accountant-General, Central Revenues ; and a subscriber to any other fund with the Secretary of the Fund concerned, informing him of the arrangement he proposes to make regarding the payment of his subscription during his absence.

11. Contributions due under the Indian Civil Service Family Pension Regulations must be paid in England in sterling. If a subscriber previous to quitting India has commenced the payment of any donation by instalments, he may either complete the payment of his donation in India before leaving or pay the remaining instalments in England at English rates. Subscribers to this fund will obtain from the Audit Officer who audits their pay in their last posts a certificate of the date up to which they have paid their subscriptions.

11-A. Subscriptions under the Superior Services (India) Family Pension Fund are payable during leave ; but the Secretary of State in Council may at his discretion permit recovery of subscriptions due over a prolonged period of leave on medical certificate or of extraordinary leave without pay to be postponed until the expiration of such leave.

12. *Report of arrival in the United Kingdom.*—When a Government servant arrives in the United Kingdom he should at once report his arrival by letter to the High Commissioner for India at India House, Aldwych, London, W. C. 2, giving an address at which letters will find him, and he should forward his leave-salary certificate to the same authority on arrival, or as soon as he receives it from India.

12-A. *Military Officers in Civil employ visiting foreign countries.*—Military Officers in Civil employ are bound by the rules contained in paragraphs 883 and 884 of the Regulations for the Army in India, requiring that permission shall be obtained before visiting certain foreign countries named in those paragraphs and prescribing the procedure for obtaining such permission and the necessary passports.

13. *Payment at the Home Treasury.*—The leave-salary (including the sterling leave-salary of Government servants drawing their leave-salary in India or in a Dominion or Colony) of all Government servants is issued from the Home treasury monthly in arrear on the first day of each calendar month. It will be paid to the Government servant on his personal application, or to his banker or other agent, duly authorised under power-of-attorney, on

production of a life certificate filled up and executed in the manner directed thereon (except in cases where proof of existence is not required owing to the banker having been permitted to execute a Deed of Covenant and Indemnity guaranteeing the Secretary of State or the High Commissioner against loss consequent on his dispensing with the production of such proof), or on presentation of a payment form comprising a receipt and a life certificate both duly completed by the Government servant. A supply of life certificate forms may be obtained from the High Commissioner on the Government servant's written application.

NOTE 1.—If the leave-salary is drawn by a banker or agent who has executed a general bond of indemnity, a life certificate should be produced at least once a year.

NOTE 2.—If the Government servant intimates to the High Commissioner his election of this method he will be regularly supplied with the requisite payment form as the due date of issue approaches.

14. *Payment in a Colony.*—Payment of leave-salary will not be made by a Colonial authority unless the Government servant produces his copy of the warrant. Each payment made in the Colony will be endorsed upon the warrant.

When no space for the entry of endorsements of payment remains upon the back of a Colonial leave-salary warrant, or when a warrant is lost or destroyed, the Government servant concerned should make an application for a fresh warrant through the Colonial Disbursing Officer to the Audit Officer who issued the original warrant.

15. *Transfer of payment from one Colony to another.*—If the transfer from one Colony to another of payment of the leave-salary of a Government servant is sanctioned by the Colonial authorities, such transfer must be reported by the Government servant to the Governor General in Council and to the High Commissioner.

16. *Transfer of payment from the Home Treasury to a Colony and vice versa.*—If a Government servant drawing his leave-salary in a Colony desires to transfer payment to the Home treasury, he can do so on production of his warrant to the High Commissioner. If one drawing his leave-salary from the Home treasury desires to transfer payment to a Colony, he must obtain a warrant from the High Commissioner. A transfer of this kind must be reported by the Government servant to the Governor General in Council.

17. *Extension or commutation of leave.*—A Government servant absent on leave in Europe, North Africa, America or the West Indies, who wishes to have his leave extended or commuted, must apply to the High Commissioner for India about three months before the expiry of his leave, and, unless the extension is desired on medical grounds, or is for a period of not more than 14 days, he must produce with his application evidence that the Government on whose cadre he is borne has been referred to by him and has no objection to the extension or commutation desired. It is in exceptional cases only that the High Commissioner will grant an extension without the production of such evidence and then for such period only as may be necessary to obtain the orders of the Government concerned, which will be sought by telegraph at the applicant's expense.

18. If on medical grounds a Government servant on leave in any of the localities named in paragraph 17 desires an extension for more than 14 days he must satisfy the Medical Board at the India Office of the necessity for the extension. In order to do so, he must, as a general rule, appear at the India Office for examination by the Board, but in special cases, and, particularly, if he is residing at a distance of more than 60 miles from London, a certificate in a form to be obtained from the High Commissioner may be accepted if

signed by two medical practitioners. A certificate obtained outside the United Kingdom and signed by foreigners must be attested by consular or other authority as bearing the signature of qualified medical practitioners. If application for extension be delayed until the last two months of leave, advice of any extension granted for a period of more than seven days will be sent to India by telegraph and the cost of the telegram will ordinarily be charged to the Government servant.

19. If a Government servant on leave in any of the localities named in paragraph 17 has been granted leave on medical certificate and desires an extension on grounds other than medical he must satisfy the Medical Board as prescribed in paragraph 18 above that he has recovered his health. Any such extension without medical certificate will only be admissible if the extension was due at the time the original leave was granted.

In the case of a commissioned Medical Officer the local Government will make a reference to the Director-General, Indian Medical Service, before granting the permission.

20. A Government servant on leave out of India elsewhere than in any of the localities named in paragraph 17 who wishes to have his leave extended or commuted must apply three months before the expiry of the leave to the authority in India which granted it.

21. If an application made under paragraph 20 above is for an extension of leave on medical certificate, it must be accompanied by a certificate from two medical practitioners in the following form :—

" We hereby certify that we have carefully examined C. D. of the who is suffering from and we declare upon our honour that, according to the best of our judgment and belief, he is at present unfit for duty in India, and that it is absolutely necessary for the recovery of his health that his present leave, which will expire in India on , shall be extended by $\frac{\text{months}}{\text{weeks}}$.

Date

Place ,,

The certificate must describe in full detail the nature of the disease and the present condition of the Government servant. If it be signed by foreigners, it must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

22. An extension of leave will not be granted by the High Commissioner to a Government servant to whom no leave-salary certificate or Colonial leave-salary warrant has been issued, unless he produces a certificate of leave (*vide* paragraph 7 *ante*).

23. Leave out of India on medical certificate may be commuted into leave without medical certificate if such leave was due at the time when the original leave was granted, and if the Government servant seeking commutation is certified, in the manner prescribed, to have recovered his health. When extension of the commuted leave is applied for, the application must be supported by evidence that the Government servant's local Government consents to the extension of his leave.

24. A Government servant who remains absent after the end of his leave is entitled to no leave-salary for the period of such absence unless his leave is extended by the local Government. Wilful absence from duty after the expiry of leave may be treated as misbehaviour for the purpose of Fundamental Rule 15, which runs as follows :—

> "A Government servant shall not, save in the case of inefficiency or misbehaviour, be transferred substantively to a post carrying less pay than his relative position in the cadre of the service to which he belongs would justify."

25. *Return from leave.*—A Government servant may not, without the permission of the authority which granted him leave, return to duty more than 14 days before the end of long leave. The rule applies to Military Officers subject to the Military Leave Rules. He must obtain permission to return to duty from the local Government.

26. A Government servant, who is required to produce a medical certificate of fitness before returning to duty, must obtain permission to return to duty before so returning.

27. If the Government servant desiring to return is on leave in any of the localities named in paragraph 17, his application must be made to the High Commissioner and he must satisfy the Medical Board at the India Office of his fitness to return at least two months before the expiry of his leave. In order to do so, he must follow the procedure prescribed in paragraph 18 above. When the Medical Board has been satisfied, the High Commissioner will grant permission to return.

28. If the Government servant desiring to return is on leave out of India elsewhere than in the localities named in paragraph 17, his application must be made to the authority which granted his leave and must be accompanied by a certificate of fitness in the prescribed form.

29. Permission to return will not be granted to a Government servant to whom no leave-salary certificate or Colonial leave-salary warrant has been issued, until he produces a certificate of leave.

30. *Last-pay certificate.*—Before returning to duty, a Government servant on leave in Europe must obtain a last-pay certificate from the High Commissioner and bring it with him to India and not leave it with his Home Agent, as it will be required for presentation to the Audit Officer, if it is desired to draw on arrival in India the advance which is permissible under paragraph 35. In such an event the English last-pay certificate should be with the Government servant, as it facilitates his identification at the Audit office and the advance has to be recorded on the certificate. A last-pay certificate will not be granted to a Government servant to whom no leave-salary certificate has been issued unless he produces a certificate of leave. A Government servant who has drawn his leave-salary on a warrant must, on return to India, deliver to the Audit Officer, by whom the pay of the post which he will join will be audited, his copy of the warrant which will serve as a last-pay certificate.

31. *Procedure on return to duty.*—A gazetted Government servant must report his return to duty to the Government under which he is serving. A Chaplain must report his return to the Bishop of his Diocese also.

32. A Government servant is not entitled on his return from leave to resume, as a matter of course, the particular post he vacated before his departure on leave, even though that post may be his substantive post; he must report his return to duty and await orders.

NOTE.—Members of the Engineer or Upper Subordinate Establishment of the Public Works Department should, on arrival at the port of debarkation, report themselves personally to the Secretary in the Public Works Department of Bengal, Madras, Bombay or Burma as the case may be, and ask for orders. If they return *via* Karachi, they should apply to the office of the Executive Engineer, Karachi Canals, for orders.

33. A Government servant may return to India by any port and his leave ends on the day preceding that on which the vessel arrives at the port where he last quits it. If, however, the leave from which he returns is of four months' duration or less, his leave ends on the day preceding that on which he takes charge of his duties, unless he takes charge in the afternoon, when the leave terminates on and includes that day.

34. On return to duty, the last-pay certificate obtained from the High Commissioner should be exchanged for a last-pay certificate which the Audit office of the province to which he has been posted will furnish address to the treasury or office at which, after his return, the Government servant intends to draw his pay and allowances.

35. *Advances.*—A Government servant returning from leave out of India may be granted an advance of his leave-salary for the unexpired portion of his leave subject to a maximum of 35 days from the date of embarkation for India. On arrival in India an advance may, if he desires it, be paid to a Government servant by or under the order of the Audit office of the province in which the advance is sought to be drawn under Article 159 (*b*) of the Civil Account Code, Volume I.

To a Chaplain appointed before the 7th June 1923, who is proceeding on leave to England, an advance of three months' leave-salary may be made, provided that no part of the leave is on average pay. Such an advance is not recoverable in the event of the Chaplain's death.

To a Military Officer subject to the Military Furlough Regulations of 1868 proceeding on furlough (not combined with privilege leave) to England an advance of furlough pay may, if he desires it, be made for three months from the date of embarkation. Payments in continuation will be made in England on the expiration of four months from that date.

36. *Acceptance of service during leave.*—A Government servant is not permitted to take any service or accept any employment without obtaining the previous sanction of—

(*a*) the Secretary of State, if the Government servant is residing in Europe, North Africa, America or the West Indies; or

(*b*) the Governor General in Council or the authority competent to appoint him, if he is residing elsewhere.

1. A Civilian Government servant on leave, who has received orders from the War Office or any other department of State in England to undertake any duty in the case of a national emergency, should obtain the permission of the Secretary of State before complying with such orders.

37. *Hospital for Tropical Diseases, Endsleigh Gardens.*—Government servants from India in the United Kingdom suffering from Tropical Diseases are not always aware that, whether they are actually on leave on medical certificate or not, it may be to their advantage to appear before the Medical Board in order that the Board may advise them as to the best steps to take regarding such diseases.

Arrangements have been made for the diagnosis and preliminary treatment of the diseases, and for the admission of officers, when necessary, as in-patients at the Hospital for Tropical Diseases, Endsleigh Gardens, N. W. 1. A report is furnished to officers by the Hospital, which they can take with them to their own Medical adviser to enable him to carry out the treatment suggested. The cost of the examination and preliminary treatment at the Hospital, and also that of the accommodation supplied to officers admitted as in-patients, is defrayed by the India Office. The Hospital is, however, permitted to charge a special extra fee to senior officers of the Civil Department who on admission as in-patients, are, at their own request given special accommodation. This extra fee is payable by the officer himself, the India Office paying that portion only of the total charge which represents the cost of ordinary, as distinct from special, accommodation.

To secure these advantages, however, a recommendation to the Hospital for Tropical Diseases by the Medical Board is necessary, and, therefore, Government servants who wish to avail themselves of this arrangement should apply to appear before the Medical Board of the India Office as soon as possible after arrival.

Land Acquisition.

NOTIFICATIONS.

24-Parganas. — No. 12478L.A. — 28th August 1936.—The following agreement is published under section 42 of the Land Acquisition Act, I of 1894, for general information.

J. B. KINDERSLEY,
Secy. to the Govt. of Bengal (offg.).

Agreement.

MEMORANDUM OF AGREEMENT made this twenty-seventh day of August One thousand nine hundred and thirty-six BETWEEN THE CALCUTTA ELECTRIC SUPPLY CORPORATION LIMITED, a Company registered under the English Companies Acts and having its registered office at Victoria House, Vernon Place, Bloomsbury Square, London, and having a Branch Office at Victoria House, Chowringhee, Calcutta (hereinafter called "the Company") of the one part and THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called "the Secretary of State") of the other part.

WHEREAS for the purpose of the construction of a Switch House for the supply of electrical energy at Parbangala within thana Budge Budge, sub-registry Budge Budge, in the district of 24-Parganas in Bengal and its neighbourhood, the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of a piece or parcel of land containing an area of 1 cottah 14 chittacks or thereabouts equivalent to more or less 0·031 of an acre being a portion of the cadastral survey dag or plot No. 227 under khatian No. 231 at the said mauza Parbangala and more particularly described in the Schedule hereto and delineated in the plan* hereto annexed.

AND WHEREAS the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

AND WHEREAS the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the Agreement with the Secretary of State hereinafter contained.

NOW THIS INDENTURE WITNESSETH that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector, the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause or, in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purpose of such supply of electrical energy as is hereinbefore mentioned and purposes incidental thereto and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said Switch House shall be completed and fully equipped in all respects ready for use within one year from the date on which possession of the said land shall have been given to the Company.

6. Should the said Switch House not be completed and fully equipped in all respects ready for use within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of six consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon whether such buildings were erected before or after transfer of the land to the Company and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company.

*Not printed herewith, but may be inspected in the office of the Land Acquisition Deputy Collector, at Alipore, 24-Parganas.

(*ii*) Should the said Government decide not to sell the land and buildings the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Company the market value as on the day of re-entry of all the buildings erected by the Company and all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sums paid and received on account of costs, charges and expenses.

(*iii*) Should the said Government decide to sell the buildings only, upon such sale the Secretary of State shall, after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Company, together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and expenses.

8. The public shall be entitled to the use of the said land on the following terms, that is to say, subject to the provisions of the Indian Electricity Act, 1910, and Rules made thereunder, or to the provisions of any other legislative enactment or rules in that behalf for the time being in force, the public in the vicinity of the said Switch House (when completed) shall be entitled to be supplied with electrical energy from such Switch House within the limits of the power available at such House and in pursuance of the terms of the electrical license granted to the Company.

9. Should any dispute or difference arise touching or concerning the subject matter of this Agreement or any covenant, clause or thing herein contained the same, shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

The Schedule above referred to.

ALL THAT piece or parcel of land containing an area of 1 cottah 14 chittacks or thereabouts equivalent to more or less 0·031 of an acre being a portion of the cadastral survey dag or plot No. 227 under khatian No. 231 at mauza Parbangala, thana Budge Budge, sub-registry Budge Budge, in the district of 24-Parganas and appertaining to tauzi No. 343 of the 24-Parganas Collectorate and butted and bounded on the North, West and East by the remaining portion of the said cadastral survey dag No. 227 in the possession of Srimutti Basanta Mayee Dassee, on the South by Nangi Bazar Road, and delineated in the map or plan hereto annexed.

IN WITNESS whereof the duly constituted attorneys of the Company and the Secretary of State for India in Council acting through the Government of Bengal have hereunto set their respective hands and seals the day and year first above written.

Signed, sealed and delivered by Franklin Thomas Homan and Walter Longsdon Price, the duly constituted joint attorneys of the Calcutta Electric Supply Corporation, Limited, for and on behalf of the Company in the presence of—

WHEREAS for the purpose of the construction of *Electric Supply Power House* the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing 4·50 acres or thereabout situate in the villages of *Patpur and Bankura* in the district of *Bankura* and more particularly described in the Schedule hereto and delineated in the plan* hereunto annexed.

AND WHEREAS the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove

*Not printed but may be inspected in the office of the Collector of Bankura.

useful to the public, has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

AND WHEREAS the said Government of Bengal has required the Company under the provision of section 41 of the abovementioned Act to enter into the Agreement with the Secretary of State hereinafter contained.

NOW THIS INDENTURE WITNESSETH that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause, or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause) but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of *supplying electrical energy* as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said Power House shall be completed (and fully equipped in all respects and ready for use) within six months from the date on which possession of the said land is given to the Company.

6. Should the said *construction works* not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Company, and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) Should the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company.

(*ii*) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Company the market value as on the day of re-entry of all the buildings erected by the Company and all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sums paid and received on account of costs, charges and expenses.

(*iii*) Should the said Government decide to sell the buildings only, upon such sale the Secretary of State after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Company, together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and expenses.

8. The public in the vicinity of the said Power House shall be entitled to use the supply of electric energy from the said Power House on the terms of the Bankura Electric License, 1932, which has been granted to the Company, and subject to the provisions of the Indian Electricity Act, 1910, and rules made thereunder or to the provisions of any other legislative enactments or rules in that behalf for the time being in force.

9. Should any dispute or difference arise touching or concerning the subject matter of this Agreement or any covenant, clause or thing herein contained, the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

PART IA

Orders and Notifications by the Government of India republished for general information.

DEPARTMENT OF INDUSTRIES AND LABOUR.

NOTIFICATIONS.

Simla, the 20th August 1936.

No. M.-826.—The following draft of rules which it is proposed to make in exercise of the powers conferred by sections 4, 5 (2), 14 (2), 21, 22 and 29 (1) of the Petroleum Act, 1934 (XXX of 1934), read with section 22 of the General Clauses Act, 1897 (X of 1897), is published as required by sub-section (2) of section 29 of the first-mentioned Act, for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the 23rd November 1936. Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council.

Draft Rules.

PRELIMINARY.

1. *Short title.*—These rules may be called the Petroleum Rules, 193 .

2. *Supersession and savings.*—All notifications and rules issued by the local Governments and all appointments made by them under section 5 of the Indian Petroleum Act, 1899 (VIII of 1899), and all rules made by the Governor General in Council under section 8 of that Act are hereby superseded, but all licences or duplicates granted or renewed, all fees imposed or levied and all powers conferred by or under any notification or rule so superseded, shall, so far as they are consistent with these rules, be deemed to have been respectively granted, renewed, imposed, levied or conferred under these rules.

3. *Definitions.*—In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "The Act" means the Petroleum Act, 1934.

(*b*) "Chief Inspector" means the Chief Inspector of Explosives in India.

(*c*) "District Authority" means—

(*i*) In a Presidency-town, or its suburbs, or in Rangoon, the Commissioner of Police;

(*ii*) in the Yenangyaung and Singu oilfields, the Warden, Yenangyaung; and

(*iii*) elsewhere, the District Magistrate.

(*d*) "District Magistrate" includes an "Additional District Magistrate".

(*e*) "Heavy petroleum" means petroleum which has its flashing-point not below 150° F.

(*f*) "Inspector" means an Inspector of Explosives.

(*g*) "Installation" means any premises within which any place has been specially prepared for the storage of petroleum in bulk.

(*h*) "Petroleum in bulk" means petroleum contained in a receptacle exceeding two hundred gallons in capacity.

(*i*) "Port officer" includes any person acting under a constituted Port Authority in charge of port discipline.

(*j*) "Protected works" includes buildings in which persons dwell or assemble, public roads, docks, wharves, timber yards, other petroleum stores and any other place not forming part of an installation, which the Chief Inspector has by written order declared to be a protected work.

(*k*) "Sampling officer" means an officer authorised by the Governor General in Council under section 14 of the Act.

(*l*) "Storage shed" means a building used for the storage of petroleum otherwise than in bulk, whether it forms or does not form part of an installation, but does not include a building used for the storage of petroleum exempt from licence under sections 7, 8 and 9 of the Act.

(*m*) "Testing officer" means an officer authorised by the Governor General in Council to test petroleum under section 17 of the Act.

4. *Excluded petroleum.*—Nothing in these rules, except Chapter VIII, applies to petroleum which has its flashing-point not below 200° F.

CHAPTER I.

Importation of Petroleum.

PART I.—GENERAL.

5. *Licence for import of dangerous petroleum.*—Save as provided in sections 8, 9 and 10 of the Act dangerous petroleum shall not be imported except under a licence granted under these rules.

6. *Petroleum exempted.*—(1) Nothing in this Chapter applies to—

(*a*) dangerous petroleum, not exceeding 6 gallons in quantity, which is not intended for sale;

(*b*) dangerous petroleum contained in any fuel tank incorporated in a motor conveyance;

(*c*) non-dangerous petroleum, comprised in a ship's stores and manifested as such, provided it is not of an unreasonably large amount.

(2) If any question arises as to whether any petroleum manifested as ship's stores is of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

PART II.—IMPORTATION BY SEA.

7. *Importation by sea.*—Petroleum shall not be imported by sea except into the ports of—

Aden.	Hangarkatta.
Akyab.	Karachi.
Bassein.	Madras.
Bombay.	Malpe.
Calcutta.	Mangalore.
Calicut.	Moulmein.
Chittagong.	Rangoon.
Cocanada.	Tellicherry.
Cochin.	Tuticorin.
Coondapur.	Vizagapatam.

8. *Declaration by master of ship carrying petroleum or by the ship's agent.*—The master of every ship carrying petroleum shall deliver to the pilot, before entering any of the ports mentioned in rule 7, a written declaration in Form A under his signature:

Provided that if, in anticipation of a ship's arrival, the agent for such ship delivers to the Port Officer a written declaration as aforesaid under his signature, no such declaration need be made by the master of the ship.

9. *Delivery of certificate.*—If the master or agent declares that any petroleum which it is intended to land at that port or at any other port in British India is petroleum certified in accordance with rule 11 he shall deliver to the pilot or Port Officer, as the case may be, along with his declaration, the certificate relating to such petroleum.

10. *Declaration and Certificate to be forwarded to Collector of Customs.*—Every declaration and certificate delivered to a pilot under rules 8 and 9 shall be made over by him without delay to the Port Officer, and all such declarations and certificates received by the Port Officer shall be forwarded by him, with all convenient despatch, to the Collector of Customs of the port.

11. *Certified petroleum.*—For the purposes of rules 9 and 155 and Form A "petroleum" shall be deemed to be certified if it is accompanied by a certificate in Form B granted at the port of shipment or, subject to the approval of the Collector of Customs, in any other form containing the material particulars required by Form B and has a flashing-point not below 76°F.:

Provided that the Collector of Customs may refuse to accept any certificate, if he is not satisfied as to its genuineness.

12. *Anchorage of ships carrying petroleum.*—Every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the Port shall appoint in this behalf and shall not leave such anchorage without the general or special order of the Conservator of the Port and subject to such conditions as may be specified in such order. Such anchorage shall in no case be the same as that for vessels laden with explosives and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

13. *Production of certificate and licence for import.*—(1) Every person desiring to import petroleum shall furnish personally or through his agent to the Collector of Customs a certificate of storage accommo-dation in Form C signed by the said person or his agent:

Provided that where the importer intends to import both dangerous and non-dangerous petroleum, separate Forms shall be furnished for dangerous and non-dangerous petroleum:

Provided further that this sub-rule shall not apply where the quantity of non-dangerous petroleum to be imported by any one consignee does not exceed 500 gallons, or where the quantity of dangerous petroleum to be so imported does not exceed 60 gallons.

(2) Every person desiring to import dangerous petroleum shall produce, personally or through his agent, before the Collector of Customs his licence for the import and storage of such petroleum.

14. *Permission of Collector of Customs to land petroleum.*—(1) No petroleum shall be landed except with the permission of the Collector of Customs.

(2) If the Collector of Customs, after receiving the testing officer's report on any petroleum, the certificate required by rule 13 (1) and, if necessary, the licence referred to in rule 13(2), and after making such further inquiries as he deems necessary, is satisfied that the petroleum can lawfully be imported and that there is suitable accommodation for it, he shall permit it to be imported.

(3) Nothing in this rule shall affect the power of the Collector of Customs to detain the petroleum under any other law or rule for the time being in force.

15. *Landing of non-dangerous petroleum in anticipation of the testing officer's report.*—(1) Notwithstanding anything contained in rule 14, if the consignee furnishes a guarantee to re-ship the petroleum if the testing officer's report proves unfavourable, the Collector of Customs may, in anticipation of the testing officer's report, permit any petroleum which he believes to be non-dangerous to be discharged into boats or to be landed.

(2) The permission granted under sub-rule (1) shall be subject to the condition that the boats into which the petroleum is discharged, shall remain at such place as the Collector of Customs may appoint or that the petroleum shall be landed at a landing-place duly appointed for this purpose by him and stored in an installation licensed under these rules.

16. *Unloading of petroleum in bulk.*—Subject to the rules in Part II of Chapter II, petroleum imported in bulk shall be discharged into storage tanks on shore either directly or by means of barges or lighters specially constructed for carrying petroleum in bulk.

17. *Unloading of petroleum otherwise than in bulk.*—(1) Subject to the rules in Part II of Chapter II, petroleum imported otherwise than in bulk shall be landed either at jetties provided for the purpose, or in barges or lighters and only at such places as the Conservator of the Port shall direct.

(2) No petroleum contained in casks, drums or other receptacles shall be landed unless such receptacles are free from leakage and of such strength and construction as not to be liable to be broken or to leak, except in case of gross carelessness or extraordinary accident.

18. *Transhipment of petroleum.*—Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India, subject to the rules in Part II of Chapter II.

19. *Heavy petroleum.*—(1) Nothing in rules 12 to 18 inclusive applies to heavy petroleum.

(2) Notwithstanding anything contained in the preceeding rules, if the master of, or agent for, a ship produces a certificate that any petroleum on board is heavy petroleum, the Collector of Customs shall allow it to be discharged in the same manner as ordinary cargo: provided that the sampling officer may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

PART III.—IMPORTATION BY LAND.

20. *Importation by land.*—Petroleum shall not be imported by land save in accordance with rules 21, 22 and 23.

21. *Importation through Castle Rock.*—Non-dangerous petroleum may be imported by land from Marmugao through Castle Rock, provided that the Customs authority is satisfied that the petroleum has been subjected to any necessary test at Marmugao.

22. (1) *Re-importation at the Viramgam Custom Line.*—Petroleum which has already been imported at Bombay or Karachi and has been officially tested there, or petroleum of Indian origin which has been officially tested at a refinery and has been exported to Kathiawar by sea from any Customs port may be re-imported at the Viramgam custom line, provided that the conditions in sub-rules (2), (3) and (4) of this rule are satisfied.

(2) If the consignment covered by a shipping bill from a customs port is brought as a whole, the shipping bill shall be presented with the consignment and the import application at the land customs station. If the consignment is despatched in parts, the shipping bill shall accompany the first part of the consignment. Subsequent portions of the consignment shall be covered by a certificate from the customs officer of the port of landing in Kathiawar, declaring that "the petroleum forms part of the consignment covered by shipping bill No..... dated .....forwarded on the..... with the first portion of the consignment".

(3) No petroleum shall be re-imported after the expiry of two months from the date of the shipping bill covering it.

(4) The marks on the cases of petroleum shall be clearly and fully described in the shipping bill.

(5) The Collector of Salt Revenue, Bombay, may waive the strict enforcement of sub-rules (2) and (3) in case of emergency, if he is satisfied that the petroleum sought to be reimported was originally exported from a customs port to Kathiawar.

23. *Importation from Karikal.*—(1) Non-dangerous petroleum may be imported from Karikal with the written permission of the Chief Inspector and subject to such conditions as he may impose.

(2) No such permission shall be granted to any applicant who was not importing petroleum *via* Karikal prior to 1st January 1935.

CHAPTER II.

Transport of Petroleum.

PART I.—GENERAL.

24. *Prevention of accidents.*—All due precautions shall be taken at all times to prevent accident by fire or explosion.

25. *Prevention of escape of petroleum.*—All due precautions shall be taken at all times to prevent any escape of petroleum during transport especially into any drain, sewer, harbour, river or water course.

26. *Empty receptacles.*—All empty tanks or other receptacles which have contained dangerous petroleum or which have contained non-dangerous petroleum in bulk shall be kept securely closed unless they have been thoroughly cleaned and freed from petroleum and petroleum vapour.

27. *Receptacles for dangerous petroleum.*—(1) Dangerous petroleum, if not in bulk, shall be contained in gas-tight tinned, galvanised or otherwise rust-proofed sheet iron or steel receptacles of not more than 65 gallons capacity. Such receptacles shall be fitted with well-made filling apertures and well-fitting screw plugs, or with screw caps or other caps with metal air-tight under-caps.

(2) The receptacles shall be of a type approved in writing by the Chief Inspector and shall have the following thickness of metal:—

	Not less than—
Capacity not exceeding 2 gallons	27 B. G.
Exceeding 2 but not exceeding 4 gallons	22 B. G.
Exceeding 4 but not exceeding 30 gallons	18 B. G.
Exceeding 30 but not exceeding 45 gallons ..	17 B. G.
Exceeding 45 gallons	16 B. G.

(3) Where the approval of the Chief Inspector is sought to a type of receptacle not previously approved, three or, if required by him, more copies of a detailed drawing thereof to scale shall be forwarded to him.

(4) The receptacles shall be kept in proper repair and shall be available for inspection at any time by the Chief Inspector or an Inspector.

(5) The receptacles shall be so constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure in transit.

(6) The receptacles shall bear a stamped, embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit" or an equivalent warning of the dangerous nature of the petroleum.

(7) An air-space of not less than one-twentieth of its capacity shall be left in each tank, drum or other receptacle containing dangerous petroleum.

28. *Receptacles for non-dangerous petroleum.*—Non-dangerous petroleum, if not in bulk, shall be packed in air-tight tins or drums of steel or iron or other receptacles not easily broken or in tank-carts of a pattern approved by the Chief Inspector:

Provided that in the case of an unberthed passenger ship to which Part IV of the Indian Merchant Shipping Act, 1923 (XXI of 1923), applies, the petroleum shall be packed either in tins enclosed in outer wooden cases or in hermetically sealed iron or steel drums, or, if it is heavy petroleum in sound well-coopered wooden casks of not more than 50 gallons capacity.

29. *Restriction on delivery and despatch of petroleum.*—(1) No person shall deliver any petroleum to any one other than the holder of a storage licence or his authorized agent or a railway administration.

(2) No person shall despatch any petroleum to any one other than the holder of a storage licence:

Provided that this rule shall not apply to the delivery or despatch to any person of petroleum in quantities which are permitted by the Act or these rules to be stored without licence.

PART II.—TRANSPORT BY WATER.

30. *Conditions of carriage of petroleum in bulk by water.*—Petroleum in bulk shall not be carried by water except in a ship, barge or other vessel certified as suitable for the carriage of petroleum in bulk by an officer appointed by the Governor General in Council in this behalf, and the petroleum shall be stored in such part of the ship, barge or other vessel and in such manner as may be approved by general or special order, by the officer so appointed after consultation with the Chief Inspector:

Provided that—

(*a*) nothing in this rule shall apply to ships importing petroleum;

(*b*) petroleum in tank-wagons may, with the permission in writing of the Chief Inspector and subject to such conditions as he may specify, be transported across a river by a recognised wagon ferry.

31. *Requirements as to construction of vessels.*—Every ship, barge or other vessel carrying petroleum in bulk other than a recognised wagon ferry permitted to transport tank wagons under proviso (*b*) to rule 30 must be of steel or iron well and substantially constructed with scantlings of ample dimensions in proportion to the size of the vessel.

32. *Tank fittings on vessels.*—In petroleum tank ships, barges or other vessels used for the transport of petroleum other than heavy petroleum the following provisions shall apply:—

(*a*) All tanks shall be fitted with independent approved filling and suction pipes and valves or with stand-pipes with blank flanges, all pipes being carried down nearly to the bottom of the tanks, and no petroleum in bulk shall be taken on board or discharged except through such pipes and valves, unless otherwise permitted by the Chief Inspector in writing.

(*b*) All tanks shall be fitted with manholes having screwdown covers with petroleum-tight joints and, in the case of tanks intended for use with dangerous petroleum, with ventilators or relief valves of approved pattern properly protected with wire gauze of a mesh of not less than 28 to the linear inch.

(*c*) Ventilators similarly protected shall be fitted to all spaces around tanks, and to the cargo space in self-propelled barges.

33. *Self-propelled barges.*—(1) The whole of the machinery of every self-propelled barge shall be at the stern of the barge and shall be entirely separated from the cargo by a cofferdam consisting of two transverse petroleum-proof bulkheads separated by a space of at least two feet six inches.

(2) Self-propelled barges shall be provided with a heavy wood belting.

34. *Petroleum in bulk on barges or flats.*—(1) Petroleum in bulk shall not be transported in barges or flats—

(*a*) which are self-propelled unless each carries at least four fire extinguishers,

(*b*) which are in tow of or otherwise attended by a steamer or tug unless the steamer or tug carries at least four fire extinguishers.

(2) The fire extinguishers referred to in sub-rule (1) shall be of a pattern approved by the officer appointed under rule 30 and shall be fitted in positions approved by him.

35. *Inflammable cargo, or passengers.*—(1) No ship, barge or other vessel shall carry petroleum in bulk if it is carrying passengers, or any inflammable cargo other than petroleum or coal.

(2) This rule shall not apply to heavy petroleum used as fuel and carried in cellular double bottoms under engine and boiler compartments and under ordinary holds, and in peak tanks, deep tanks or bunkers of approved construction; such oil fuel storage tanks and installations connected therewith shall comply with the conditions described in the instructions to Surveyors contained in the Board of Trade Circular No. 1624 (Oil Fuel Installation in Passenger Steamship), dated November 1920.

36. *Restrictions as to inflammable cargo.*—(1) No steamer or tug employed in towing or otherwise attending a barge, flat or lighter carrying petroleum in bulk shall at the same time tow or otherwise attend any other barge or vessel carrying an inflammable cargo other than petroleum or coal.

(2) No such steamer or tug shall carry any inflammable cargo other than petroleum or coal.

(3) This rule shall not apply to heavy petroleum carried in bulk.

37. *Ventilation and cleaning of holds and tanks.*—(1) Before any petroleum (other than heavy petroleum contained in barrels, drums or other receptacles) is discharged from a ship, barge or other vessel the holds of such vessel shall be thoroughly ventilated.

(2) After all petroleum has been removed from any such vessel the holds, tanks and bilges of the vessel shall be rendered free from inflammable vapour.

(3) Sub-rule (2) shall not apply to the tanks of a petroleum ship importing petroleum which leaves the port without delay after the discharge of cargo or remains only for the purpose of taking on board bunkers stores or ballast or for such other purposes as may be approved by the Port Office: provided that tanks of every such ship are securely fastened down immediately after the discharge of the cargo.

(4) In the case of barges or lighters continuously engaged in the transport of petroleum in bulk (for example from one installation to another) sub-rule (2) shall not apply, provided that unless an interval of at least 72 hours is likely to elapse between an operation of unloading or discharging and the next loading operation, the tanks are securely fastened down immediately after unloading.

(5) In the case of specially constructed steel tank motor vessels approved by the Chief Inspector which are engaged in transport of petroleum in bulk on such rivers and on such parts thereof (outside the Port limits) as may be approved by him, sub-rule (2) shall not apply, provided that the tanks of such vessels are securely fastened down immediately after unloading and the vessel departs not later than 12 hours after completion of discharge for her approved berth near the point of loading.

(6) All ships, barges or other vessels which by virtue of sub-rules (3), (4) and (5) are exempted from the necessity of compliance with sub-rule (2) shall, until their holds and tanks have been rendered free from inflammable vapour, comply with all the rules applicable to ships, barges or other vessels when carrying petroleum in bulk.

38. *Naked lights, fire and smoking prohibited.*—Save as provided in rule 33 no fire, naked light, fusees, matches, or other appliance for producing ignition or explosion and no smoking shall be allowed on board any barge, flat or lighter carrying petroleum in bulk, or on board any such vessel used for the transport of dangerous petroleum otherwise than in bulk or for the transhipment of petroleum to or from any vessel within the limits of any port.

39. *Master of vessel specially responsible.*—The Master or other officer in charge of any petroleum ship or of any vessel certified under rule 30 shall be responsible that—

(*a*) all due precautions are taken for the prevention of accident in the loading or discharge of petroleum;

(*b*) so long as there is petroleum or inflammable vapour in a tank, all openings from the tank to the atmosphere, except the gas escape line, are kept closed and locked or otherwise fastened in a manner certified as satisfactory by the officer appointed under rule 30: and that when it is necessary to take dips or samples, the ullage plugs or sighting ports are closed immediately this has been done:

Provided that, subject to the provisions of clause (*c*), he may cause the necessary openings to be opened or unlocked for the purpose of taking on board or discharging non-dangerous petroleum, for cleaning the tanks, or for other sufficient reason;

(*c*) every person entering a tank shall wear a safety helmet of a description approved by the Chief Inspector, unless a Port Officer or other officer appointed by the Governor General in Council in this behalf has examined the tank with the aid of a vapour-testing instrument and has certified it to be free from dangerous vapour;

(*d*) a conspicuous red flag having the words "Petroleum Boat" marked on it in black letters is exhibited, from sunrise to sunset, upon the vessel where it can be best seen and upon any steamer or tug towing or otherwise attending on such vessel;

(*e*) the vessel, when carrying petroleum in bulk, at all times lies afloat unless otherwise permitted by general or special order in writing of the Chief Inspector or the Port Officer;

(*f*) the vessel, when carrying petroleum in bulk, is constantly under the control and personal supervision of a responsible person;

(*g*) iron or steel hammers or other instruments capable of causing a spark are not used for the purpose of opening or closing the hatches or tank covers;

(*h*) footwear which exposes any iron or steel is not worn on the deck of any vessel while the loading or unloading of dangerous petroleum is proceeding.

40. *Loading and unloading by night.*—(1) Where approved electric lighting is installed and rule 103 is complied with, tank ships and barges shall be allowed to discharge or load non-dangerous petroleum at any time and tank ships and barges which shall have commenced the discharge into storage tanks on shore or loading into their own tanks of dangerous petroleum in bulk before sunset shall be permitted to continue the said discharge or loading.

(2) Should anything occur during discharging or loading dangerous petroleum after sunset which necessitates a repair or disconnection of the plant pipes or connections, such discharging or loading shall be discontinued until after sunrise.

(3) Save as provided by sub-rule (1) petroleum shall not be discharged or loaded or landed between the hours of sunset and sunrise.

41. *Loading and discharge of bulk petroleum.*—(1) The loading and discharge of bulk petroleum shall be by armoured hose and metal pipes.

(2) All pipes and other appliances used in the landing or loading of petroleum in bulk shall be free from leakage.

(3) When a ship has finished discharging petroleum other than heavy petroleum, the pipe line shall be immediately emptied of petroleum by pumping water through the line.

(4) The Chief Inspector may, by written order, grant exemptions in any particular case from the provisions of sub-rules (1) and (3).

42. *Precautions on suspension of loading or discharge.*—When the loading or landing of petroleum has been commenced such loading or landing shall proceed with with due diligence, and, if it is discontinued, the tanks and holds of the ships, barges or other vessels concerned and all loading or discharge valves shall be closed immediately.

43. *Smoking, fire and lights prohibited during loading and unloading.*—At all times during the loading or unloading of a petroleum ship, barge or other vessel until such time as all petroleum shall have been loaded into or removed from the holds or tanks and the holds or tanks shall have been securely closed down and, in the case of landing, rendered free from inflammable vapour, there shall be no fire or artificial light or smoking on board such ship or other vessel or within 100 feet of the place where the petroleum is being loaded or landed:

Provided that nothing in this rule shall prevent the use of lamps, cookers or other similar type of safe apparatus electric or otherwise, so designed, constructed and maintained as to be incapable of igniting inflammable vapour or, in the case of heavy petroleum, the use of galley fires:

Provided further that this rule shall not prohibit the discharging or loading of a petroleum ship, under conditions approved by the Port Authorities, by means of steam from her own boilers or power generated by electric motors or internal combustion engines placed in a position away from cargo holds and pumprooms or alternatively by means of electric motors so designed, constructed and maintained as to be incapable of igniting inflammable vapour and maintained in accordance with Lloyds or any other approved classification society's requirements.

44. *Matches.*—No person engaged in landing or loading petroleum shall carry fusees, matches, or any other appliance for producing ignition or explosion.

45. *Fire-extinguishing appliances to be ready for use.*—Vessel discharging or loading petroleum shall have adequate fire-extinguishing appliances so disposed that they can be put into immediate use, and, if the petroleum is dangerous petroleum, shall have their awnings furled.

46. *Restriction on the conveyance of petroleum.*—Dangerous and non-dagerous petroleum shall not be simultaneously conveyed to the shore or to another ship on the same barge or other vessel.

47. *Restriction as to leaky tins.*—Leaky tins containing petroleum shall not be discharged into a barge or other vessel containing sound tins.

48. *Transport by sea of petroleum which has not been tested.*—Petroleum which has been brought into any port specified in rule 7 and which has not been tested at the port of import in accordance with the rules contained in Chapter VIII, shall not be transported to any other port save one at which importation is permitted under rule 7 and the provisions of all the rules in Chapter I, except rule 5, shall be deemed to apply to such petroleum when it arrives at such other port.

49. *Transport by sea of petroleum which has been tested.*—Petroleum which has been tested at the port of import may be transported to any other port and the provisions of rules 8—14 and 16-17, shall apply to such petroleum when it arrives at such other port.

PART III.—TRANSPORT OF DANGEROUS PETROLEUM OTHERWISE THAN IN BULK BY COUNTRY CRAFT AND COASTING STEAMERS.

50. *Rules applicable.*—Unless expressly provided otherwise in this Part nothing contained in Part II of this Chapter shall be applicable to any petroleum transported in accordance with the rules contained in this Part.

51. *Maximum quantity allowed to be carried.*—Dangerous petroleum may be transported otherwise than in bulk by country craft or steam or motor vessels other than an unberthed passenger ship as defined in the Indian Merchant Shipping Act, 1923 (XXI of 1923), subject to the provisions of rules 52 to 61 inclusive, provided the quantity of petroleum does not exceed :—

(*a*) in the case of country craft, the licensed carrying capacity of the vessel after taking into account the weight of the barrels or tins in which the petroleum is carried; and

(*b*) in the case of steam or motor vessels, 15 tons.

52. *Permit to be obtained.*—The master of every vessel shall, before commencing to load, obtain from the Port Officer a permit stating the licensed carrying capacity of the vessel and certifying that all necessary precautions have been taken for ensuring the safety of the crew, and that all regulations regarding the vessel's navigation lights, life-saving apparatus, etc., have been complied with.

53. *Fee for survey.*—An annual fee of Rs. 16 shall be payable for each craft surveyed for the purpose of carrying dangerous petroleum coastwise and in the event of any subsequent inspections being necessary owing to a deficiency in the requirements, the annual fee shall be enhanced to Rs. 32.

54. *Loading.*—(1) Loading shall be done under the supervision of an official appointed by the Collector of Customs.

(2) The master of the vessel or the shipper of the consignment shall give due notice to the Collector of Customs of the date and time when the services of such an official will be required and shall also forward with the notice a fee at the rate of Rs. 10 per day and a conveyance charge of annas six per mile.

(3) Petroleum shall not be loaded between the hours of sunset and sunrise except subject to the conditions laid down in rule 40.

55. *Loading of barrels and drums.*—Barrels and drums shall be loaded with the bungs upwards.

56. *Conditions of transport by country craft.*—No dangerous petroleum shall be transported in country craft except subject to the following conditions :—

(*a*) Subject to the provisions of rule 27, the petroleum shall be carried either,—

(*i*) in 40/65 gallon steel barrels the screw bungs of such barrels being well-fitting and sealed, or

(*ii*) in 4 gallon sealed steel drums, not more than three tiers of which may be carried on any single vessel, or

(*iii*) in the usual 2 gallon sealed steel tins of petrol companies, not more than six tiers of which may be carried on any single vessel.

(*b*) All barrels or tins shall be carefully examined and no leaky barrels or tins shall be taken on board the craft.

(*c*) The barrels, drums or tins shall not be placed within four feet of the after-deck.

57. *Carriage below decks.*—(1) Dangerous petroleum may be carried below decks in decked vessels provided that the hold is properly ventilated, and that the condition in sub-rule (2) is complied with.

(2) In all vessels a solid gas-tight bulkhead without openings shall be fitted between the hold and the after-deck where the crew are accommodated; and in vessels fitted with a poop the bulkhead shall be placed immediately in front of the poop. In decked vessels the bulkhead shall reach up to the deck; in all other vessels it shall reach to within six inches of the gunwhale.

58. *Fire, lights and smoking.*—(1) No fire, naked light of any description, and no smoking, shall be allowed on any part of a vessel transporting dangerous petroleum except abaft the solid bulkhead.

(2) The navigation lights on any such vessel shall be carried abaft the bulkhead.

59. *Carriage of other inflammable cargo.*—No inflammable cargo other than dangerous petroleum or other petroleum products shall be carried.

Explanation.—Inflammable cargo does not include the dunnage used for packing purposes.

60. *Fire buckets.*—Buckets containing sand shall be placed at convenient points on the vessel. Not less than two buckets shall be placed on the after-deck.

61. *Conditions of transport by steam or motor vessels.*—Dangerous petroleum shall not be transported by steam or motor vessels engaged in coastal trade and not properly constructed for the carriage of petroleum in bulk except subject to the following conditions :—

(*a*) Only iron or steel vessels shall be used for the carriage of dangerous petroleum.

(*b*) The bulkheads dividing the space or compartment allotted to this cargo from any other space shall be perfectly gas-tight and without openings and where there are bilge sluices, these shall be sealed efficiently and remain unopened while any dangerous petroleum is on board. The whole compartment (where it is possible to allot a separate hold for this class of cargo) shall be as nearly as possible hermetically sealed.

(*c*) Where dangerous petroleum is only a proportion of the total cargo in a hold, efficient ventilators shall be provided, half of which shall extend to the bottom of the space and other half only a short distance below the deck. The short ventilators shall be labelled "Outlet or to Leeward" and the long "Inlet or to Windward". These ventilators shall have large cowl heads, the openings being covered with double fine brass wire gauze.

(*d*) Dangerous petroleum shall be contained in receptacles complying in all respects with the provisions of rule 27.

(*e*) Special precautions shall be taken against smoking and the use of lights or fire of any kind while the cargo is being loaded or unloaded, or while the hatches are off, or any deck openings uncovered. Before any lights are used in the compartment which contains dangerous petroleum precautions shall be taken to ensure that the space is clear of the vapour. The screwplugs of empty receptacles which have contained dangerous petroleum shall be tightly adjusted.

(*f*) In cargo ships a limited quantity of dangerous petroleum may be carried on deck in sound steel drums or substantial tins in cases, so stowed as not to interfere with the navigation of the ship, or make it unseaworthy. No receptacle shall be of greater capacity than 50 gallons.

(*g*) Dangerous petroleum shall be protected from the direct rays of the sun by the use of a canvas awning or otherwise.

(*h*) In passenger ships engaged in coastal voyages a limited quantity of dangerous petroleum may be carried on deck provided proper precautions are taken regarding stowage and keeping the packages away from passenger's promenade, or deck space.

(*i*) Where dangerous petroleum is carried on deck, conspicuous notices shall be posted up drawing attention to the danger arising from smoking or striking matches near the deck cargo.

PART IV.—TRANSPORT ON LAND BY VEHICLES.

62. *Prohibition of fires and smoking.*—(1) no fire or artificial light capable of igniting inflammable vapour shall be allowed on any vehicle containing petroleum in bulk.

(2) No person shall smoke while on or attending such a vehicle.

(3) No article or substance capable of causing fire or explosion shall be carried on such a vehicle.

Explanation.—For the purposes of this rule any tank or other receptacle which has contained petroleum and which has not been thoroughly cleaned and freed from inflammable vapour shall be deemed to contain petroleum.

63. *Precautions against fire.*—Tank wagons, lorries or carts transporting dangerous petroleum shall not be filled, discharged or emptied, (*i*) except by means of armoured hose in which the armouring is electrically continuous throughout and/or metal pipes; or (*ii*) within 100 feet of any fire, furnace or artificial light capable of igniting inflammable vapour; or (*iii*) at any place where the lorry, wagon or cart is exposed to sparks.

Provided that the distance specified in clause (*ii*) may be reduced to 30 feet when the petroleum is filled, discharged or emptied under seal and closed vapour return pipe lines are provided.

64. *Means of extinguishing fire to be carried.*—A supply of sand or other efficient means of extinguishing an outbreak of fire shall be carried in an easily accessible position on every vehicle transporting petroleum in bulk by road.

65. *Prohibition as to public service vehicles.*—Petroleum shall not be transported on any public vehicle which is carrying passengers.

66. *Vehicles to be constantly attended.*—(1) Every vehicle while engaged in the transport of petroleum by road shall constantly attended by at least one person provided that such vehicles may be left unattended in places previously approved by the Chief Inspector.

(2) Every vehicle on which more than 1,000 gallons of petroleum is being transported by road, or which, while transporting any petroleum by road is being trailed by another vehicle, shall so long as it is in motion, be attended by at least two persons.

67. *Trailers attached to vehicles transporting petroleum by road.*—(1) A trailer not exclusively used or intended to be used exclusively for transporting petroleum shall not be attached to any vehicle transporting petroleum.

(2) A trailer transporting petroleum shall not be attached to any vehicle other than a vehicle used or intended to be used exclusively for transporting petroleum, and not more than one trailer shall be so attached.

(3) A trailer shall have two axles.

(4) When a trailer is attached to a vehicle, the total quantity of petroleum transported on the trailer and the vehicle combined shall not exceed 2,000 gallons.

(5) If a trailer transporting dangerous petroleum is attached to a vehicle transporting non-dangerous petroleum, the vehicle shall comply with all the provisions of these rules relating to vehicles transporting dangerous petroleum.

(6) A trailer other than a tank trailer shall not be attached to a tank wagon. The capacity of a tank trailer shall not exceed 500 gallons, and no trailer shall be attached to a tank wagon of greater capacity than 1,500 gallons.

(7) No trailer attached to a tank wagon shall be employed within any thickly populated area without the permission in writing of the Local Authority.

68. *Tank capacity.*—In these rules the tank forming part of a tank wagon or tank trailer includes one or more tanks on the same chassis and any limitation herein prescribed on the capacity of a tank shall be construed so as to permit of the tank containing amount specified under varying degrees of temperature.

69. *Employment of electric light.*—If electric lighting is employed on any vehicle, including a trailer used in the transport of petroleum by road the following conditions shall be complied with :—

(*i*) The pressure shall not exceed sixteen volts.

(*ii*) The circuit shall be heavily insulated and shall be independent of the chassis, and the wiring shall be so fixed and protected as to reduce as far as possible the risk of damage.

(*iii*) The generator, battery, switches and fuses shall be carried in front of the fire-resisting screen and the battery shall be in an easily accessible position.

(*iv*) Means of cutting off the current close to the battery by a double pole switch or other suitable method shall be provided.

70. *Fueling from vechiles carrying petroleum in bulk.*—(1) No motor conveyance other than aircraft shall fill or replenish its fuel tanks with petroleum directly from vehicles carrying petroleum in bulk.

(2) Aircraft may receive fuel by means of specially constructed tank lorries or wagons only if these are of a type approved by the Chief Inspector for this purpose.

(3) During the fueling of aircraft used for the conveyance of passengers no passengers shall be allowed to remain in the machine.

(4) No person shall be allowed to smoke within 100 yards of any aircraft while it is being, or is about to be, fueled. All aircraft engines within that radius shall be stopped so long as fueling is in progress.

71. *Owner responsible for observance of rules.*—The owner of a vehicle used for the transport of petroleum who employs any person in connection with such transport, shall be responsible that all necessary measures have been taken to ensure that such person is acquainted with and carries out the provisions of these rules.

72. *Precautions to be observed during filling or emptying tank wagons.*—During the filling, discharging or emptying of any tank wagon or trailer transporting petroleum other than heavy petroleum the following precautions shall be observed :—

(*i*) If the vehicle is mechanically-driven the engine shall be stopped so long as the filling, discharging or emptying is in progress and shall not be restarted until all tanks and valves have been securely closed :

Provided that this condition need not apply in the case of vehicles approved under sub-rule (2) of rule 70, which are supplying aircraft.

(*ii*) If the wagon is drawn by an animal or animals, they shall be removed from the wagon and the wheels securely scotched before the filling, discharging or emptying is begun.

(*iii*) Adequate provision shall be made to prevent the accumulation of a dangerous static charge of electricity.

(*iv*) The vehicle shall be constantly attended by a competent person.

73. *Composite vehicles.*—Petroleum in cans or other receptacles shall not be transported by road on any tank wagon used for the transport of petroleum unless the wagon is so constructed as to comply with the conditions applicable to transport on wagons other than tank wagons as well as with the conditions applicable to transport on tank wagons.

74. *Filling and dipping pipes to be kept closed.*—Except during the operations of filling or emptying a tank wagon the filling and dipping pipes shall be kept securely closed at all times. Where the filling pipes are not provided with a liquid seal, the covers shall be kept locked except during the operation of filling a tank wagon, and the keys shall not be carried on the wagon.

75. *Filling and emptying by night.*—Except where approved electric lighting as specified in rule 103 is exclusively used, the filling, discharging and emptying of tank wagons shall be performed between the hours of sunrise and sunset.

76. *Approval of vehicles for transport in bulk necessary.*—(1) Petroleum in bulk shall not be transported by land except in a vehicle of a design approved in writing by the Chief Inspector.

(2) All such vehicles other than those exclusively used for the transport of heavy petroleum must have a stamped embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit" or "Kerosene" or an equivalent warning of the nature of the contents.

(3) Every such vehicle and its fittings shall be maintained in good condition.

77. *Vehicles for transport other than in bulk.*—(1) Every vehicle on which petroleum not in bulk is transported shall be strongly constructed and with sides and back of adequate height and shall be maintained in good condition.

(2) In the case of an animal drawn vehicle the requirement in sub-rule (1), regarding the sides and back of the vehicle shall not apply if the load is securely fastened to the vehicle.

(3) All receptacles shall be so packed as not to project beyond the sides or back of the vehicle.

78. *Engines of mechanically-driven vehicles.*—(1) In every mechanically-driven vehicle used for the transport by road of petroleum other than heavy petroleum:—(*a*) the engine shall be of an internal combustion type, (*b*) the engine fuel tank and electric batteries shall be effectively screened from the body of the vehicle by a fire-resisting shield carried up above the height of the load and down to within twelve inches of the ground, (*c*) the exhaust shall be wholly in front of the fire-resisting shield.

(2) If windows are provided in the fire-resisting shield they shall be fitted with wired glass.

(3) The fuel tank of every such vehicle other than an articulated vehicle may be behind the fire-resisting shield if—

(*a*) a fuel feed apparatus, placed in front of the shield, is used to lift the contents from the fuel tank; and

(*b*) the fuel tank is protected from blows by the frame or by stout steel guards, and the filling hole cover is provided with a lock.

(4) The fuel tank of any vehicle may be behind the fire-resisting shield if the fuel used in the engine does not give off an inflammable vapour at a temperature of less than 150°F.

(5) A quick action cut-off valve shall be fitted to the fuel feed pipe of every such vehicle in an easily accessible position, which shall be clearly marked.

79. *Exemptions from rules 77 and 78.*—If the Chief Inspector is satisfied that in respect of any class of vehicle any of the requirements of rules 77 and 78 may be safely suspended or relaxed, he may authorise such suspension or relaxation for such period and under such conditions as he may think fit.

80. *Speed limit for vehicles.*—Without prejudice to the operation of any other provision of law for the time being in force whereby a lower limit of speed is imposed, the speed of a motor tank wagon, or a motor lorry transporting petroleum in receptacles shall not exceed 30 miles per hour if fitted with pneumatic tyres and 15 miles per hour if fitted with solid tyres.

81. *Special provisions for motor conveyances.*—(1) Rules 62 to 80 shall not apply to the conveyance of petroleum in any motor conveyance for use only in the propulsion of such conveyance.

(2) No vehicle used for the conveyance of passengers on hire shall carry any petroleum elsewhere than in the fuel tank or tanks of such vehicle.

(3) During the filling or replenishment of the fuel tank of a vehicle for the conveyance of passengers on hire, no passengers shall be allowed to remain in the vehicle.

(4) Notwithstanding anything contained in sub-rule (2) the authority licensing such motor conveyance may allow a vehicle used for the conveyance of passengers to carry in addition, for use only in the propulsion of the vehicle, a quantity of petroleum in two gallon tins not exceeding ten in number.

(5) All petroleum tins carried on a vehicle carrying passengers for hire shall be securely closed and shall be carried in a specially prepared receptacle which is not accessible to passengers in the vehicle and is approved in writing by the Chief Inspector.

PART V.—TRANSPORT BY PIPE LINES.

82. *Application.*—The rules in this Part apply only to the transport of petroleum by means of pipe lines.

83. *Casings.*—(1) An approved casing shall be put over the pipe line where it crosses under any railway or road and an approved protective casing shall be constructed round the pipe where it crosses over any railway or protected work.

(2) An extra casing shall be put over the pipe line where it crosses any stream:

Provided that the District Authority may, on the recommendation of the Chief Inspector, waive this rule in the case of any specified stream or streams, if it is satisfied that the safety of the public is not likely to be endangered thereby.

84. *Patrol.*—The whole of every pipe line shall be sufficiently and efficiently patrolled.

85. *Prevention of excessive pressure.*—As a precaution against excessive pressure in the pipe line, an automatic bypass relief valve and a reliable pressure gauge shall be placed on the common discharge pipe at pumping stations.

86. *Telegraph and telephone.*—A telephone or telegraph line shall be provided with connections at frequent intervals along the pipe line. One telephone or telegraph line shall suffice for a series of parallel pipe lines:

Provided that this rule shall not apply to a pipe line connecting railway sidings with installations if the length of such pipe line does not exceed one mile.

87. *Gate valves.*—Gate valves shall be provided at reasonable intervals.

88. *Checking of tank gauges.*—Tank gauges shall be checked between stations at frequent intervals.

CHAPTER III.

Storage of Petroleum Requiring Licence.

89. *License for storage.*—Save as provided in sections 7, 8 and 9 of the Act and by rule 107 no one shall store any petroleum except under a licence granted under these rules.

90. *Precautions against fire.*—(1) No person shall smoke in any installation or storage shed.

(2) No person shall carry matches, fuses or other appliance liable to produce ignition or explosion in any installation or storage shed which is used for the storage of dangerous petroleum.

(3) No fire, furnace or other source of heat or light capable of igniting inflammable vapour shall be allowed in any installation or storage shed save in places specially authorised by the licensing authority for the purpose.

(4) An adequate supply of sand or dry earth together with the necessary implements for its convenient application, or other efficient means of extinguishing petroleum fires, shall always be kept in every installation and storage shed.

91. *Supervision of operations within an installation or storage shed.*—All operations within an installation or storage shed shall be conducted under the supervision of an experienced responsible agent or supervisor.

92. *Cleanliness of installation.*—The ground in the interior of an installation, and the protected area surrounding any storage shed or installation, shall be kept clean and free from all inflammable material, waste vegetation and rubbish.

Explanation.—In this rule "protected area" means the area necessary for the maintenance of the distances required under the conditions of the licence to be kept clear between any installation or storage shed and any protected work.

93. *Drainage.*—(1) All enclosures surrounding tanks or buildings belonging to an installation or storage shed shall be kept drained and no water shall be allowed to accumulate in the enclosure.

(2) Where drainage is effected by means of a pipe, the pipe shall be fitted with a valve actuated from the outside of the enclosure.

(3) All valves and other openings for draining off water shall be kept closed except when water is being drained off.

(4) The nature of the drainage arrangements shall be shown in the plan submitted with the application for a licence.

94. *Exclusion of unauthorised persons.*—(1) An installation shall always be surrounded by a wall or fence of at least six feet in height.

(2) Due precautions shall be taken to prevent unauthorised persons from having access to any storage shed or installation.

95. *Receptacles for non-bulk petroleum.*—All petroleum not in bulk shall be stored in receptacles complying with the conditions laid down in rules 26, 27 and 28.

96. *Petroleum only to be stored.*—No installation or storage shed shall be used for any purpose other than the storage and distribution of petroleum without permission in writing from the Chief Inspector.

97. *Marking of capacity of tanks.*—The capacity in gallons of every tank in an installation shall be conspicuously marked on it.

98. *Construction of tanks.*—(1) Every tank or other receptacle used for the storage of petroleum in bulk shall be constructed of iron or steel properly erected and designed according to sound engineering practice; and, together with all pipes and fittings, shall be so constructed and maintained as to prevent any leakage of petroleum.

(2) The height of a storage tank shall not exceed its diameter:

Provided that in the case of tanks of less than 10,000 gallons capacity, the height may extend to one and half times the diameter.

(3) No tank shall be more than 45 feet in height.

99. *Testing of tanks.*—(1) Storage tanks or other receptacles used for the storage of petroleum in bulk, after being placed in a final position and before being brought into use, must be tested by water pressure by the licensee in the presence of an Engineer accepted as qualified for the purpose by the licensing authority.

(2) The water used for testing shall be free from petroleum and shall not be passed through any pipes or pumps ordinarily used for the conveyance of petroleum:

Provided that where the licensing authority is satisfied that it is not reasonably possible to convey water by pipes or pumps other than those ordinarily used for the conveyance of petroleum, he may permit the use of a petroleum-pipe or pump for the conveyance of water subject to such conditions as he may impose.

(3) Sub-rules (1) and (2) shall also apply to storage tanks or other receptacles already in use for the storage of petroleum in bulk when tested for repairs by filling.

100. *Earthing of tanks.*—All tanks or other receptacles for the storage of petroleum in bulk, other than well-head tanks or tanks or receptacles of less than 10,000 gallons capacity containing heavy petroleum, shall be electrically connected with the earth in an efficient manner by means of not less than two separate and distinct connnections placed at opposite extremities of such tank or receptacle. The roof and all metal connections of such tank or receptacle shall be in efficient electrical contact with the body of such tank or receptacle.

Explanation.—In this rule the expression "well-head tank" means a tank into which crude petroleum flowing or being pumped from a well is first discharged.

101. *Inspection of earth connections.*—(1) The connections and contacts required by rule 100 shall be inspected and tested at least once in every year by the licensee of the tank or receptacle in the manner prescribed by the Chief Inspector.

(2) A record of such inspections and tests shall be maintained by such licensee, and shall be produced on demand by the Chief Inspector or an Inspector.

102. *Night Working.*—No installation of storage shed shall be open, and no work in any installation or storage shed shall be permitted, between sunset and sunrise except where approved electric lighting as specified in rule 103 is exclusively used.

103. *Electric Apparatus.*—(1) All electric wires installed at less than 15 feet from the ground in any petroleum installation or situated within 20 feet of any building or tank containing dangerous petroleum shall consist of insulated cables, enclosed in metallic coverings which shall be gas-tight, electrically and mechanically continuous throughout, and effectively earthed outside the building.

(2) No electric wire shall pass over any petroleum tank, filling, painting or storage shed.

(3) The following additional requirements shall be satisfied in filling, painting and storage sheds and pump rooms used for—

(*i*) Dangerous petroleum:—

(*a*) All electric meters, distribution boards, switches, fuses, plugs and sockets shall be placed outside the building in a flame-proof enclosure which shall satisfy the requirements of the British Standard Specification No. 299 and the frames shall be exectively earthed.

(*b*) All electric fixed lamps shall be enclosed in a well glass flame-proof fitting, either doubly enclosed with an inner and an outer well glass or singly enclosed with substantial metal protection; such lamps shall be installed at 12 feet where possible but in no case less than 8 feet above the floor level.

(*c*) All electric portable hand lamps of the self-contained pattern shall be of a type approved by the Chief Inspector.

(*d*) For the examination of cans and other containers, electric torches employing a separate battery may be used. These torches shall be fitted with substantially protected flame-proof globes and shall be supplied through a cable of cab-tyre or other suitable sheathing and properly constructed flame-proof connectors.

(*e*) No single fixed lamp shall exceed 150 watts.

(*ii*) Non-dangerous petroleum:—

(*a*) All electric meters, distribution boards, switches, fuses, plugs and sockets shall be enclosed in iron-clad, gas-tight cases and fixed at least 5 feet above the floor level in well-ventilated positions close to the door.

(*b*) All electric fixed lamps shall be enclosed in a gas-tight well glass fitting provided with substantial metal protection.

(*c*) All electric portable hand lamps shall be fitted with substantially protected gas-tight globes and supplied through a flexible cab-tyre or other suitable sheathing and properly constructed gas-tight connectors.

(*d*) No single fixed lamp shall exceed 200 watts and no hand lamp shall exceed 30 watts.

104. *Storage and filling sheds.*—Every filling or storage shed in which dangerous petroleum is filled or stored shall be constructed of uninflammable material and shall be adequately ventilated near the ground level immediately above any walls constructed to prevent any leakage of petroleum, and also near or in the roof. The ventilators shall be provided with two thicknesses of fine copper or other non-corroding metal wire gauge of mesh not less than 28 to the linear inch:

Provided that in an installation where special precautions are taken or where there are special circumstances that, in the opinion of the Chief Inspector warrant the concession, he may permit the wire gauze to be replaced by approved wire netting or expanded metal.

105. *Pumping.*—No internal combustion engine or electric motor shall be used for driving pumps for pumping petroleum save in a pump house specially constructed for the purpose and under such conditions as may be approved by the Chief Inspector:

Provided that this rule shall not apply where the motor, control switchgear and starting apparatus are enclosed in a flame-proof enclosure satisfying the requirements of the British Standard Specification No. 229.

106. *Posting up of rules and conditions.*—There shall be hung up in a conspicuous place in every installation and storage shed copies of these rules, and of the conditions of the licence.

CHAPTER IV.

Storage of Petroleum not Requiring Licence.

107. *Exemption of heavy petroleum.*—(1) Notwithstanding anything contained in these rules, it shall be permissible to store without licence, subject to the conditions of this Chapter, heavy petroleum in quantities not exceeding 5,000 gallons, which is not stored in the same installation or storage shed as other petroleum.

(2) The provisions of Chapter III shall not apply to petroleum so stored.

108. *Storage of exempted heavy petroleum in bulk.*—(1) Heavy petroleum in bulk, if stored otherwise than under a licence, shall be stored in a tank constructed of iron or steel properly erected and designed and the tank with all pipes and fittings shall be so constructed and maintained as to prevent any leakage of petroleum.

(2) The tank shall be surrounded by a bank or wall, or sunk in a pit, so constructed and maintained as to be able to contain without leakage the whole of the petroleum liable to be present at any one time in the tank.

(3) A distance of not less than ten feet shall be kept clear between the protected works and the enclosure walls or banks.

109. *Storage of exempted heavy petroleum not in bulk.*—Heavy petroleum which is not in bulk, if stored otherwise than under a licence, shall, if the quantity exceeds 500 gallons, be stored in a storage shed of which either—

(*a*) the doorways and other openings shall be built up to a height of one foot above the level of the floor, or

(*b*) the floor shall be sunk to a depth of one foot.

110. *Prior report of storage of exempted heavy petroleum.*—Every person intending to store heavy petroleum in bulk or in quantity exceeding 500 gallons otherwise than under a licence shall send to the Chief Inspector a prior report giving the situation of the premises on which such petroleum is to be stored.

111. *Garages and hangars.*—(1) Every garage or hanger used for housing any motor conveyance containing dangerous petroleum in bulk in any tank incorporated in the conveyance, whether such petroleum is intended to be used to generate motive power for the conveyance or not, shall be constructed of uninflammable material and be effectively and safely ventilated to the open air.

(2) Every such garage or hanger shall be in charge of an experienced person who shall be responsible for taking all proper precautions against fire and shall prevent unauthorised persons from having access to the building.

CHAPTER V.

Licenses.

112. *Applications for licences.*—(1) A person wishing to obtain or to renew a licence prescribed under these rules shall submit an application in writing to the authority empowered to grant such licence.

(2) Every application for the grant or renewal of a licence to store or to import and store petroleum shall be in Form D.

113. *Grant of licences.*—(1) Licences for importation and storage may be granted by the licensing authorities set forth in Schedule I in the forms, for the purposes, for the periods and on payment of the fees specified therein.

(2) No licence in Form H shall be granted except to a person holding a licence in Form I.

(3) In the case of a licence granted for storage one copy of the plan or plans of the storage premises signed in token of approval by the licensing authority shall be attached to the licence and one copy shall be filed for record in the office of the licensing authority.

114. *Particulars of Licence.*—Every licence granted under these rules shall be held subject to the conditions endorsed on it and shall contain all the particulars which are contained in the form prescribed for it by these rules.

115. *Power of licensing authority to alter conditions.*—(1) Notwithstanding anything contained in rule 114 the licensing authority may omit, alter or add to any of the conditions specified in the prescribed form of licence.

(2) This power shall not be exercised by the District Authority without the prior concurrence of the Chief Inspector.

116. *Amendment of licences.*—(1) Any licence granted under these rules may be amended by the authority granting such licence provided that the amendments are not in conflict with any rule contained in this chapter.

(2) A licensee who desires to have his licence amended shall submit it to the licensing authority with an application stating the nature of the amendment and the reasons for it.

(3) The fee for the amendment of a licence shall be one rupee *plus* the amount (if any) by which the fee that would have been payable if the licence had originally been issued in the amended form exceeds the fee paid for the original licence.

117. *Renewal of licences.*—(1) A licence may be renewed by the authority empowered to grant such licence.

(2) Every application for the renewal of a licence shall be made not less than thirty days before the date on which the original licence expires, and, if the application is so made, the premises shall be held to be duly licensed until such date as the licensing authority issues the renewed licence or until an intimation that the renewal of the licence is refused has been communicated to the applicant.

(3) The same fee shall be charged for the renewal of a licence as for a new licence.

118. *Refusal of licence.*—(1) A licensing authority refusing to grant, amend or renew a licence, shall record his reasons for such refusal in writing.

(2) A copy of the order containing the reasons for such refusal shall, on payment of the fee ordinarily charged for copies of similar documents, be given to the applicant.

119. *Forfeiture of licence.*—Every licence granted under these rules shall be liable to be forfeited for any contravention of the Act, or of any rule thereunder, or of any condition contained in such licence, or save in the case of licences in Form K, for any other reason deemed by the licensing authority to be good and sufficient, and recorded by him in writing.

120. *Appeals.*—(1) Any person may appeal to the Governor General in Council from an order of the Chief Inspector refusing to grant, amend or renew a licence or forfeiting a licence.

(2) Any person may appeal to the immediate official superior of the District Authority from an order of the District Authority refusing to grant, amend or renew a licence or forfeiting a licence.

(3) Every appeal shall be in writing and shall be accompanied by a copy of the order against which the appeal is made.

(4) The immediate official superior of the District Authority shall consult the Chief Inspector before passing orders on any appeal.

121. *Supply of rules.*—With every licence granted for the storage of petroleum, a copy of these rules shall be given to the licensee.

122. *Certificates of safety.*—(1) Before petroleum is stored in any installation for which a licence has been granted for the first time, a certificate shall be furnished to the licensing authority to the effect that all enclosure walls and embankments required to be constructed under the conditions of the licence are sufficient to ensure safety.

(2) The certificate shall be signed by an Engineer accepted as qualified for the purpose by the licensing authority.

(3) When the licence is not granted for the first time, but is granted for an increased quantity of petroleum, a certificate shall similarly be furnished to the licensing authority before any quantity of petroleum exceeding the amount which was admissible under the former licence is stored in the installation.

123. *Transfer of licences for storage.*—(1) The holder of a licence for the storage of petroleum may, at any time before the expiry of the licence, apply for permission to transfer his licence to another person.

(2) Such application shall be made to the licensing authority who shall, if he approves of the transfer, enter upon the licence, under his signature, an endorsement to the effect that the licence has been transferred to the person named.

(3) A fee of Re. 1 shall be charged on each such application.

(4) The person to whom the licence is so transferred shall enjoy the same powers and be subject to the same obligations under the licence as the original holder.

124. *Procedure on death or disability of licensee.*—(1) Where a licensee dies or becomes insolvent or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or these rules for exercising the powers granted to the licensee by the licence during such time as may reasonably be necessary to allow him to make an application for a new licence in his own name for the unexpired portion of the original licence.

(2) A fee of one rupee shall be charged for a new licence for the unexpired portion of an original licence granted to any person applying for it in accordance with the provisions of this rule.

125. *Loss of licence.*—Where a licence granted under these rules is lost or accidentally destroyed, a duplicate may be granted on payment of a fee of one rupee.

126. *Payment of fees.*—(1) Every application for the grant or renewal of a licence shall be accompanied by the fee payable thereon. If the licence is not granted or renewed, the fee shall be refunded.

(2) All fees chargeable under these rules in respect of licences granted by the District Authority shall be paid by means of impressed stamps.

(3) The payment of all other fees under these rules shall be made in cash or by cheque.

127. *Power to exempt from payment of fees.*—The Governor-General in Council may, by general or special order, grant exemption from, or reduction of, any fee payable under these rules.

128. *Production of licences on demand.*—(1) Every person holding or acting under a licence granted under these rules shall produce it, or an authenticated copy of it, at the place to which the licence applies, when called upon to do so by the Chief Inspector or an Inspector or any Magistrate, or any Police Officer not below the rank of an officer in charge of a police-station.

(2) Copies of any licence may, for the purposes of this rule, be authenticated free of charge by any of the aforesaid officers or by the authority which granted the licence.

129. *Procedure on reports of infringements.*—The District Authority shall inform the Chief Inspector of the action taken by it on any reports of infringements of the Act or of these rules which the Chief Inspector may make to such authority.

CHAPTER VI.

Refining and Blending of Petroleum.

130. *Approval of refinery.*—No person shall refine or blend petroleum unless the plans showing the general arrangement of tanks, stills, fencing, gates, and all plant and buildings at the place where it is proposed to refine or blend petroleum (hereinafter in this Chapter referred to as the refinery) have been approved by an officer appointed by the Governor-General in Council in this behalf.

131. *Application of rules.*—Rules 132 to 147 inclusive apply only to refineries.

132. *Stills, condensing pipes and tanks.*—The materials used in the construction and the method of erection of the stills, condensing pipes and tanks shall be such as are approved by the officer appointed under rule 130.

133. *Alterations.*—No alteration in a refinery involving the general arrangement of tanks, stills, any other plant and buildings or the materials used in the construction or the method of erection of the stills, condensing pipes and tanks shall be carried out without the previous sanction in writing of the officer appointed under rule 130. The alterations sanctioned shall be shown on an amended plan a copy of which shall be kept at the refinery.

134. *Use of fire-proof materials.*—All buildings of a refinery in which petroleum is handled shall be built of fire-proof materials.

135. *Licensing of buildings and tanks.*—All buildings and tanks in which petroleum is stored shall be licensed in form I, and shall, unless otherwise provided for in this Chapter, comply with the conditions endorsed on that licence and with the rules for the storage of petroleum.

136. *Situation of storage tanks.*—No storage tank, the capacity of which exceeds 50,000 gallons, shall be situated nearer than 300 feet to any still, boiler or furnace.

137. *Size of service tanks.*—Service tanks (*i.e.*, tanks which contain fuel for boiler and still fires) shall not be larger than is necessary to contain 24 hours fuel for the fire which they serve.

138. *Drainage.*—Suitable arrangements shall be made for the proper carrying off and fire-trapping of all drainage and/or possible leakage from a still or bench of stills.

139. *Fires and Smoking.*—(1) No fire, furnace or source of heat or light capable of igniting inflammable vapour shall be allowed except in the firing spaces of stills or boilers.

(2) No smoking shall be allowed except in spaces or buildings specially provided or allotted for the purpose, and approved by the officer appointed under rule 130.

140. *Supply of sand or earth.*—(1) A sufficient quantity of sand or dry earth together with the necessary implements for its convenient application and/or other efficient means of extinguishing petroleum fires shall always be kept readily accessible near tanks and stills.

(2) The quantity of sand or dry earth which shall be deemed sufficient shall be determined by the Chief Inspector or by the officer appointed under rule 130.

141. *Hydrants and hoses.*—(1) In the case of a refinery with a still capacity exceeding on an average 1,000 gallons daily, hydrants with a minimum pressure of 40 lbs. with the necessary hose shall be provided at suitable points. These shall be shown in the original plans of such a refinery.

(2) Both hydrants and hose shall be kept in a thoroughly efficient condition.

142. *Pumping of light fractions.*—The light fractions (*i.e.*, dangerous petroleum) as they leave the stills shall be at once pumped out of the refinery to storage tanks, and shall not be stored in the immediate neighbourhood of stills and boilers, with the exception of such quantities as may be pumped direct to service tanks for fuel:

Provided that the officer appointed under rule 130 may permit light fractions to be disposed of otherwise.

143. *Prevention of danger from electricity.*—Adequate provision shall be made to prevent the accumulation of dangerous static charges of electricity.

144. *Fencing.*—Every refinery shall be surrounded by an efficient fence.

145. *Plans.*—Fire walls and efficient separators for drainage shall be shown in the plans referred to in rule 130 and may be required to be erected when deemed necessary by the Chief Inspector or by the officer appointed under rule 130.

146. *Reports of fires.*—The occurrence of any fire at a refinery shall be reported immediately by the person in charge of the refinery for the time being to the nearest police-station and to the Chief Inspector.

147. *Closing of refinery.*—If a refinery is closed down, the area within the fence surrounding it shall be cleared of all petroleum having a flashing point below 200°F. as soon as possible.

CHAPTER VII.

Tetra Ethyl Lead Mixtures.

148. *Addition of tetra ethyl lead.*—Tetra ethyl lead shall not be added to petroleum in such quantity as to render the proportion of tetra ethyl lead to petroleum in excess of one part in 1,300 parts by volume or one part in 650 parts by weight.

149. *Importation, transport and storage.*—No person shall import, transport or store any petroleum containing tetra ethyl lead in which the proportion of tetra ethyl lead exceeds one part in 1,300 parts by volume or one part in 650 parts by weight.

150. *Coloration.*—Every mixture of petroleum and tetra ethyl lead shall be distinctively coloured before being sold to the public.

151. *Marking of receptacles.*—All receptacles containing a mixture of petroleum and tetra ethyl lead shall bear a warning in the following terms—

"Warning

This mixture contains tetra ethyl lead, and is not to be used except for motive power. Be careful not to spill."

CHAPTER VIII.

Testing of petroleum.

152. *Drawing of samples.*—(1) In all cases the sampling officer shall personally superintend the drawing of the sample. Where the sample is drawn from an original unopened receptacle containing petroleum not in bulk an opening sufficiently large to admit of the sample being rapidly transferred from the receptacle shall be made.

(2) Two bottles, each of the capacity of about 40-fluid ounces, shall be filled to three-quarters of their capacity with the sample and corked. The corks shall be well driven home and cut off level with the neck; and melted sealing wax shall be worked into the corks and the bottles shall be efficiently sealed.

(3) In the case of petroleum imported by sea the bottles containing the sample shall, after being sealed, be labelled with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary.

153. *Forwarding and retention of samples.*—One of the bottles referred to in sub-rule (2) of rule 152 shall be preserved for reference in case of need and the other shall be forwarded to the testing officer.

154. *Procedure for delivery of samples from ship's cargo.*—(1) When the master of, or the agent for, a ship has made the declaration required by rule 8, the sampling officer shall go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at the port. If the importer so desires the sampling officer shall also take samples of all the petroleum on board which it is intended to land at any other port in British India:

Provided that no samples need be taken in the case of petroleum which is declared to be dangerous.

(2) The master shall deliver to the sampling officer, without charge, samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under sub-rule (1). Such samples shall, if the sampling officer so requires, be taken from the particular receptacles indicated by him:

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

155. *Selection of samples from ship's cargo.*—The minimum number of samples to be selected of each brand or quality contained in the cargo shall be as follows:—

(*a*) of peroleum certified in accordance with rule 11—

(*i*) in cases—one sample for every 15,000 cases or part thereof;

(*ii*) in casks or drums declared to be of uniform quality—one sample for every 120,000 gallons or part thereof;

(*iii*) in bulk or in tanks—one sample from each group of tanks or tank compartments certified to be of the same brand or quality;

(*b*) of other petroleum—

(*i*) in cases—one sample for every 10,000 cases or part thereof;

(*ii*) in casks or drums, declared to be of uniform quality—one sample for every 80,000 gallons or part thereof;

(*iii*) in bulk or in tanks—one sample from each tank or tank compartment.

156. *Standard Test Apparatus.*—(1) The standard test apparatuses and thermometers shall—

(*a*) agree in every respect with the specifications laid down in Schedule III; and

(*b*) be tested at the National Physical Laboratory, London, and marked with the National Physical Laboratory monogram and the year of test.

(2) The standard thermometers shall be replaced at least once in every three years.

157. *Certification of Apparatus.*—(1) The thermometers forming part of an apparatus submitted under sub-section (1) of section 16 of the Act shall be compared with the thermometers of the Standard Test Apparatus at 76° and 120°F. The apparatus and barometers or aneroids shall also be examined by the officer appointed under sub-section (1) of section 15 of the Act.

(2) Any apparatus which is in any respect outside the tolerances laid down in Schedule III and any thermometers differing more than 1°F. and any barometer or aneroid differing more than half an inch from the standard shall be rejected.

(3) A certificate in Form E shall be granted in respect of any apparatus which has been found to agree with the Standard Test Apparatus within the limits mentioned in clause (2) of this rule.

(4) A certificate granted under this rule shall be valid for a period of three years.

158. *Register of Certificates.*—A register of all certificates granted under rule 157 shall be maintained by the officer appointed under sub-section (1) of section 15 of the Act in Form F.

159. *Methods of test.*—(1) The testing officer shall test the samples in the manner laid down in Schedule III to these Rules.

(2) In all cases at least three samples shall be separately tested, the average of the three readings being corrected for the thermometer correction, if any, and for barometric correction in case of dispute only.

(3) If the average flashing-point is not lower than 76°F. and no one test gives a flashing-point below 73°F. the whole of the petroleum represented by the samples shall be deemed to be non-dangerous petroleum.

160. *Procedure when tests show want of uniformity.*—(1) If the testing officer, after testing samples taken from a ship's cargo, considers further tests necessary to satisfy himself that none of the petroleum is dangerous, he shall report to the Collector of Customs accordingly.

(2) On receipt of a report under sub-rule (1)—

(*a*) when the consignment is imported in cases or casks or drums, the Collector of Customs shall cause the petroleum in question to be landed and stacked in lots of not more than 1,500 cases or casks or drums each, or to be discharged into boats each containing not more than 1,500 cases or casks or drums, and the sampling officer shall select and deliver to the testing officer one sample from each lot;

(*b*) When the consignment is imported in bulk, the sampling officer shall forward a second sample and the Collector of Customs may, until the receipt of the testing officer's further report, prevent the landing of any portion of the contents of the tank in question, or may permit it to be landed as provided in rule 15;

(*c*) if the petroleum has been already landed and stored under rule 15—

(*i*) if it is not in bulk it shall be divided into lots and samples of each lot shall be selected as laid down in clause (*a*);

(*ii*) if it is in bulk samples shall be drawn from each separate storage tank containing the petroleum.

161. *Certificate of tests.*—(1) The testing officer shall as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples make out a certificate in Form G and shall forward it in the case of samples of petroleum taken on board a ship to the Collector of Customs and in the case of other samples to the Officer submitting the sample.

(2) The testing officer shall, at the request of any person concerned, furnish him with a certified copy of the certificate in Form G on payment of a fee of one rupee.

162. *Fees for inspection and comparison.*—(1) The fee for each inspection of the Standard Test Apparatus shall be one rupee.

(2) The fee for comparing a privately owned test apparatus with the Standard Test Apparatus shall be fifty rupees.

163. *Fees for testing.*—(1) The fee for testing each sample of imported petroleum shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

(2) The fee for re-testing each sample under section 20 of the Act shall be five rupees. The fee shall be refunded if the original test is proved to be erroneous.

Conditions of Licence.

1. Dangerous petroleum shall be imported in gas-tight tinned, galvanised or otherwise rust-proofed sheet iron or steel receptacles of not more than 60 gallons capacity and fitted with well made filling apertures and well fitting screw plugs, or with screw caps or other caps with metal air-tight undercaps. The receptacles shall have the following thickness of metal:—

	Not less than
Capacity not exceeding 2 gallons ..	.. 27 B. G.
Exceeding 2 but not exceeding 4 gallons ..	.. 22 B. G.
Exceeding 4 but not exceeding 30 gallons ..	.. 18 B. G.
Exceeding 30 but not exceeding 45 gallons	.. 17 B. G.
Exceeding 45 gallons	.. 16 B. G.

2. The receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure in transit and shall have a stamped, embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit" or an equivalent warning of the dangerous nature of the petroleum.

3. An air space of not less than one-twentieth of its capacity shall be left in each receptacle at the time of filling.

This licence is liable to be cancelled if the licensed premises when inspected are not found conforming to the description and conditions attached hereto and contravention of any of the rules and conditions under which this licence is granted is also punishable with fine which may extend to five hundred rupees for a first offence and which may extend to two thousand rupees for any subsequent offence.

Conditions of Licence.

1. Dangerous petroleum shall be stored only—

(*i*) in a storage shed constructed of suitable uninflammable material: the doors and windows may be of wood; or

(*ii*) in a properly ventilated iron bin of a design approved by the Chief Inspector, placed on private ground in the open air.

2. The storage shed shall not form part of, or be attached to, any building in which any person resides or works or where persons assemble for any purpose unless it is separated therefrom by a substantial floor or partition which is constructed of uninflammable material and has no openings therein.

3. The storage shed, if in any building, shall not be situated under any staircase or under any other means of exit likely to be required to be used for escape in case of fire.

4. Any two storage sheds or bins not more than twenty feet apart, shall be deemed to be one storage shed.

5. Dangerous petroleum other than paints, varnishes, lacquers and similar products shall not be kept in any receptacle other than the standard petrol tins of capacity not exceeding two gallons.

6. No alterations shall be carried out in the storage shed or bin without the previous sanction in writing of the licensing authority.

7. If the licensing authority calls upon the holder of a license, by a notice in writing, to execute any repairs to the storage shed, which may in the opinion of such authority, be necessary for the safety of the shed, the holder of the licence shall execute the repairs within such period not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

8. No person shall repair or cause to be repaired any receptacle in which, to his knowledge, any dangerous petroleum is or has been kept until he has taken all reasonable precautions to ensure that the receptacle has been rendered free from dangerous petroleum and any inflammable vapour.

9. No person under the age of 15 years shall be employed in or shall enter the storage shed except in the presence of and under the immediate supervision of some grown up person.

10. All due precautions shall be taken for the prevention of unauthorised persons having access to any dangerous petroleum kept and to the vessel containing or having actually contained the same.

11. All due precautions shall be taken at all times for the prevention of accident by fire or explosion.

12. Every care shall be taken to prevent any dangerous petroleum escaping into any drain, sewer, harbour, river or water course.

13. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this licence are duly observed.

14. Any accident, fire, or explosion occurring within the licensed premises, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-charge of the nearest Police-Station by telegraph or telephone.

15. All empty receptacles which have contained dangerous petroleum shall be kept securely closed unless they have been thoroughly cleaned and freed from petroleum and inflammable vapour.

Conditions of Licence.

1. The petroleum shall be stored only in the storage shed which shall be constructed of suitable uninflammable material, but the beams, rafters, columns, windows and doors may be of wood. The building shall rest on foundation walls, the walls and floors being suitably finished to form a well or enclosure not more than 2 feet in depth and capable of receiving and retaining, in cases of accident or emergency, a volume not less than the maximum quantity of petroleum allowed in the building.

2. The storage shed shall not form part of, or be attached to, any building in which any person resides or works or where persons assemble for any purpose unless it is separated therefrom by a substantial floor or partition which is constructed of uninflammable material and has no openings therein.

3. The storage shed, if in any building, shall not be situated under any staircase or under any other means of exit likely to be required to be used for escape in case of fire.

4. The drum or other receptacle containing petroleum shall only be opened in the licensed premises and for the time necessary for drawing off the petroleum, and during such drawing off every reasonable precaution shall be adopted for preventing the escape of petroleum or the vapour therefrom.

5. No alterations shall be carried out in the storage shed without the previous sanction in writing of the licensing authority.

6. If the licensing authority calls upon the holder of a licence, by a notice in writing, to execute any repairs to the storage shed, which may, in the opinion of such authority, be necessary for the safety of the shed the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

Licence to store petroleum in a tank or tanks in connection with a pump outfit for fueling motor conveyances.

No.

Fee Rs.

Licence is hereby granted to valid only for the storage of gallons of petroleum in a tank (tanks) in the licensed premises described below and shown on the plan hereto attached subject to the provisions of the Petroleum Act, 1934, and the rules made thereunder and to the further conditions on the back of this licence.

*This licence shall be renewable for years save for contravention of the provisions of the Petroleum Act, 1934, and the rules framed thereunder.

This licence shall remain in force till the 31st day of December 19 .

Chief Inspector of Explosives in India.

The *19* .

Plan No. , dated

Decription of the licensed premises referred to above.

The licensed premises are situated and consist of a gas-tight tank (tanks) of a capacity of gallons sunk underground.

Date of renewal.	Date of expiry.	Signature of Licensing Authority.

*Not applicable to korbside outfits.

Conditions of Licence.

1. The petroleum shall be stored in a gas-tight metal tank (tanks) of a capacity of gallons sunk completely underground in the position shown on the plan attached hereto and each placed in a masonry or concrete pit, the tank being packed round with sand, earth or clay so that no air space is left between the tank and the masonry or concrete pit and the tank is not visible. Such masonry or concrete pit shall not be obligatory if the tank is a welded one tested up to a pressure of 3 lbs. per square inch and is buried and is on private, leased or rented land away from public traffic. The space over the buried tanks must not be used for any purpose.

2. There shall be no openings in the tank (tanks) other than those necessary for the introduction or removal of the petroleum or for ventilating or dipping the tank (tanks). The filling and dipping pipes shall be carried down nearly to the bottom of the tank (tanks).

3. The tank (tanks) shall be fitted with a vent pipe leading into the open air. The vent pipe shall be securely supported and shall be not less than 12 feet in height. The upper opening shall be covered with fine copper or other non-corroding metal wire gauze or mesh not less than 28 to the linear inch and fitted with a hood or the upper opening shall be fitted with an inlet valve and an exhaust valve.

4. No pump or tank shall be erected inside a building and, if prior to the introduction of these rules any tank is installed inside a building, it shall only be filled from a tank wagon through an underground filling pipe having a filling point in the open air at a distance of not less than 12 feet from the building.

5. No alteration or change by replacements of pumps or tank shall be effected without the previous sanction in writing of the licensing authority. Such alterations or changes so sanctioned shall be shown on an amended plan to be attached to this licence.

6. The petroleum shall enter the tank (tanks) 'under seal' and shall not be supplied to the tank between the hours of sunset and sunrise except by a motor tank wagon of a type approved by the Chief Inspector for the purpose and with the approval in writing of the licensing authority.

NOTE.—A pipe supplying liquid to a tank is 'Under-seal' to that tank if it is screwed to the tank or otherwise attached so that no liquid or vapour can escape into the air.

7. No petroleum shall be removed from the tank (tanks) except by means of the pump (pumps) at the position marked on the plan hereto attached. The pump (pumps) shall together with its connections and fittings be so constructed and maintained as to be gas and petroleum-tight. The pipe connections between the tank and the pump shall be placed underground.

8. For the purpose of charging the tanks of motor vehicles the petroleum shall only be supplied by being—

(*a*) pumped through strong metal piping by means of approved pumps into above-ground measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions, and run thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of motor vehicles, or

(*b*) pumped through strong metal piping by means of approved pumps into an above-ground service tank of approved capacity, fixed in an approved position, and run thence through strong metal piping into measuring tanks of a capacity not exceeding 30 gallons fixed in approved positions and thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of motor vehicles, or

(*c*) pumped by means of approved measuring pumps, fixed in approved positions, through sound hose fitted with secure tap and nozzle, into the tanks of motor vehicles.

9. Petroleum may be supplied to a motor vehicle between the hours of sunset and sunrise from the pump provided the lights of the vehicle receiving the petroleum are extinguished and the pump and the vehicle are illuminated by electric light or failing this by some other form of lighting, provided that no light capable of igniting inflammable vapour is situated or brought within a distance of twelve feet of the pump or vehicle receiving the petroleum.

10. Except when absolutely necessary for the purposes of condition 11 or for testing the accuracy of the pump's discharge by means of a standard capacity measure petroleum shall, on no account, be filled from the tank or pump into any receptacle other than that clamped or fitted to a motor vehicle.

11. The tank (tanks), before being repaired, shall be cleared of all petroleum and of all inflammable vapours. When a tank in position is open for cleaning or repairs no lamps of any description either ordinary, electric, electric torches or electric cables or electric fans shall be brought near the manhole of the tank until the tank has been certified in writing to be 'gas free' by a qualified Chemist or Engineer (the inside of the tank may be lighted by the use of mirrors).

12. If the licensing authority calls upon the holder of a licence by a notice in writing to execute any repairs to the licensed premises which may, in the opinion of such authority, be necessary for the safety of the said premises, the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

13. This licence shall be held to cover the use of a portable kerbside pump outfit for a period of not more than one month in the place of the licensed permanent outfit in the event of the latter being out of

order, provided notice in writing is given to the licensing authority before the portable pump is taken into use, and the conditions of this licence which apply to a portable pump are observed. No petroleum shall be allowed above ground (except that actually in the pump) in all cases where the underground tanks can be used in connection with the portable pump by making a temporary connection from the portable pump to the underground tank.

14. In cases where portable pumps are used not more than two barrels of petroleum in reserve shall be kept within 20 feet of the pump or on public property nearby.

15. All due precautions shall be taken at all times for the prevention of unauthorised persons from having access to the petroleum or to the vessels containing or having actually contained the same.

16. No artificial light capable of igniting inflammable vapour shall at any time be present in the immediate vicinity of the tank wagon during the transfer of the petroleum to the tank and no person engaged in such transfer shall smoke. When the underground tank is filled with petroleum from barrels no such light shall be allowed within a distance of 20 feet from the barrels.

Petroleum shall not be placed in any motor vehicle while the engine is running and persons in and engaged in connection with such motor vehicle shall not be permitted to smoke.

17. Every person managing or employed on or in connection with the licensed premises shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and, to the best of his ability shall prevent any other person from doing such act.

18. Every care shall be taken to prevent any petroleum escaping into any drain or sewer.

19. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this licence are duly observed.

20. Any accident, fire or explosion occurring within the licensed premises, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-charge of the nearest Police Station by telegraph or telephone.

21. No person under the age of 15 years shall be employed in or shall enter the licensed premises except in the presence of and under the immediate supervision of some grown up person.

22. The licensee shall provide for each pump, whether kerbside or portable, a minimum of two tins or drums of sand which shall be kept ready for extinguishing fires.

Plan No. , dated

Description of the place referred to above.

Date of renewal.	Date of expiry.	Signature of licensing authority.

This licence is liable to be cancelled if the licensed premises when inspected are not found conforming to the description and conditions attached hereto and contravention of any of the rules and conditions under which this licence is granted is also punishable with fine which may extend to five hundred rupees for a first offence and which may extend to two thousand rupees for any subsequent offence.

Conditions of Licence.

1. All due precautions shall be taken at all times for the prevention of accident by fire or explosion.

2. No person under the age of 15 years shall be employed in or shall enter the installation except in the presence of and under the immediate supervision of some grown up person.

3. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this licence are duly observed.

4. Any accident, fire or explosion occurring within the area specified in the licence, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-charge of the nearest Police Station by telegraph or telephone.

5 No alterations shall be carried out in the installation without the previous sanction in writing of the licensing authority. Such alterations so sanctioned shall be shown on an amended plan to be attached to this licence.

6. If the licensing authority calls upon the holder of a licence, by a notice in writing, to execute any repairs to the licensed premises, which may, in the opinion of such authority, be necessary for the safety of the said premises, the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

7. The responsible agent or supervisor referred to in rule 91 shall not allow any person to enter a tank, which has contained petroleum, unless—

(*a*) such person wears a safety helmet of a description approved by the Chief Inspector, or

(*b*) (*i*) the responsible agent or supervisor has certified in writing, as the result of an examination of the tank by himself or by some other competent person, that the atmosphere in the tank is fit for persons to enter, and

(*ii*) at least one safety helmet of a pattern approved by the Chief Inspector shall have been kept ready for instant use at the manhole of the tank which is being cleaned or repaired.

8. No work, involving the use of fire, welding or hot rivetting, shall be performed in or on any tank until the tank has been certified in the manner laid down in clause (*b*) of condition 7 to be free from petroleum vapour. When any water is pumped into or withdrawn from the tank no further work of the above description shall be done until the tank has been re-tested and a fresh certificate issued. When a tank is open for cleaning or repairs no lamps of any description either ordinary, electric, electric torches or electric cables or fans other than of a flame-proof type as defined by the British Engineering Standards Association in their Specification No. 229 shall be brought near the tank.

9. No person shall repair or cause to be repaired any receptacle or pipe in which to his knowledge, any petroleum is or has been kept until he has taken all reasonable precautions to ensure that the receptacle or pipe has been rendered free from petroleum and any inflammable vapour:

Provided that this condition shall not be deemed to prohibit the usual soldering operations connected with the filling and despatching of petroleum receptacles.

10. (*a*) Dangerous petroleum otherwise than in bulk shall be imported and/or stored in gas-tight tinned, galvanised or otherwise rust-proofed sheet iron or steel receptacles of not more than 65 gallons capacity and fitted with well made filling apertures and well-fitting screw plugs, or with screw caps or other caps with metal air-tight under caps. The receptacles shall be of a type approved in writing by the Chief Inspector and shall have the following thickness of metal:—

	Not less than
Capacity not exceeding 2 gallons ..	.. 27 B.G.
Exceeding 2 but not exceeding 4 gallons	.. 22 B.G.
Exceeding 4 but not exceeding 30 gallons	.. 18 B.G.
Exceeding 30 but not exceeding 45 gallons	.. 17 B.G.
Exceeding 45 gallons	.. 16 B.G.

(*b*) All receptacles shall be kept in proper repair and shall be available for inspection at any time by the Chief Inspector or an Inspector.

(*c*) All receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident to be broken or become defective, leaky or insecure in transit and shall have a stamped, embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit" or an equivalent warning of the dangerous nature of the petroleum.

(*d*) An air-space of not less than one-twentieth of its capacity shall be left in each drum or other receptacles containing dangerous petroleum.

11. Petroleum shall be kept only in the storage tanks and storage and filling sheds or other approved places within the installation specified for the purpose on the plan attached hereto.

12. Storage or filling sheds shall be constructed of suitable uninflammable material. The building shall rest on foundation walls and shall be surrounded by a wall or embankment of substantial construction or the walls and floor shall be suitably finished to form a well or enclosure not more than two feet deep. A combination of these methods is permissible. The enclosure or well thus formed shall be of sufficient capacity to contain the total quantity of petroleum liable at any time to be present in the building and shall be so constructed and maintained as to prevent the escape therefrom of any petroleum in the form of liquid whether under the action of fire or otherwise. In the case of dangerous petroleum or partly dangerous and partly non-dangerous petroleum the enclosure or well shall be

capable of receiving and retaining a volume not less than 5 per cent. in excess of the maximum quantity allowed in the building. The wells and enclosures must be kept clean and free from any accumulation of inflammable liquids.

13. The tank or tanks shall be supported on an approved foundation and shall be surrounded by a wall or embankment of substantial construction, or shall be partially sunk in an excavation. The enclosure thus formed shall contain only one of the following classes of petroleum, shall be of dimensions sufficient to contain the quantity of petroleum specified under the class to be stored and shall be so constructed and maintained as to prevent the escape therefrom of any petroleum in the form of liquid, whether under the action of fire or otherwise—

(*a*) *Dangerous petroleum*—10 per cent. more petroleum than the tank or tanks are capable of containing;

(*b*) *Non-dangerous petroleum other than heavy petroleum*—the amount of petroleum the tank or tanks are capable of containing;

(*c*) *Heavy petroleum*—the amount of petroleum the largest tank in the enclosure is capable of containing:

Provided that heavy petroleum may be stored in the same enclosure as non-dangerous petroleum other than heavy petroleum if the dimension under (*b*) above is observed:

Provided also that the Chief Inspector may limit the number of tanks in an enclosure where in his opinion there are circumstances that warrant such limitation. Except for the necessary pipes and valves the space within an enclosure and not occupied by the tank or tanks, shall be kept entirely clear and unoccupied. Alternatively gas-tight metal tanks may be sunk completely underground the tanks being packed round with sand, earth or clay, so that no air space is left below ground level and the tank is not visible. Tanks so buried shall not be required to maintain the safety distances laid down in condition 18 but the space over the buried tanks must not be used for any purpose. The filling and dipping pipes in an underground tank shall be carried down to the bottom of the tank.

14. Every care shall be taken to prevent any petroleum escaping into any drain, sewer, harbour, river or water course and enclosures or wells must not be permanently connected with any drain or sewer.

15. Pumps shall be placed only in the positions shown on the plan attached hereto and they shall together with all connections and fittings be so constructed and maintained as to prevent leakage of petroleum.

16. All tanks shall be fitted with a vent pipe leading into the open air, the open end being covered with fine copper (or other non-corroding metal) wire gauze of mesh not less than 28 to the linear inch, and

fitted with a hood or the open end shall be fitted with an approved relief valve or other approved means provided to prevent dangerous internal or external pressures being produced.

17. Cast iron valves are not permitted on any tank and all valves in an installation must be permanently marked in a manner clearly indicating the direction of opening and shutting the valve.

18. The following safety distances shall be observed:

(*N.B.*—The distances will be required to be kept clear not merely on the first establishment of the premises but during the continuance of the licence.)

A distance of not less than 100 feet shall be kept clear between a storage tank and any other storage tank or between such a storage tank and a storage or filling shed, the distance being measured between the nearest points of the perimeters of the storage tanks or storage or filling sheds, as the case may be.

A distance of not less than 150 feet shall be kept clear between any storage tank or storage or filling shed and any protected work:

Provided that—

(*i*) Where the quantity of dangerous petroleum or partly dangerous and partly non-dangerous petroleum not in bulk to be stored in a storage shed does not exceed 50,000 gallons the following reduced distances may be kept clear between the shed or enclosure wall and any other building forming part of the installation, any protected work or any storage tank containing non-dangerous petroleum having a capacity not exceeding 50,000 gallons:—

	Feet.
Not exceeding 1,000 gallons	20
Exceeding 1,000 gallons but not exceeding 10,000 gallons ..	30
Exceeding 10,000 gallons but not exceeding 20,000 gallons	40
Exceeding 20,000 gallons but not exceeding 30,000 gallons	50
Exceeding 30,000 gallons but not exceeding 40,000 gallons	60
Exceeding 40,000 gallons but not exceeding 50,000 gallons	70

(*ii*) When a storage tank containing non-dangerous petroleum has a capacity not exceeding 100,000 gallons, a distance of not less than 50 feet may be kept clear between it and another such tank of similar or less capacity or between it and a storage or filling shed containing non-dangerous petroleum.

Such a storage tank and storage or filling shed may, where the total quantity stored does not exceed 200,000 gallons, keep a distance of not less than 50 feet clear between the enclosure wall or embankment and any protected works.

(*iii*) When a storage tank containing non-dangerous petroleum has a capacity not exceeding 50,000 gallons, a distance of—

(*a*) for horizontal tanks, not less than one-third;

(*b*) for perpendicular tanks, not less than one-half, the height of the tank may be kept clear between it and another such tank or between such a tank and a storage or filling shed wherein non-dangerous petroleum is stored in quantity not exceeding 50,000 gallons.

Such a storage tank and storage or filling shed may, where the total quantity stored does not exceed 100,000 gallons, keep a distance of not less than 20 feet clear between the enclosure wall or embankment and any protected works.

(*iv*) In the case of heavy petroleum a distance of not less than 20 feet may be kept clear between one storage tank and another such tank or between a storage tank and a storage or filling shed containing such petroleum and a distance of not less than 50 feet shall be kept clear between such storage tank or filling or storage shed and any protected works. When the total quantity stored in such storage tank and storage or filling shed does not exceed 100,000 gallons, half the distances given in clause (*iii*) for the like quantity of non-dangerous petroleum other than heavy petroleum may be observed.

19. The distances specified in condition 18 may be amended by the licensing authority in cases where screen walls are provided or other special precautions taken or where there are special circumstances that, in his opinion, warrant the alteration.

20. Notwithstanding anything herein to the contrary when petroleum is stored in an installation at or near wells, pumping stations or refineries, the concessions in provisos (*i*), (*ii*), (*iii*) and (*iv*) of condition 18 shall not apply and no storage tank, the capacity of which exceeds 50,000 gallons or any storage or filling shed shall be placed nearer than 300 feet to any still, boiler, furnace or fire. In such an installation all tanks shall be situated on a compact area under a single control and enclosed or capable of being enclosed by one continuous fence on which there shall be no protected works.

21. No more tins shall be allowed in the filling and soldering sheds at any one time than are necessary for expeditious working.

22. All empty receptacles which have contained dangerous petroleum shall be kept securely closed unless they have been thoroughly cleaned and freed from petroleum and inflammable vapour.

2. No person shall repair or cause to be repaired any receptacle in which, to his knowledge, any petroleum is or has been kept until he has taken all reasonable precautions to ensure that the receptacle has been rendered free from petroleum and any inflammable vapour.

3. If the licensing authority calls upon the holder of a licence, by a notice in writing, to execute any repairs to the licensed premises which may, in the opinion of such authority, be necessary for the safety of the premises, the holder of the licence shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

4. No alteration shall be carried out in the licensed premises without the previous sanction in writing of the licensing authority. Such alterations, so sanctioned, shall be shown on an amended plan to be attached to this license.

5.* The following distances shall be kept clear between protected works and a storage shed or an enclosure wall used for the storage of dangerous petroleum or partly dangerous and partly non-dangerous petroleum.

Quantity to be stored.	*Distances to be kept clear.*
	Feet.
Not exceeding 500 gallons	20
Exceeding 500 gallons but not exceeding 1,000 gallons ..	25
Exceeding 1,000 gallons but not exceeding 5,000 gallons ..	30

Exceeding 40,000 gallons but not exceeding 50,000 gallons ..	70
Over 50,000 gallons	100

*The distances will be required to be kept clear not merely on the first establishment of the premises but during the continuance of the licence.

6.* The following distances shall be kept clear between protected works and a storage shed or an enclosure wall used for the storage of non-dangerous petroleum only:—

Quantity to be stored.	*Distances to be kept clear.*
	Feet.
Exceeding 5,000 gallons but not exceeding 10,000 gallons ..	15
Exceeding 10,000 gallons but not exceeding 50,000 gallons ..	20
Over 50,000 gallons	30

7. The distances specified in conditions 6 and 7 may be reduced by the licensing authority in cases where screen walls are provided or other special precautions taken or where there are special circumstances that, in his opinion, warrant the reduction.

8. The drum or other receptacle containing petroleum shall only be opened in the licensed premises and for the time necessary for drawing off the petroleum, and during such drawing off every reasonable precaution shall be adopted for preventing the escape of petroleum or the vapour therefrom.

9. No person under the age of 15 years shall be employed in or shall enter the licensed premises except in the presence of and under the immediate supervision of some grown up person.

10. All due precautions shall be taken at all times for the prevention of accident by fire or explosion.

11. Every care shall be taken to prevent any petroleum escaping into any drain, sewer, harbour, river or water course.

12. All due precautions shall be taken for the prevention of unauthorised persons having access to any petroleum kept and to any receptacles containing or having actually contained the same.

13. Free access to the licensed premises shall be given at all reasonable times to any of the officers authorised under sections 13 and 14 of the Act and every facility shall be afforded to such officer for ascertaining that the rules and the conditions of this license are duly observed.

14. Any accident, fire or explosion occurring within the licensed premises, which is attended with loss of human life or serious injury to person or property shall be reported immediately to the nearest Magistrate or to the Officer-in-Charge of the nearest Police Station by telegraph or telephone.

15. All empty receptacles which have contained dangerous petroleum shall be kept securely closed unless they have been thoroughly cleaned and freed from petroleum and inflammable vapour.

16. (*a*) Dangerous petroleum shall be imported and/or stored in gas-tight tinned, galvanised or otherwise rust-proofed, sheet iron or steel receptacles of not more than 65 gallons capacity and fitted with well made filling apertures and well-fitting screw plugs, or with

*The distances will be required to be kept clear not merely on the first establishment of the premises but during the continuance of the licence.

screw caps or other caps with metal air-tight under caps. The receptacles shall be of a type approved in writing by the Chief Inspector and shall have the following thickness of metal—

	Not less than
Capacity not exceeding 2 gallons ..	.. 27 B.G.
Exceeding 2 but not exceeding 4 gallons ..	.. 22 B.G.
Exceeding 4 but not exceeding 30 gallons	.. 18 B.G.
Exceeding 30 but not exceeding 45 gallons	.. 17 B.G.
Exceeding 45 gallons	.. 16 B.G.

(*b*) All receptacles shall be kept in proper repair and shall be available for inspection at any time by the Chief Inspector or an Inspector.

(*c*) All receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure in transit and shall have a stamped, embossed, painted or printed warning exhibiting in conspicuous characters the words "Petrol" or "Motor spirit" or an equivalent warning of the dangerous nature of the petroleum.

(*d*) An air-space of not less than one-twentieth of its capacity shall be left in each drum or other receptacle containing dangerous petroleum.

17. Non-dangerous petroleum shall be packed in air-tight tins or drums of steel or iron or other receptacles not easily broken.

SCHEDULE III.

METHODS OF TESTING PETROLEUM.

Determination of Flashing-Point.

[*See Rules 156 and 159.*]

I. APPARATUS TO BE USED.

The flashing-point of petroleum and petroleum mixtures which are fluid at 50°F. and which flash not above 120°F. shall be determined by the Abel apparatus as hereinafter defined.

The flashing-point of petroleum and petroleum mixtures which are solid at 50°F. and which flash not aboye 120°F. shall be determined by the Abel apparatus, the test being modified as hereinafter described.

The flashing-point of petroleum and petroleum mixtures which flash above 120°F. shall be determined by the Pensky-Martens apparatus as hereinfater defined.

II. Preparing the samples for test.

About ten fluid ounces of the sample, sufficient for three tests, should be transferred from the bottle into which the sample has been drawn to a pint flask or bottle, which should be immersed in water artificially cooled until a thermometer, introduced into the sample indicates a temperature not exceeding 50°F.

III. (1) Abbel apparatus.

The apparatus to be employed shall be the Abel petroleum testing apparatus modified by having an oil cup provided with a stirrer. It shall be constructed to the dimensions herein specified within the limits of accuracy prescribed by the tolerances set forth below.

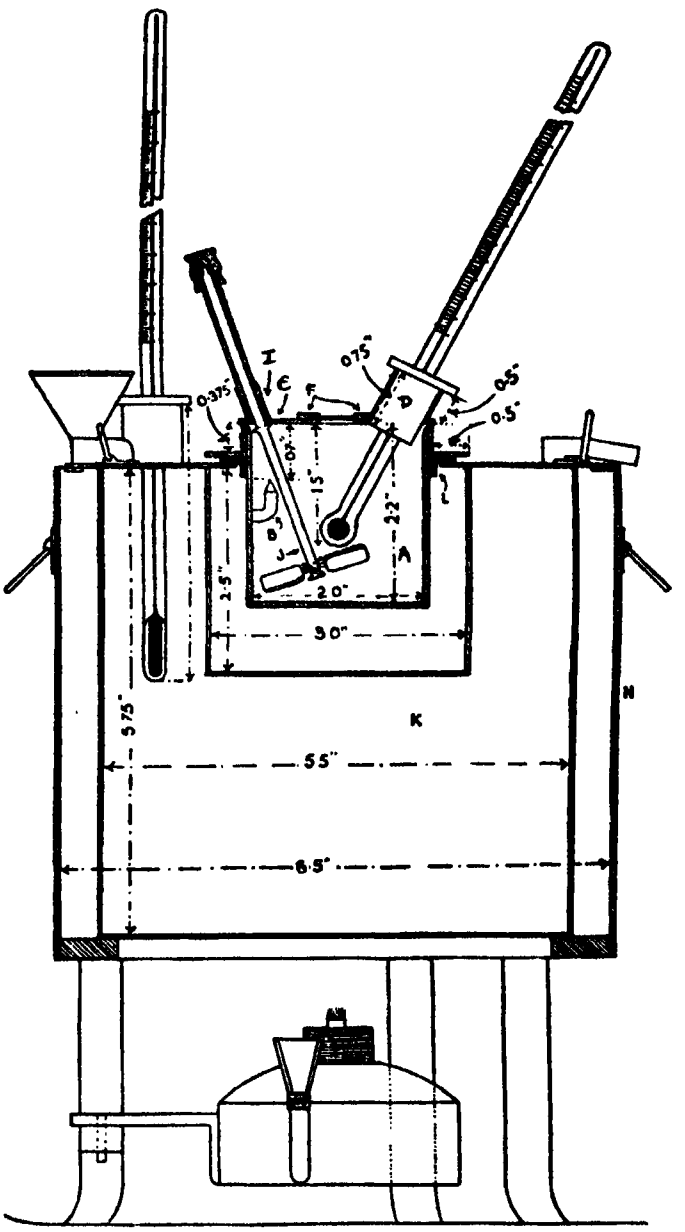

Oil Cup.—The oil cup consists of a cylindrical vessel open at the top and fitted on the outside with a flat circular flange projecting at right angles.

Within the cup, fixed through the wall and silver soldered or brazed in place, there is a gauge consisting of a piece of wire bent upwards and terminating in a point.

Material.—Brass or gun-metal.

downward projecting ring is made solid with the top or silver soldered or brazed in place. Upon the cover are mounted a thermometer socket, trunnions to support an oil test-lamp, a pair of guides in which

COVER OF ABEL FLASH-POINT APPARATUS.

(SLIDE OPEN.)

a slide moves, and a white bead. The top of the cover is pierced by three rectangular holes symmetrically placed on a diameter, one in the centre and the other two as close as practicable to the inner sides of the cover-rim and opposite each other. These three holes are covered or uncovered by means of a slide moving in suitably disposed guides. The slide has two perforations, one corresponding in all particulars to the centre hole in the cover and the other to one of the holes at the side. The movement of the slide is restricted by suitable stops, and its length and the disposition of the holes are such, that at the outer extremity of the movement of the slide, the holes in the cover are simultaneously just completely opened and at the inner extremity of the movement of the slide they are completely closed.

The trunnions supporting the test-lamp are fixed on the top of the guides and the lamp is mounted in the trunnions so that it is free to oscillate. The lamp is provided with a jet to contain a wick and is so arranged that when the slide is moved so as to uncover the holes, the oscillating lamp is caught by a pin fixed in the slide and tilted over the central hole in such a way that the lower edge of the cover

bisects the circle formed by the bore of the jet when in the lowest position. The flame then occupies a central position within the hole in both directions.

A suitably mounted gas-jet may be substituted for the lamp.

These dimensions are subject to the correct placing of the thermometer when in position.		
Vertical depth of lowest part of thermometer below centre of under side of cover	1·5 in.	±0·1

The thermometer socket is in the form of a split tube, mounted on a diameter at right angles to the diameter through the centre of the holes, and fitted at such an angle as to bring the bulb of the thermometer, when in place, vertically below the centre of the cover and at the correct distance from it.

A white bead, the dimensions of which represent the size of test flame to be used, is mounted in a visible position on the cover.

Materials.—All parts excepting bead, brass or gun-metal. Bead, ivory or other suitable material.

Cover fitted with Stirrer.—Provision may be made in the cover for the reception of a stirrer which projects into the oil cup, for use with viscous materials only.

A bush is mounted on the cover in a position diametrically opposite the thermometer mounting, and its length is such and it is set at such an angle that the stirrer rod clears the oil-level gauge and the blades operate below the level of, and without fouling, the thermometer bulb. The bush is placed as near as practicable to the outer edge of the cover.

The stirrer consists of a round stem having four blades or vanes silver soldered in place at one end. A collar is fixed on the stem so that when the stem is inserted into the bush from below, it is arrested at a position such that the correct length protrudes into the oil cup. The top end of the stem is reduced and screwed.

A long sleeve having an internally screwed, knurled knob soldered to its upper end, is passed over the upper end of the stem and screwed home. The length of the sleeve is such that flat-faced collar at its lower end just comes into contact with the upper end of the bush, leaving the stirrer free to rotate without appreciable vertical play.

A flat-headed cylindrical plug is provided for insertion in the bush when the stirrer is not in use.

Material.—Brass or gun-metal.

Heating Vessel.—The heating vessel or bath consists of two flat-bottomed cylindrical copper vessels placed coaxially one inside the other and soldered at their tops to a flat copper ring, greater in outside diameter than the larger vessel and of smaller inside diameter than the

smaller vessel. The space between the two vessels is thus totally enclosed and is used as a water jacket.

An ebonite or fibre ring of right-angle section is fitted into the hole in the centre of the flat ring forming the top of the bath and, when the apparatus is in use, the oil cup fits into, and its flange rests upon, this ebonite or fibre ring so that the oil cup is centrally disposed within the heating vessel. The ebonite or fibre ring is secured in place by means of six small screws having their heads sunk below the surface of the ring, to avoid metallic contact between the bath and the oil cup.

A split socket, similar to that on the cover of the oil cup, but set vertically, allows a thermometer to be inserted into the water-space. A funnel and overflow pipe also communicate with the water-space through the top plate and two loop handles are provided thereon.

The bath rests upon a cast-iron tripod stand, to the ring of which is attached a cylindrical copper jacket not less than 24 I.W.G. flanged inwards at the top, and of such dimensions that the bath, while resting firmly on the iron ring, just touches with its outward projecting flange the inward-turned flange of the jacket. Two handles are provided on the outer jacket.

Diameter of the outer jacket 6·5 inches ± 0·1 inch.

Spirit Lamp.—A spirit lamp is provided for raising the temperature of the water bath, but any other suitable means may be employed for this purpose.

Thermometers.—Two thermometers are provided, the one for ascertaining the temperature of the bath, the other for determining the flashing-point.

Oil Cup Thermometer.

Length	..	Approximately 9 inches.
Stem	..	Diameter 0·24 to 0·28 inch.
Bulb	..	Spherical; made of normal glass approved by the Board of Trade. Diameter, 0·35 inch ± 0·05 inch.
Range	..	50° to 150° F. with expansion chamber. Distance from the bottom of the bulb to the 50° line, 2·75 inches to 3·15 inches. Distance from the 50° line to the 150° line, not less than 4·75 inches.
Immersion	..	A swelling is made in the stem to ensure that the thermometer shall be fixed in its brass collar so that the distance from the top of the collar to the bottom of the bulb is 2·40 inches ± 0·05 inch.
Graduation	..	Scale graduated to 1° F. divisions. Every 5° and every 0°1 to be indicated by longer lines. Figured at every 10° in full.
Marking	..	"Abel Oil Cup": Identification number, "Fahrenheit"; maker's or vendor's name or trade mark.

Water Bath Thermometer.

Type	..	Mercury in glass, nitrogen filled, graduated on the stem, enamel back.
Length	..	Approximately 9 inches.
Stem	..	Diameter, 0·24 to 0·28 inch.
Bulb	..	Cylindrical, made of a normal glass approved by the Board of Trade. Length, approximately 0·8 inch. Diameter, not to exceed the diameter of the stem.
Range	..	90° to 190° F. with expansion chamber. Distance from the bottom of the bulb to the 90° line, 3·95 inches to 4·35 inches. Distance from the 90° line to the 190° line, not less than 3·55 inches.
Immersion	..	A swelling is made in the stem to ensure that the thermometer shall be fixed in its brass collar so that the distance from the top of the collar to the bottom of the bulb is 3·5 inches ±0·1 inch.
Graduation	..	Scale graduated to 1° F. divisions. Every 5° and 10° to be indicated by longer lines. Figures at every 10° in full.
Marking	..	"Abel Water Bath": Identification number, "Fahrenheit" maker's or vendor's name or trade mark.

The brass collar of the thermometer is in each case of the following dimensions :—

Outside diameter—push fit in socket.

Thickness of tube—22 I.W.G.

Thickness of flange—0·1 inch ± 0·001 inch.

III. (2) METHOD.

(1) FOR PETROLEUM FLASHING BELOW 90° F.

The test apparatus shall be placed for use in a position where it is not exposed to currents of air or draughts.

The heating vessel or water-bath shall be filled by pouring water into the funnel until it begins to flow out at the spout of the vessel. The temperature of the water at the beginning of the test shall be 130° F., and no heat shall be applied to the water-bath during the test. When a test has been completed and it is desired to make another test the water-bath shall be again raised to 130° F., which may conveniently be done while the petroleum cup is being emptied, cooled and refilled with a fresh sample to be tested. The next test is then proceeded with.

If an oil test-lamp is being used it shall be prepared by fitting it with a piece of flat plaited candlewick and filling it with colza or rape oil up to the lower edge of the opening of the spout or wick tube. The lamp shall be trimmed so that when lighted it gives a flame of about 0·15 of an inch diameter, and this size of flame, which is represented by the projecting white bead on the cover of the oil-cup is readily maintained by simple manipulation from time to time with a small wire trimmer. A gas test-flame may be employed, and if so, the size of the jet of flame shall be adjusted to the size laid down above.

The bath having been raised to the proper temperature, the cup shall be placed on a level surface in a good light, and the oil to be tested shall be poured into it, until the level of the liquid just reaches the point of the gauge which is fixed in the cup. Before a test is begun the temperature of the oil shall be determined and shall be brought to approximately 50° F. The cover, with the slide closed, shall then be put on to the cup and pressed down so that its edge rests on the rim of the cup, and the cup shall be so placed into the bath or heating vessel, every care being taken to avoid wetting the sides of the cup with the oil. The thermometer in the lid of the cup has been adjusted so as to have the correct immersion when the brass collar of the thermometer is properly seated, and its position shall not in any circumstances be altered. When the cup has been placed in the proper position, the scale of the thermometer faces the operator.

The test-lamp shall then be placed in position upon the lid of the cup. When the temperature has reached 56° F. the operation of testing shall be begun, the test flame being applied once for every rise of one degree, in the following manner:—

The slide shall be slowly drawn open while a metronome, set at 75 to 80 beats per minute, beats three times and shall be closed during the fourth beat. A pendulum of 24 inches effective length may be used in place of the metronome, counting one beat from one extremity of the swing to the other.

The barometric pressure shall be observed and recorded. No corrections shall be made except in case of dispute.

(2) FOR PETROLEUM FLASHING BETWEEN 90° F. AND 120° F.

The air-chamber which surrounds the oil-cup shall be filled with cold water at a depth of 1.5 inches, and the heating vessel or water-bath filled as usual, but also with cold water. The lamp shall then be placed under the apparatus and kept there during the entire operation, and the temperature of the oil raised at the rate of 2° F. to 2.25° F. per minute, the testing being carried out as laid down in the previous section, except that the test flame shall first be applied when the temperature has reached 80° F.

(3) FOR SOLID PETROLEUM MIXTURES.

Solid Petroleum Mixtures are to be tested in the Abel apparatus in the following manner:—

The solid mixture must be cut into cylinders 1.5 inch long and 0.25 inch in diameter by means of a cork borer or other similar cutter having the correct internal diameter. These cylinders are to be placed in the petroleum cup of the testing apparatus in a vertical position in such number as will completely fill the cup. The cylinders must be in contact with one another, but must not be so tightly packed as to be deformed in shape.

Five or six of the cylinders in the centre of the cup must be shortened to 0.5 inch to allow space for the thermometer bulb.

The air bath of the testing apparatus must be filled to a depth of 1.5 inch with water. The water bath must then be raised to, and maintained at, a temperature of about 80° F.

The cup must then be placed in the air bath, and the temperature of the sample must be allowed to rise until the thermometer in the oil-cup shows 75° F., when the test flame must be applied.

If no flash is obtained, this temperature must be maintained constant in the oil-cup for one hour, at the expiration of which time the test flame must again be applied.

If a flash is obtained, the solid mixture will be subject to the provisions of the Petroleum Act, 1934.

Note.—It may, in many cases, save time in testing samples of petroleum mixtures to apply the test flame after the sample has been a few minutes in the cup and while still at the temperature of the room in which the test is being carried out, provided that this temperature is below 76° F. If a flash is obtained by this means, it is unnecessary (*for the purpose of the Petroleum Act*) to proceed with the test at a higher temperature.

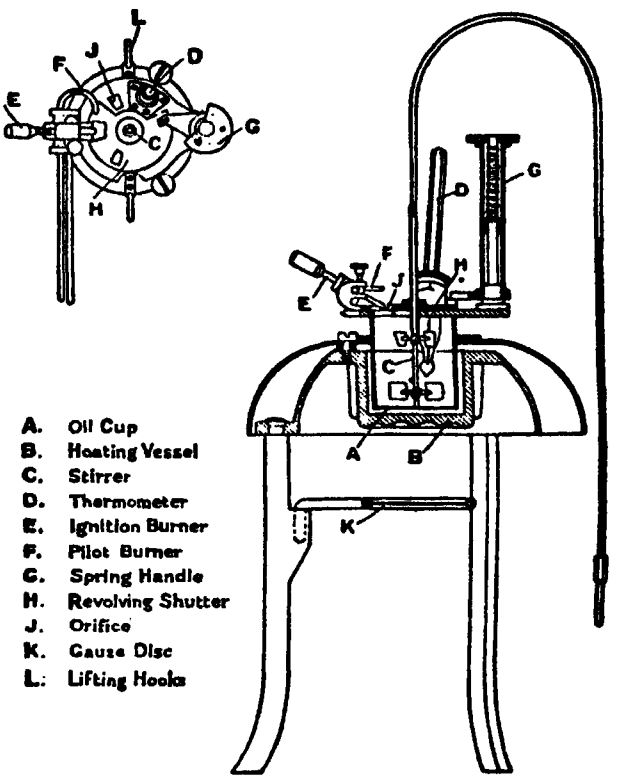

IV. (1) THE PENSKY-MARTENS APPARATUS.

The standard Pensky-Martens Closed Tester shall be used for determining the flashing-point of all petroleum products having a flashing-point above 120° F.

Every instrument shall be marked with the letters I.P.T., an identification number (on the cup, cover and top plate) and the name of the maker or vendor, such stamping implying a guarantee that the instrument complies with the requirements specified below.

The Pensky-Martens Tester shall include the following major parts:—

Cup.—The cup of the standard Pensky-Martens Tester shall be made of brass and shall satisfy the following dimensional specifications:—

THE PENSKY-MARTENS CLOSED TESTER.

Dimensions.	Inches. Normal.	Tolerances.
Inside diameter below filling mark ..	2·000	±0·050
Difference, inside and outside diameters below filling mark	0·125	±0·010
Inside height	2·200	±0·050
Thickness of bottom	0·095	±0·025
Distance from rim to filling mark ..	0·860	±0·015
Distance lower surface flange to bottom of cup	1·795	±0·015

The inside of the cup may be turned to a slightly larger diameter above the filling mark and the outside may be tapered above the flange,

but the wall thickness at the upper edge shall be not less than 0·04 in. The flange should be approximately 0·5 in. wide and approximately 0·125 in. thick. It shall be equipped with devices for locating the position of the lid on the cup and the cup centrally in the stove. A handle, attached permanently to the flange of the cup, is a desirable accessory.

NOTE.—If the bottom of the cup is affixed it shall be brazed or hard soldered.

Stirring Device.—The lid shall be equipped with a stirring device consisting of a vertical steel shaft, not less than 0·1 in. nor more than 0·125 in. in diameter, mounted in the centre of the cup, carrying two two-bladed brass propellers, and provided with any convenient means for operating. The blades of both propellers shall be approximately 0·3 in. wide and shall be set at an angle of approximately 45°. The smaller (upper) propeller shall have an over-all diameter of approximately 0·75 in. The larger (lower) propeller shall have an over-all diameter between 1·25 and 1·75 in. The thickness of the propeller blades shall be not less than 0·048 in. nor more than 0·08 in., which limits correspond respectively to No. 18 and No. 14 S.W.G. The propeller blades shall be brazed or hard soldered to collars on the vertical shaft and the collars shall have horizontal and vertical dimensions not greater than 0·4 in.

The plane of the centre of the upper propeller shall be 0·4 in. below the level of the rim of the cup. The plane of the centre of the lower propeller shall be 2·0 in. below the level of the rim of the cup. The level of the rim of the cup is in effect the level of the plane part of the portion of the lower surface of the lid inside the rim.

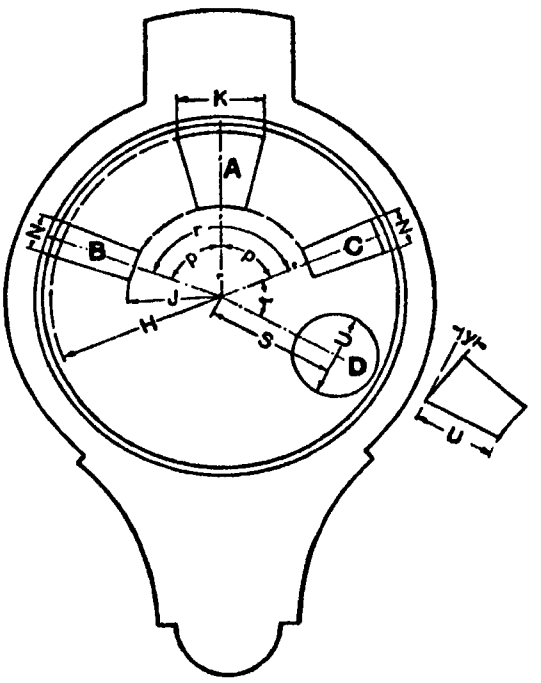

Cover proper.—The cover proper shall be of brass and shall have a rim projecting downward almost to the flange of the cup and fitting the outside of the cup closely. The thickness of the cover, measured just inside the rim, shall be not less than 0·03 in. nor more than 0·08 in. There shall be a proper locating device engaging with a corresponding locating device on the flange of the cup.

There shall be four openings in the cover.

Opening A is an area defined by arcs of two concentric circles and the intersected lengths of two radii. The radius of the outer circle shall be not less than 0·94 in. nor more than 0·97 in. The chord of the arc of the outer circle shall be not less than 0·5 in. nor more than 0·54 in.

Openings B and C are equal areas, each of the same general form as opening A but of approximately half the (angular) width. The radii of the defining inner and outer circles shall be within the limits specified for the radii of the two circles, arcs of which partially define opening A. The chord of the outer arc for opening B or opening C shall be not less

than 0·19 in. nor more than 0·22 in. The sum of the areas of openings B and C shall be not less than 75 per cent. nor more than 100 per cent. of the area of opening A.

H	Minimum	0·94 in.,	maximum	0·97 in.
J	,,	0·53 in.,	,,	0·56 in.
K	,,	0·50 in.,	,,	0·54 in.
N	,,	0·19 in.,	,,	0·22 in.
S	Approximately	0·75 in.		
U	,,	0·5 in.		
Angles *p*	Equal.			
Angle *r*	Minimum	135°,	maximum	140°.
,, *t*	,,	50°,	,,	60°.
,, *y*	,,	10°,	,,	15°.

COVER OF PENSKY-MARTENS TESTER.

Openings B and C shall be equally distant from opening A, and radii drawn through each of their centres shall be at an angle of not less than 135° nor more than 140°.

Openings A, B, and C need not conform exactly to the shape of geometrical figures bounded by arcs of two concentric circles and intersected length of radii. Their boundaries must, however, fall on or between the lines indicated by the limiting values of the dimensional specification of the preceding text.

Opening D is a split tube to grip the thermometer collar and shall be set at an angle of not less than 10° nor more than 15° from the perpendicular. Its centre is approximately 0·75 in. from the centre of the lid

and on a radius at an angle of not less than 50° nor more than 60° from the radius passing through the opening C. Its height shall be such that, when a standard thermometer is in position, the bottom of the bulb shall be 1·5 in., ±0·1 in., below the level of the rim of the cup (which corresponds to the lower surface of the portion of the lid inside the rim).

Shutter.—The lid shall be equipped with a brass shutter, approximately 0·1 in. thick, operating on the plane of the upper surface of the lid. The shutter shall be so shaped and mounted that it rotates on the surface of the lid about an axis normal to the lid, and through its centre, between two stops so placed that when in one extreme position the openings A, B, and C of the lid are completely closed and when in the other extreme position these openings are completely opened.

Flame exposure device.—The tip of the flame jet shall have an orifice 0·027 in. to 0·03 in. diameter. The flame-exposure device shall be equipped with an operating mechanism which, when the shutter is in the "open" position, depresses the tip so that the centre of the orifice is between the plane of the under and upper surfaces of the lid proper, at a point on a radius passing through the centre of the larger opening A and approximately 0·1 in. from the outer edge of the opening.

The test flame shall be approximately spherical and shall be regulated to be of the same mean diameter as a bead 0·16 in. in diameter of some suitable material mounted on the lid.

The mechanism operating the shutter should be of the spring type and constructed so that when at rest the shutter shall completely close the three openings. When operated to the other extreme the three openings in the lid shall be fully open and the tip of the exposure tube shall be fully depressed.

NOTE.—A pilot flame for automatic relighting of the test flame should be provided.

If the air bath is electrically heated, and gas is not available, an oil burner shall be used as the test flame, the position of which shall correspond with that of the gas flame previously specified.

Stove.—Heat shall be supplied to the cup by means of a properly designed stove which is equivalent to an air bath. This stove shall consist of (1) an air bath and (2) a top plate on which the flange of the cup rests.

Air bath.—The air bath shall have a cylindrical interior 1·625 in. to 1·66 in. deep and a diameter not less than 0·125 in. nor more than 0·156 in. greater than the outside diameter of the cup, with the minimum clearance of 0·05 in. The air bath shall be a flame-heated metal casting.

NOTE.—The casting shall be so designed and used that the temperature of bottom and walls is approximately the same. On this account it should be not less than 0·25 in. thick. The apparatus shall be designed so that products of combustion of the flame cannot come into contact with any part of the cup.

Top plate.—The top plate shall be of metal. The total distance from the upper surface of the plate to the bottom of the air bath shall exceed the distance from the under surface of the flange to the bottom of the cup by not less than 0·063 in. nor more than 0·125 in.

The top plate shall be mounted with an air gap between it and the air bath. The top plate may be attached to the air bath by means of three screws and spacing bushings. The spacing bushings should be of proper thickness to define the air gap which shall be not less than 0·125 in. nor more than 0·187 in. The spacing bushings shall be not more than 0·375 in. in diameter.

Thermometers.—A low range thermometer shall be used with the Standard Pensky-Martens Tester for determining the flashing point above 120°F. The thermometer shall comply with the specification given below.

The thermometers shall conform to the following general specification:—

Type.—Mercury in glass, except where otherwise stated. Engraved stem. Nitrogen filled.

Stem.—The stem shall be made of lead glass or other suitable glass. Enamel back.

Bulb.—The bulb shall be made of a suitable thermometric glass approved by the National Physical Laboratory. At present these glasses are:—

——	Identification mark.	Approved for temperatures up to
Normal glass made by James Powell and Sons, Ltd.	Single blue stripe ..	350°C.*
Normal glass made by Frank Tomey and Co., Ltd.	Two blue stripes ..	350°C.*
Normal glass, Jona[111] made by Schott and Genossen	Purple stripe ..	350°C.*
Normal glass, Gego Eff, made by Glaswerk Guxtav Fischer	Blue and a red stripe	350°C.
Corning Borosilicate made by Corning Glass Co.	....	450°C.
Jena 59[111] made by Schott and Genossen ..	....	450°C.
Jena 2954[111] made by Schott and Genossen ..	Single black stripe	450°C.

Expansion and Contraction Chambers.—No contraction chamber shall be above the immersion line and no enlargement of the bore shall be within 10 mm. of the immersion line or of any part of the scale.

Graduation and Figuring.—The graduation lines shall be clearly etched, and of uniform thickness not exceeding 0·15 mm. The lines shall all be at right angles to the axis of the thermometer. When the thermometer is viewed from the front and in a vertical position the lines shall all finish on a line parallel to the axis on the left hand side. Certain of the graduation lines shall be extended on the right hand side but the shortest graduations shall not extend across the bore. When

*May be used up to 400°C. if a careful examination of the zero is made periodically.

the diameter of the tube permits the figures shall be upright when the thermometer is viewed from the front and in a vertical position, and should preferably be placed so that they would be intersected by the line to which they refer if it were extended.

Marking.—In addition to the special markings given in the table, each thermometer shall be marked with an identification number, and the maker's, or vendor's, name or trade mark:—

Name and special marking.	"I. P. T. P. M.—Low."
Dimensions—	
Stem, diameter	6·7 mm.*
Bulb, shape	Round.
Bulb, length	....
Bulb, diameter	8 mm. max.
Overall length, ±5 mm.	275 mm.
Length of graduated portion	150-180 mm.
Distance, bottom of bulb to	20° mark, 70-85 mm.
Range	20° F. to 230° F.
Graduation	1° F.
Longer lines at each	5° F. and 10° F.
Figured at each	10° F.
Expansion chamber	Required.
Immersion	2·2 in.
Top finish	Glass ring.

Each thermometer shall be mounted securely in a thermometer collar so that from the under-side of this collar to the bottom of the bulb the distance is 2·1 in. (±0·05 in.). The thermometer collar shall have an outside diameter of 0·5 in., ±0·002 in., and a flange 0·1 in., ±0·01 in., in thickness. The cement used to fasten the thermometer into the collar shall be of such a nature that it will withstand the action of oil up to the highest temperature at which the thermometer is used.

*A swelling to be provided to ensure the location of the thermometer collar at the correct point.

Drying of the sample.

If gas oil or fuel oil is being tested, the sample shall be dried by the following method:—

One hundred grams of well-dried granular calcium chloride is placed in a dry wide-mouth stoppered glass bottle.

Two hundred and fifty millilitres* of the oil is then poured upon the calcium chloride. The stopper is secured in position by tying. The bottle is then well shaken and is stood in a vessel of water, the level of the water being up to about one-third of the height of the oil in the bottle. The water is next raised to a temperature of 50°C. (120°F.), and is maintained at this temperature for a period of seven hours, the bottle and its contents being well shaken up at intervals of about an hour. At the end of this treatment the bottle and its contents are allowed to cool to atmospheric temperature; the bottle is then opened and sufficient of the oil for test filtered through paper on a Buchner funnel.

IV. (2) METHOD.

All parts of the cup and its accessories shall be thoroughly clean and dry before starting the test. Particular care shall be taken to avoid the presence of any gasoline or naphtha used to clean the apparatus after a previous test.

The cup shall be filled with the oil to be tested up to the level indicated by the filling mark.

The lid shall be placed on the cup and the latter set in the stove. Care should be taken to have the locating devices properly engaged. The thermometer shall be inserted.

The test flame shall be lighted and adjusted so that it is of the size of a bead of 0·16 in. in diameter.

Heat shall be supplied at such a rate that the temperature read on the thermometer increases not less than 9 or more than 11 degrees per minute. The stirrer shall be turned at a rate of approximately 60 revolutions per minute.

Application of the test flame shall be made at each temperature reading which is a multiple of 2°F. up to 220°F. For the temperature range above 220°F., application shall be made at each temperature reading which is a multiple of 5°F. The first application of the test flame shall be made at a temperature at least 50°F. below the actual flashing-point. Application of the test flame shall be made by operating the device controlling the shutter and test-flame burner so that the flame is lowered in one-half second, left in its lowered position for one second, and quickly raised to its high position. Stirring shall be discontinued during the application of the test flame.

The flashing-point is taken as the temperature read on the thermometer at the time of the flame application that causes a distinct flash in the interior of the cup. The true flash must not be confused with the bluish halo that sometimes surrounds the test flame for the applications preceding the one that causes the actual flash.

---

*If a smaller quantity of oil is to be dried the amount of calcium chloride must be adjusted in proportion.

The barometric pressure shall be observed and recorded. No corrections shall be made except in case of dispute, when the flashing-point figure shall be corrected according to the following rule:—

For each inch (25·4 mm.) below 29·92 in. (760 mm.) barometric reading add 1·6°F. to the flashing-point.

For each inch (25·4 mm.) below 29·92 in. (760 mm.) barometric reading subtract 1·6°F. from the flashing-point.

V. The Flashing-Point.

If a flash takes place at any temperature below 76°F. the temperature at which it occurs is noted. Two fresh portions of the sample are then to be successively tested in a similar manner and the results recorded. If no greater difference than two degrees Fahrenheit exists between any two of the three recorded results and if in no instance the flash has taken place within eight degrees Fahrenheit of the temperature at which the testing was commenced, the average of the three readings gives the flashing-point recorded by that particular instrument, but without either apparatus correction or thermometer correction. In the event of there being a greater difference than two degrees Fahrenheit between any two of the readings, or if the flash has occurred within eight degrees of the temperature at which the testing was commenced, the series of tests is to be rejected and a fresh series of three similarly obtained.

If, however, a flash has occured at or below 64°F. when the test was applied in the manner above described, the next test shall be commenced 10°F. lower than the temperature at which the flash had been previously obtained, and this procedure shall be continued until the results of three consecutive tests do not show a greater difference than two degrees Fahrenheit and until a flash has not occurred in any of the three tests within eight degrees Fahrenheit of the temperature at which the test was commenced. Provided always that if at the commencement of the series of tests a flash has occurred on the first application of the test-flame at 56° F. and if a flash has also occurred on the first application of the flame in each of the three successive tests in which the test-flame is first applied at 46°F. as above directed, the testing officer shall certify that the petroleum has a flashing-point below 47°F. and the sample shall be reported as "dangerous petroleum".

If a temperature of 76°F. has been reached without a flash occurring, the application of the test-flame is to be continued at every degree rise of temperature until a temperature of 89°F. has been reached. If no flash occurs up to this point, the test shall be continued on a fresh sample as in Section III (2) (2) above.

If no flash occurs up to 120°F., the flashing-point shall be determined by the Pensky-Martens apparatus and method, as described above.

Simla, the 29th August 1936.

No. M.-1077.—In exercise of the powers conferred by section 29 of the Indian Mines Act, 1923 (IV of 1923), the Governor-General in Council is pleased to direct that the following further amendments shall be made in the Indian Coal Mines Regulations, 1926, the same having been previously published as required by sub-section (*1*) of section 31 of the said Act, namely:—

In the said Regulations—

I. In regulation 2 after clause (*c*), the following clause shall be inserted, namely:—

"(*cc*) "Permitted Explosive" means an explosive permitted by the Chief Inspector under such definition and subject to such conditions as he may from time to time lay down by notification in the Gazette of India."

II. After regulation 96, the following regulation shall be inserted, namely:—

"96A. In every underground part of a mine in which inflammable gas has been found during the previous twelve months or in which there is a risk of inflammable gases entering the mine from an underground fire,—

(1) main haulage and travelling roads shall, as far as practicable, be kept free from accumulations of fine coal dust;

(2) all coal tubs shall be so constructed and maintained as to prevent, as far as practicable, coal dust escaping through their sides, ends or floors."

III. For regulation 107 the following regulation shall be substituted, namely:—

"107. The amount of every charge of explosive shall not be disproportionate to the work to be done. The charge shall be placed in a properly drilled and placed shot hole and shall have sufficient stemming. A sufficient supply of suitable non-inflammable stemming material shall be provided at places convenient to the shot-firers."

IV. In regulation 111, for the words "clay or other non-inflammable substance" the words "suitable non-inflammable substances" shall be substituted.

V. (1) In regulation 116, for the words and figures "unless the explosive is one of the "Permitted Explosives" allowed to be used by any order under the Coal Mines Act, 1911", the words "unless the explosive is a Permitted Explosive" shall be substituted;

(2) in the margin to the said regulation the figures, word and letters "1 and 2 Geo. 5, Ch. 50" shall be omitted.

VI. After regulation 116, the following regulation shall be inserted, namely:—

"116-A.—In any mine in which the use of "Permitted Explosives" is required by these regulations or by any bye-law or order made under the Act:—

(*a*) where more shots than one are charged for firing, the shots shall be fired simultaneously;

(*b*) the aggregate charge in any number of shots fired simultaneously in coal shall not exceed the permissible maximum charge laid down by the Chief Inspector for the kind of "Permitted Explosive" used;

(*c*) no shot shall be fired in coal in any gallery unless—

(1) the coal has been undercut, overcut or sidecut; and

(2) the length of the shot hole is at least six inches less than the length of the cut."

VII. For regulation 124 the following regulation shall be substituted, namely:—

"124. In every mine in which inflammable gas has been found during the previous twelve months, safety lamps shall be used in all galleries driven to a distance greater than the length of two pillars ahead of the last connecting gallery and in all advance galleries less than five feet wide, and no such advance gallery shall be driven more than ten feet ahead of the widened gallery; in every such gallery the ventilating current shall be conducted as near to the working face as is practicable."

RESOLUTION.

The 27th August 1936.

No. M.-1250.—The Governor-General in Council, with the sanction of His Majesty's Secretary of State for India in Council, is pleased to direct that the following further amendment shall be made in the rules regulating the grant by local Governments of licences to prospect for minerals and of mining leases in British India, published with the Resolution of the Government of India in the Department of Commerce and Industry No. 7552-7581-121, dated the 15th September 1913, as subsequently amended:—

To rule 1 of the said Rules the following proviso shall be added, namely:—

"Provided that the previous sanction of the Secretary of State for India in Council shall not be required to the grant of such licence or lease in accordance with rules made by an authority in India with his previous approval".

NOTIFICATION No. MISC. R. 18.

Senate House, the 31st August 1936.

It is hereby notified for general information that the Government of Bengal (Ministry of Education) have sanctioned the following changes proposed in Chapters XXXIII and XXXVII of the Regulations relating to the distribution of pass marks in Science subjects for the M.A. and M.Sc. Examinations and the changes consequent thereon:—

The second paragraph under the head "Anthropology" in p. 264 (M.A. Examination) and pp. 361-62 (M.Sc. Examination) of the Regulations (edition, 1935) be replaced by the following :—

"This course shall be as follows :

Theoretical—4 papers—100 marks each.

Paper I.

Comparative Anatomy of the Primates. Human Palæontology. Evolution.

Paper II.

Racial Somatology. Anthropography. Racial Prehistory.

Paper III.

Primitive Society and Religion. Evolution of Culture including Prehistory.

Paper IV.

A. Human heredity and Racial Hygiene. Biometry.

Or

B. Intensive study of some primitive tribes. Advanced social Anthropology.

Or

C. Intensive study of some castes. Non-primitive Indian Society and Religion.

Practical—4 papers—100 marks each.

Paper V.

Human Osteology. Primate Osteology. Fossil men and primates.

Paper VI.

Somatometry. Osteometry. Statistical treatment of Anthropometric data.

Paper VII.

Prehistoric Archæology. Pleistocene alæontology.

Paper VIII.

Technology and Museum methods. Field work.

The last but one paragraph of the syllabus in Botany (p. 357 of the Regulations) be replaced by the following :—

Five theoretical papers shall be set under the above heads, one under each. Each paper shall be of four hours' duration and shall carry 80 marks. The practical examination shall be conducted by four papers, each carrying 100 marks.

That the last sentence of the last paragraph of the syllabus—Botany (p. 357 of the Regulations) be replaced by the following:—

The maximum marks allotted to the research work shall be 280 and 200 marks shall be allotted to two practical papers of 100 marks each, to be selected by the candidate.

The following changes be made in the Regulations:—

I. In section 6, Chapter XXXVIII of the Regulations (p. 347 of edition, 1935):—

1. In the paragraph beginning with "in Physics there shall be" etc., replace "Physics" by "Physics and Geology" and

2. In the paragraph beginning with "In Physiology there shall be" etc., replace "Physiology" by "Botany and Physiology."

II. In section 8 (*b*) under head "General", Chapter XXXVII of the Regulations (p. 362 of edition, 1935) :—

1. Put a comma in place of "and" between "Pure Mathematics" and "Mixed Mathematics" and insert "Physics, Botany, Physiology and Geology" after "Mixed Mathematics."

2. Add the following new sections below present section 8 (*b*) and number the clauses accordingly :—

In order to pass in Physics and Geology a candidate must obtain 165 marks in the aggregate of the five theoretical papers and 120 marks in the practical examination. If in any theoretical paper a candidate obtains less than 25 marks, these marks shall not be included in his aggregate. Candidates obtaining 360 marks shall be placed in the Second Class and those obtaining 480 marks in the First Class.

In order to pass in Botany and Physiology a candidate must obtain 132 marks in the aggregate of the five theoretical papers and 160 marks in the practical examination. If in any theoretical paper a candidate obtains less than 20 marks, these marks shall not be included in his aggregate. Candidates obtaining 360 marks shall be placed in the Second Class and those obtaining 480 marks in the First Class.

The following changes be made in the Regulations:—

(1) Section 1, paragraph 2, Chapters XXXIII and XXXVII (pp. 232 and 346) :—

The words "Or under one or more University Professors or Lecturers in that subject" be replaced by :—

"Or in the Post-graduate classes of the University."

(2) Section 1, paragraph 4, Chapter XXXIII (p. 232) :—

The words "under one or more University Professors or Lecturers" in line 3 be replaced by "in the Post-graduate classes of the University."

(3) Section 3, Chapter XXXIII and Chapter XXXVII (pp. 233 and 346) :—

The words "Or under one or more University Professors or Lecturers in that subject" be replaced by—

"Or in the Post-graduate classes of the University."

NOTE.—The above changes will take effect from the current session.

NOTIFICATION No. MISC. R. 19.

It is hereby notified for general information that the Government of Bengal (Ministry of Education) have sanctioned the following changes proposed in Chapter LII of the Regulations, relating to the introduction of Aeronautics as an alternative subject for the B. E. Degrees in both Civil and Mechanical Engineering:—

(1) That the following syllabus in Aeronautics be inserted at the end of section 7, page 466, of the Regulations (edition of 1935):—

Aeronautics.

(For candidates in Civil and Mechanical Engineering only.)

FIRST-YEAR COURSE.

(*a*) *Lectures.*

(1) Fluid Motion:—Viscosity, resistance, Reynold's number. (2) Dimensional analysis and dynamical similarity, from model to full-scale. (3) Aerofoil,—Angle of Incidence lift, drag and moment co-efficients, scale effects, aspect ratio, induced and profile drag, introduction to Lanchester Prandtl theory, lift distribution on aerofoil; monoplane and the biplane; lift and weight of a machine. (4) Structural parts—main plane and dihedral angle, body and fuselage, struts and wires, under-carriage. (5) Control—rudder, elevator and wing flaps. (6) Stabilisers—roll, pitch and yaw, tail planes and fins. (7) Approximate Performance Estimation—gliding angle, climb, top speed, efficient speed and landing speed. (8) Propeller—Froude theory and introduction to aerofoil theory, efficiency. (9) Engines—Aero engines, hydrodynamic and thermodynamic aspects of carburettors.

(*b*) *Laboratory.*

The Practical work will relate to—

Calibration of float-gauge, Static Plate, Venturi tube, with standard Chattock gauge. Velocity distribution in wind channel and water-oil channel. Pressure measurements on two-dimensional symmetrical bodies. Determination of lift and drag co-efficients.

(*c*) *Drawing Office.*

Design of simple structural and machine points and connections.
Design of struts, beams and shafts. Load estimation.
Stresses in 2- and 3-Dimensional frames.

SECOND-YEAR COURSE.

(*a*) *Lectures.*

(1) Mathematical theory of two-dimensional fluid motion, conformal representation, vortex motion, aerofoil theory, monoplane and biplane, three-dimensional effects, effect of viscosity, boundary layer theory, Karman vortex.

(2) Air screw theory.

(3) More accurate performance estimation.

(4) Stability in flight, auto-rotation, slotted wings, Bryan on stability.

(5) Vibration and gyroscopic effects of propeller.

(6) Airships, balloons.

(7) Gliders, autogyros, seaplanes, etc.

(8) Materials used in aircraft construction.

(9) Trend of modern aerodynamic research.

(*b*) *Laboratory.*

Study of flow movements. Experiments on rotating discs, cylinders, spheres, etc., aerofoil sections, models of airships, models of aeroplanes.

(*c*) *Drawing Office.*

Design of spars, interplane struts, main planes, etc. Stresses in fuselage. Secondary stresses.

(The course in Aeronautics is open only to students who have shown distinct proficiency in Mathematics in the 2nd year class.)

(2) That the subjects and distribution of the marks under Group I (Professional Section) of the B. E. Examination in Civil Engineering (Regulations, 1935, page 467) be replaced by the following:—

Group II.

Roads and Railways	400
Applied Mechanics	400
Hydraulics	400
and either	
Irrigation and Sanitary Engineering	400
or	
Aeronautics (Paper and Sessional work)	400
	1,600

(3) That the subjects and distribution of marks under Group III (Professional Section) of the B. E. Examination in Mechanical Engineering (Regulations, 1935, page 469) be replaced by the following:—

Group III.

Workshop (Sessional work)	300
and either	
Works Management and Accounts	200
or	
Aeronautics (Paper and Sessional)	200
	500

Note.—The above changes will be given effect to from the examination in 1939.

Departmental Examination, 1936.

Calcutta, the 4th September 1936.

(For First Grade Vernacular Training Schools in Western Bengal.)

The first and second Departmental Examinations of First Grade Training Schools in the Presidency and Burdwan Divisions will be held on the following days:—

Monday,	4th January 1937	2 papers.
Tuesday,	5th "	"	2 "
Wednesday,	6th "	"	2 "
Thursday,	7th "	"	2 "
Friday,	8th "	"	1 paper.
Saturday,	9th "	"	2 papers

2. The examinations will be held at the First Grade Training Schools at Calcutta and Hooghly.

3. The following classes of candidates will be eligible for the first Departmental Examination:—

(*i*) Students of the second year class of First Grade Training Schools.

(*ii*) *Bona fide* teachers who failed to satisfy the examiners at a previous first Departmental Examination.

(*iii*) *Bona fide* teachers holding second grade Vernacular Mastership certificates.

(*iv*) *Bona fide* teachers who, having passed either (*a*) the Primary *in situ* examination, or (*b*) a public examination of the Middle Vernacular standard, or (*c*) some higher examination, have also passed the final examination of a *Guru*-training School conducted on a Middle Vernacular basis, and have thereafter served as teachers for at least one year.

(*v*) *Bona fide* teachers who have not passed any of the examinations referred to above as (*a*), (*b*) and (*c*), but have passed the final examinations of a *Guru*-training School conducted on a Middle Vernacular basis, after going through the prescribed term of training as regular students of such schools, and have thereafter worked as teachers for at least three years.

4. The following classes of candidates will be eligible for the second Departmental Examination:—

(*i*) Students of the third year class of First Grade Training Schools.

(*ii*) *Bona fide* teachers who have passed the first Departmental Examination and have worked as teachers for one year since passing it.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

FINAL FORECAST OF THE JUTE CROP, 1936.

Consolidated statement for Bengal, Bihar, Orissa, and Assam.

Area.—The revised estimated area for the four provinces is 2,545,600 acres, an increase of 364,700 acres as compared with the revised final Forecast for 1935. The total increase as compared with the acreage in the Preliminary Forecast for 1936 is due to revision in the estimates for the three provinces.

Yield.—It is estimated that the crop will yield 8,735,800 bales of jute, exceeding last year's total (revised) by 1,496,200 bales.

The consolidated returns are as follows:—

Province.	Area in acres.			Yield in bales.		
	1935.	1936.	Difference.	1935.	1936.	Difference.
Bengal (including Cooch Behar and Tripura States).	1,917,500*	2,180,800	+263,300	6,538,000*	7,774,500	+1,236,500

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute in Bengal, to which this forecast relates, represents some 85·5 per cent. of the total area under jute in British India.**]

Season.—As indicated in the Preliminary Forecast, sowings were generally carried out under favourable circumstances. Subsequent conditions, on the whole, favoured growth and development in East Bengal. In parts of Mymensingh, Dacca, Tippera and Noakhali, a sudden rise of the river level induced cultivators to cut immature jute, but the rivers subsequently fell to the normal level. In North Bengal, the crop flourished well except in Darjeeling and Jalpaiguri, where excessive rain interfered with operations and reduced the yield. Recent floods in Pabna, Rajshahi and Malda did some damage in low lying tracts. In West Bengal, continuous rain affected the crop and growth was not uniform. Floods in Murshidabad and Nadia districts have damaged the crop in places. Steeping water has been sufficient and the quality of the fibre is better than it has been for several years in consequence.

Condition of the Crop.—With the exceptions noted above, the crop is good.

Area of the Crop.—The area under jute is estimated to be 2,180,800 acres as against 1,917,500 acres (revised) in 1935.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	3·7
Rajshahi Division	3·5
Presidency and Burdwan Divisions	3·2

The total outturn of the crop is estimated at 7,774,500 bales as against 6,538,000 bales (revised) last year.

Stocks.—It is reported that stocks outside Calcutta have been considerably reduced, the estimated amount being 3½ lakhs.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

Final Forecast of the Jute Crop of Bihar, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute, to which the Bihar forecast relates, represents about 6·7 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the six jute-growing districts of the province show an area under jute of 211,000 acres. Last year's estimate of the area under the crop was 128,400 acres.

Weather conditions.—In March light rain fell in all the jute districts. The fall was below the normal. In April light rain fell in all the jute districts. The fall was below the normal everywhere. In May rain fell in all the jute districts. The fall was above the normal everywhere. In June rain fell in all the jute districts. The fall was below the normal everywhere except Champaran and Muzaffarpur. In July rain fell in all the jute districts. The fall was above the normal everywhere except Bhagalpur and Purnea where it was slightly below the normal. In August rain fell in all the jute districts. The weather conditions are reported to have been favourable in the most important jute district of Purnea and also in other districts.

Outturn.—In the important jute district of Purnea the outturn of the crop has been estimated at 70 per cent. of the normal. Champaran reports 95 per cent., Muzaffarpur, Darbhanga, Bhagalpur and the Santal Parganas report 81, 33, 68 and 65 per cent., respectively.

I estimate that the outturn this year will be 70 per cent. of the normal. Recent enquiries about the normal outturn per acre show that the normal outturn per acre is 3⅓ bales, and on this basis the gross outturn on 211,000 acres estimated to be under jute in this province comes to 495,000 bales against 319,300 bales (revised) last year. Adding 25,000 bales, the estimated imports from Nepal, the forecast figure for Bihar comes to 520,000 bales.

DEPARTMENT OF AGRICULTURE, ORISSA.

Final Forecast of the Jute Crop of Orissa, 1936.

[NOTE.—**On an average of the five years ending 1934-35, the area under jute, to which the Orissa forecast relates, represents about 0·8 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the two jute-growing districts of the province show an area under jute of 13,500 acres. Last year's estimate of the area under the crop was 17,200 acres.

Weather conditions.—In March light rain fell in Cuttack and Balasore. The fall was below normal. In April also light rain fell in both the districts. In May and June heavy rain fell in Cuttack and Balasore. In July, rainfall was below normal in Cuttack and above normal in Balasore. The weather conditions are reported to have been not favourable. The present condition of the crop is fair in Balasore district.

Outturn.—The outturn of the crop has been estimated at 65 and 50 per cent. of the normal in Cuttack and Balasore districts, respectively.

According to the estimates of the District Officers, the outturn of the crop this year will not be less than 64 per cent. of the normal. On the basis of $3\frac{1}{3}$ bales, as the normal outturn per acre, the gross outturn on 13,500 acres estimated to be under jute in this province comes to 28,800 bales against 44,700 bales of last year.

*Decrease in area and outturn is due to the fact that since the sowing of the crop there has been continuous and heavy rainfall which affected the crop. Consequently some jute lands were converted into paddy lands.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1936.

[NOTE.—**On the average of the five years ending 1934-35, the area under jute in Assam represents some 5·9 per cent. of the total area under jute in British India.**]

Season.—After the issue of the Preliminary Forecast the condition of weather continued to be generally favourable for the crop. There were occasional heavy rains and local floods in some districts which affected the crop, specially in the low lying areas. On the whole, the condition of the crop is satisfactory and a better outturn than last year is expected.

Area.—The area has been estimated by the Deputy Commissioners to be 140,300 as compared with last year's actual area of 117,800 acres, and this year's preliminary forecast of 128,000 acres. The areas reported in the Preliminary Forecast have been revised in six districts.

Outturn.—The outturn per acre has been estimated to be 84 per cent. of the normal against 76 per cent. (revised) of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the province this year amounts to 412,500 bales against 312,600 bales (revised) of last year, or an increase of about 32 per cent.

Cachar (Plains)	200	200	200	78	84	500	600	Middle of August. Early.	The weather from June to August was generally favourable for the crop although flood caused a little damage in low lying areas, this accounts for the low outturn.
Sylhet ..	15,000	10,700	13,300	60	85	22,500	39,600	Middle of July. Early.	Increase in area is due to favourable weather at sowing time. Heavy rain in April and subsequent flood in June caused some damage to the crop and hence the low estimated outturn.
Goalpara ..	60,000	20,400	44,000	70	85	72,000	130,900	Last week of June. Early.	The area was underestimated in the preliminary forecast. The weather was generally favourable for the crop but some damage was done by flood in low lying areas.
Kamrup ..	28,000	21,200	25,300	70	75	59,300	66,100	First week of August. Normal.	The increase in area is due to favourable weather at sowing time. The weather from June to August was generally seasonable, in spite of the fact that there was a flood in June, which affected the crop to some extent. This is the cause of low estimated outturn.
Darrang ..	12,600	8,700	8,500	75	85	22,800	25,300	Last week of July. Normal.	The weather condition was rather dry in June but improved later on. The growth of the crop was hindered to some extent by heavy rain in the later part of the season, which caused the outturn to fall below the normal.
Nowgong ..	50,000	40,200	44,300	90	90	126,600	139,500	Middle of July. Normal.	The increase in area is due to rise in the price of jute last year. The weather was favourable for the crop and a good crop is anticipated.
Sibsagar ..	400	400	400	80	90	1,100	1,300	1st week of August. Normal.	The weather condition was rather normal throughout the year for the crop and a better outturn than last year is expected.
Lakhimpur ..	1,000	300	400	85	90	900	1,300	First week of August. Early.	The weather from June to August was generally favourable for the crop and a good outturn is anticipated.
Garo Hills (Plains).	5,000	3,700	3,900	53	56	6,900	7,000	Middle of July. Normal.	The weather was not so favourable for the crop, and hence the low outturn.

Chief Secy. to the Govt. of Bengal (offg.).

NOTIFICATIONS.

No. 10401A.—2nd September 1936.—It is notified for general information that two vacancies in the Bengal Police Service will be filled from the examination to be held in February 1937 for recruitment of officers to the Bengal Civil Service (Executive), the Bengal Junior Civil Service, etc., the instructions regarding which were published in Government notification No. 9474A., dated the 21st August 1936.

No. 10349A.—2nd September 1936.—In exercise of the powers conferred by rules 44 and 54 of the Civil Services (Classification, Control and Appeal) Rules, the following rules are made by the Local Government:—

PART I.

General.

1. These rules shall be called the Bengal Subordinate Services (Discipline and Appeal) Rules, 1936.

2. They shall apply to all Subordinate Services and posts under the Government of Bengal other than services and posts manned by—

(1) persons employed occasionally or subject to discharge at less than one month's notice,

(2) persons for whose appointment and conditions of service special provision is made by or under any law for the time being in force, or,

(3) persons who have been excluded from the operation of the Civil Services (Classification, Control and Appeal) Rules by declaration of the Local Government under rule 4 of those Rules.

3. For the purposes of these rules "Government" means the Local Government as defined in section 134(*4*) of the Government of India Act, 1919.

4. All first appointments to the services or posts included in the Schedule to these rules shall be made by the authority mentioned in column 2 of that Schedule.

5. All first appointments to the Subordinate Services not included in the Schedule to these rules shall be made by the head of the office in administrative charge of the service or post.

NOTE.—If any doubt arises as to who is the head of the office for the purposes of this rule, the matter shall be referred to the Local Government, whose decision shall be final.

6. Nothing in these rules or in any rule made thereunder shall operate to deprive any person of any right or privilege to which he is entitled—

(*a*) by or under any law, or

(*b*) by the terms of any contract or agreement subsisting between such person and Government on the date these rules came into force.

PART II.

Discipline.

7. The following penalties may, for good and sufficient reason and as hereinafter provided, be imposed upon members of Subordinate Services, namely:—

(*i*) Censure.

(*ii*) Withholding of increments or promotion, including stoppage at an efficiency bar.

(*iii*) Reduction to a lower post or time-scale, or to a lower stage in a time-scale.

(*iv*) Recovery from pay of the whole or part of any pecuniary loss caused to Government by negligence or breach of orders.

(*v*) Suspension.

(*vi*) Removal from the civil service of the Crown, which does not disqualify from future employment.

(*vii*) Dismissal from the civil service of the Crown, which ordinarily disqualifies from future employment.

Explanation.—The discharge—

(*a*) of a person appointed on probation, during the period of probation,

(*b*) of a person appointed otherwise than under contract to hold a temporary appointment, on the expiration of the period of the appointment,

(*c*) of a person engaged under contract, in accordance with the terms of his contract,

does not amount to removal or dismissal within the meaning of this rule.

8. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authorities specified in column 3 of the Schedule to these rules may impose the penalties specified in column 4 of that Schedule upon members of the services included in that Schedule.

9. Subject to the condition that no officer may be removed or dismissed by an authority subordinate to that by which he was appointed, the authority having power to make first appointments to the service or post in question may impose any penalty specified in rule 7 upon members of Subordinate Services not included in the Schedule to these rules.

10. (*i*) Without prejudice to the provisions of rule 55 of the Civil Services (Classification, Control and Appeal) Rules, no order imposing a penalty specified in rule 7, other than an order of censure or suspension pending proceedings or an order based on facts which have led to his conviction in a criminal court, shall be passed against a member of a subordinate service unless the officer concerned has been given an adequate opportunity of making any representation that he may desire to make and such representation, if any, has been taken into consideration before the order is passed:

Provided that the requirements of this sub-rule may, for sufficient reasons to be recorded in writing, be waived where there is difficulty in observing them and they can be waived without injustice to the officer concerned.

(*ii*) The authority imposing any penalty under these rules shall maintain or cause to be maintained a record showing—

(*a*) the allegations upon which he proceeded against the officer punished,

(*b*) the officer's representation, if any, and the evidence taken, if any,

(*c*) a recital of the officer's previous character as recorded in his service book or office records,

(*d*) the finding and the grounds thereof.

(*iii*) In the case of an officer who has been lent to the punishing authority, the latter shall consult the lending authority before exercising any power of punishment other than the power to suspend.

(*iv*) When the orders for punishments are passed by an authority other than the person conducting the enquiry into the conduct of the Government officer concerned, it will be sufficient if the authority passing orders of punishment definitely records his agreement or disagreement with the person by whom the enquiry was conducted.

PART III.

Appeals.

11. Every member of a Subordinate Service shall be entitled to appeal, as hereinafter provided, from an order—other than an order of the Local Government.—

(*a*) imposing upon him any of the penalties specified in rule 7; or

(*b*) discharging him in accordance with the terms of his contract

if he has been engaged on a contract for a fixed or for an indefinite period and has rendered under either form of contract continuous service for a period exceeding five years at the time when his services are terminated.

12. Members of services included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 8 to the authorities specified in column 5 of that Schedule.

NOTE.—If, owing to the conditions mentioned in rule 8, the authority ordering the removal or dismissal of an officer is higher than the authority specified in column 3 of the Schedule, then the officer shall be entitled to appeal to the authority immediately superior to the authority imposing the penalty. If any doubt arises as to who that authority is, the matter shall be referred to the Local Government whose decision shall be final.

13. Members of Subordinate Services not included in the Schedule to these rules may appeal from orders passed in exercise of powers conferred by rule 9 to the authority immediately superior to the authority imposing the penalty.

NOTE.—If any doubt arises as to who is the immediately superior authority for the purposes of this rule, the matter shall be referred to the Local Government whose decision shall be final.

14. A member of a Subordinate Service may appeal from an order of discharge of the kind referred to in rule 11(*b*) to the authority to whom he would have been entitled to appeal under these rules had the order been an order of dismissal.

15. The appellate authority shall consider—

(*a*) whether the facts on which the order was based have been established;

(*b*) whether the facts established afford sufficient ground for taking action; and

(*c*) whether the penalty is excessive, adequate or inadequate;

and after such consideration shall pass such order as it thinks proper.

16. Every person preferring an appeal shall do so separately and in his own name.

17. Every appeal preferred under these rules shall contain all material statements and arguments relied on by the appellant, shall contain no disrespectful or improper language, and shall be complete in itself. Every such appeal shall be addressed to the authority to whom the appeal is preferred, through the authority from whose order the appeal is preferred, and shall be submitted through the usual official channel.

18. An appeal may be withheld by an authority not lower than the authority from whose order it is preferred, if

(1) it is an appeal in a case in which under these rules no appeal lies, or

(2) it does not comply with the provisions of rule 17, or

(3) it is not preferred within six months after the date on which the appellant was informed of the order appealed against, and no reasonable cause is shown for the delay, or

(4) it is a repetition of a previous appeal and is made to the same appellate authority by which such appeal has been decided, and no new facts or circumstances are adduced which afford grounds for a reconsideration of the case:

Provided that in every case in which an appeal is withheld the appellant shall be informed of the fact and the reasons for it:

Provided also that an appeal withheld on account only of failure to comply with the provisions of rule 17 may be resubmitted at any time within one month of the date on which the appellant has been informed of the withholding of the appeal, and, if resubmitted in a form which complies with those provisions, shall not be withheld.

19. No appeal shall lie against the withholding of an appeal by a competent authority.

20. A list of appeals withheld under rule 18, with the reasons for withholding them, shall be forwarded quarterly by the withholding authority to the appellate authority.

21. An appellate authority may call for the records of any appeal withheld by an authority subordinate to it which under these rules may be made to it and may pass such orders thereon as it considers fit

22. Nothing in these rules shall preclude the Local Government from revising, whether on its own motion or otherwise, any order passed by an authority subordinate to it in exercise of powers conferred on such authority by these rules.

23. Nothing in these rules shall operate to deprive any member of a subordinate service of any right of appeal which he would have had if these rules had not been made, in respect of any order made before these rules came into force. An appeal in respect of such an order pending on, or preferred after, the second September, 1936 shall be deemed to be an appeal under these rules, and rule 15 shall apply as if the appeal were from an order appealable under these rules.

24. Except under very special circumstances no pleader or agent should be allowed to appear either on behalf of Government or the accused either before the officer who conducts the enquiry or any officer to whom appeal may be made.

NOTIFICATIONS.

No. 5266 A. R. D.—8th September 1936.—The following communique relating to the publication of the draft electoral rolls for the Water Transport Trade Union constituency and the Railway Trade Union constituency of the Bengal Legislative Assembly, and the method of submitting claims and objections thereto, is published for general information and guidance.

R. N. GILCHRIST,

Reforms Commr. and Joint Secy. (ex-officio) to the Govt. of Bengal.

COMMUNIQUE.

The preparation of the electoral rolls for the Water Transport Trade Union constituency and the Railway Trade Union constituency of the Bengal Legislative Assembly has now been completed, and the rolls will be published in draft on the 15th September 1936. Although the rolls have been prepared from the materials furnished by the constituent trade unions and every effort has been made to make the rolls as complete and as accurate as possible, persons who consider themselves qualified to be included in the electoral roll of the Railway Trade Union constituency and the constituent trade unions forming the Water Transport Trade Union constituency are advised to inspect the rolls when published, to see if their names or the names of their nominees, as the case may be, are included. If such names are not entered, or if there are any inaccuracies in the entries, the persons or the trade unions in question are advised to prefer claims for inclusion of names in the rolls, or submit objections to entries which may be inaccurate or wrong.

2. For purposes of representation in the Bengal Legislative Assembly the following unions have been certified to be constituent trade unions:—

I. Registered trade unions of railway workers.

(1) Kanchrapara Railway Workmen's Union.

(2) E. B. Railway Indian Employees' Association.

(3) Bengal Nagpur Railway Indian Labour Union.

(4) E. I. Railway Employees' Association.

(5) Railway Press Workers' Union.

II. Registered trade unions of water transport workers.

(1) Indian Seamen's Union.

(2) Bengal Mariners' Union, with which the I. M. and W. U. is amalgamated.

Members and officials of the constituent trade unions of railway workers named above and nominees of the constituent trade unions of water transport workers named above who possess the respective qualifications prescribed in paragraphs 19 and 20 of Part IV of the Government of India (Provincial Legislative Assemblies) Order, 1936, are entitled to registration of names in the rolls.

3. The rolls will be published in draft at the office of the Registrar of Trade Unions, Bengal, the Registering Authority and the Returning Officer of the constituencies, and also at the registered office of each constituent trade union.

4. Claims and objections must be preferred in prescribed forms and in the manner provided in Part III of the Bengal Legislative Assembly Electoral (Preparation, Revision and Publication of Electoral Rolls) Rules, 1936. All such claims and objections must be addressed and presented personally or by agent authorised in writing or sent by post to the Revising Authorities, whose names are given in notices with which the rolls are published. In the case of the Water Transport Trade Union constituency a claim may be preferred only by the Secretary or by an agent authorised in writing by such Secretary, of the constituent trade union concerned and by no other person.

5. The last date for submission of claims and objections is the 29th September 1936. Applications received after this date will not be entertained.

6. The forms on which claims and objections may be made can be obtained free of charge from the office of the Registrar of Trade Unions, Bengal, the office of the constituent trade unions, and also from the Reforms Office, Writers' Buildings, Calcutta. If any claims or objections are not submitted in prescribed forms they are liable to be rejected. There is, however, no objection to applications being made on typed forms if printed forms are not available.

7. All necessary particulars regarding the qualifications of electors, the method of publication and revision of rolls and the prescribed forms for claims and objections have been embodied in the Bengal Electoral Orders and Rules, copies of which can be purchased at four annas a copy from the Bengal Government Press (Publication Branch), 38, Gopalnagar Road, Alipore, or the Sales Office, Writers' Buildings, Calcutta.

No. 5328 A. R. D.—9th September 1936.—In exercise of the power conferred by paragraph 4 of Part I of the Government of India (Provincial Legislative Assemblies) Order, 1936, read with paragraph 26 of Part I of that Order, and of all powers enabling him in that behalf, the Governor of Bengal in Council is pleased to direct that for the purpose of constituting the Legislative Assembly of the Province the electoral rolls for the Calcutta and the Dacca University constituencies shall be made up by reference to the 1st of October 1936.

R. N. GILCHRIST,

Reforms Commr. and Joint Secy. (ex-officio) to the Govt. of Bengal.

No. 3598P.H.—12th September 1936.—The following draft of rules which, in exercise of the powers conferred by clauses (*n*) and (*nl*) of section 138 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) propose to make are published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th November 1936, and any objection or suggestion received by the undersigned through the District Magistrates before that date, will be duly considered:—

Draft rules for the control of malaria and other mosquito-borne diseases.

1. In an area in which the Local Government has ordered that anti-mosquito operations shall be taken up by the district board it shall be lawful for the district board to stock larvicidal fish in any tank, well, reservoir or other water collection which, in the opinion of the district board appears to be injurious to health, whenever such a step is decided upon by the district board as an anti-mosquito measure.

2. Whenever the admission of silt-laden flood water into tanks, ponds and other water collections is deemed necessary as an anti-mosquito measure in an area in which the district board has been ordered by the Local Government to take up anti-mosquito operation, the district board shall provide for waterways for the introduction of flood water into the interior of such area, if this has not already been arranged for by any other authority, and the owners of tanks, ponds or water collections shall admit the flood water into the said tanks, ponds and water collections.

3. (*1*) Whenever anti-mosquito operations have been ordered by the Local Government to be taken up by a district board in an area, it shall be lawful for the district board to treat all water collections periodically with larvicides.

When such anti-mosquito operation has been taken up by the district board, the owners of tanks, wells and other water collections shall neither offer any obstruction to their legitimate operations, nor claim any compensation.

(2) When any of the immature stages of the mosquito are found on any premises in any collection of water in any cess pit, well, pool, channel, barrel, tub, bucket, tank or any other vessel or in any bottle, tin, box, shell, earthenware vessel or any other article it shall be lawful for the District Health Officer or any assistant authorised by the District Health Officer to take immediate steps—

(*a*) to destroy any such immature stage of the mosquito by the application of oil or larvicide to prevent the recurrence of the insanitary condition and to render any pools or collections of water unfit to become breeding places for mosquitoes;

(*b*) to collect and remove empty tins, cans, bottles or other receptacles in which mosquitoes may breed;

(*c*) to cut down and remove any grass, bamboo stumps, fern or under-growth in which mosquitoes are likely to breed or be harboured;

(*d*) to fill with concrete or otherwise treat holes or hollows in trees which hold or are likely to hold water;

(*e*) to carry out any other anti-mosquito measure.

4. The district board may, by an order in writing, require regular use of larvicides in private drains and open cesspools by owners and occupiers of any land as an anti-mosquito measure at intervals of not more than ten days, provided that the necessary materials for the purpose shall be supplied by the district board. The district board may by its own staff also cause such drains and cesspools to be treated with larvicides.

5. The district board may, by an order in writing, require the owner or occupier of any building to provide mosquito-proof coverings for the cesspools within the building and to construct yard gullies for connection with drains within such time as may be specified in the order and shall require such coverings and gullies to be maintained in proper state of repair.

6. Whenever the district board is of opinion that sub-soil drainage may improve the sanitary condition of any land, the district board may, by an order in writing, require the owner of such land to provide sub-soil drains, provided that there is a suitable outfall for such drains.

7. (*1*) No person shall, within an area in which anti-mosquito operation has been ordered to be taken up by the district board, without special permission of the district board, make an excavation for the purpose of taking earth therefrom or for making of bricks or for the purpose of storing rubbish or offensive matter therein or dig any cesspool, tank, pond, well or pit.

(*2*) If any excavation, tank, pond, well or pit is made or dug in contravention of sub-rule (*1*) the district board may, by written notice, require the owner or occupier of the land on which the same is made or dug to fill up the same with earth or other material approved by the district board within such time as may be specified in the notice.

8. The owner or occupier of any land or building shall not keep therein any bottle, unbroken or broken, whether fixed on wall or not, tin, box, earthenware vessel, shell or any other article which may hold water, in such manner that it is likely to collect or retain water which may become the breeding place of mosquitoes.

9. When the district board or the Government has constructed any work with the object of preventing mosquito-breeding, the owner or occupier of the land or building on which such work is constructed shall not use such land or building in such manner as is likely to cause deterioration or to lessen the efficiency of such work.

10. The district board may, by an order in writing, require the owner or occupier of a land or building containing an unscreened container such as a tub, bucket, barrel, cistern or other vessel intended for storage of water or any other liquid to completely empty the same every seven days unless such container is fitted with a suitable cover and is properly protected to prevent access to the mosquitoes or is screened to the satisfaction of the District Health Officer or any other officer authorised by the District Health Officer in this behalf.

11. Whenever any land, being private property or within any private enclosure, appears to the district board, by reason of thick vegetation, under-growth or jungle or inequalities of surface or by

want of drainage to be in a state injurious to health or offensive to the neighbourhood, the district board may, by an order in writing, require the owners or occupiers or the owner and occupier, of such land, within fifteen days of the service of the order to clear and remove such vegetation, under-growth or jungle or dress such surface or drain or otherwise cleanse, treat or improve such land, and when the land belongs to the district board the work which the owners or occupiers may be required to do under this rule shall be carried out by the district board.

12. If for the purpose of any of these rules it shall be necessary to acquire any land not being the property of the person who is required to drain or irrigate his land or to pay compensation to any other person, the district board shall provide such land or pay such compensation.

13. The Chairman, Vice-Chairman, District Engineer, District Health Officer or Sanitary Inspector or any other person authorised by the district board in this behalf, may enter into or on any land, building or shed, hut, outhouse, stable, privy, urinal or any other such structure whether constructed of masonry, bricks, wood, mud, metal or any other material, with or without assistants or workmen, in order to make any inquiry, inspection, examination, survey, or for the purpose of executing any other work which may be necessary for the control and suppression of mosquito-breeding and of mosquito-borne diseases:

Provided that—

(*a*) no such entry shall be made between sunset and sunrise;

(*b*) no entry shall be made without the consent of the occupier thereof unless the said occupier has received at least twelve hours' notice of the intention to make such entry;

(*c*) reasonable notice shall be given in every case even when an entry may be made without notice, to enable the inmates of any apartment appropriated to women to remove to some part where the privacy may be preserved; and

(*d*) due regard shall be paid, so far as may be compatible with the exigencies of the purpose of entry, to the social and religious usages of the occupants.

Calcutta.—No. 3605P.H.—12th September 1936.—Major A. C. Chatterji, M.B., D.P.H., I.M.S., Director of Public Health, Bengal, is allowed leave on average pay for four months and fifteen days, under the proviso to Fundamental Rule 81(*b*)(*ii*), subject to the condition that the leave is spent elsewhere than in India, Ceylon or Nepal, with effect from the 17th September 1936, or from any subsequent date on which he may avail himself of the leave.

Calcutta.—No. 3606P.H.—12th September 1936.—Dr. S. N. Sur, M.D., D.P.H., D.T.M., Assistant Director of Public Health for Malaria Research, is appointed to act as Director of Public Health, Bengal, during the absence, on leave, of Major A. C. Chatterji, in addition to his own duties.

COMMERCE DEPARTMENT.

NOTIFICATIONS.

No. 52T. Com.—10th September 1936.—Whereas the Governor in Council is satisfied that the conditions of work in jute pressing factories are such that there is no appreciable risk of contravention of the provisions of Chapter IV of the Factories Act, 1934 (XXV of 1934), in the case of such factories :

Now, therefore, in exercise of the power conferred by the second proviso to sub-section (*1*) of section 41 of the said Act and in supersession of notification No. 8074 Com. of 5th August 1935, the Governor in Council is pleased to exempt all jute pressing factories from the provisions of the said section in respect of all adult workers other than the mechanical and press house staff; provided that—

(*a*) (*i*) in seasonal factories no such worker other than a worker engaged solely in the importing of raw jute shall be employed on a Sunday;

(*ii*) in factories which have been declared not to be seasonal, no such worker shall be employed on a Sunday;

(*b*) the periods for work shall be, in the case of factories in the district of Howrah, within the limits of 7 a.m. and 7 p.m. and in the case of other factories between the limits of 6 a.m. and 6 p.m., and

(*c*) the manager or occupier of any such factory shall, before he avails himself of the exemption granted under this order, serve on the Inspector and shall display in the factory in accordance with the provisions of sub-section (*2*) of section 76 of the said Act, a notice of his intention so to avail himself, and shall keep the notice so displayed for such time as he avails himself of the exemption.

No. 94T. Com.—10th September 1936.—Whereas the Governor in Council is satisfied that owing to the nature of work carried on in jute pressing factories it is unreasonable to require that the periods of work of adult workers employed in such factories other than the mechanical and press house staff should be fixed beforehand :

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 44 of the Factories Act, 1934 (XXV of 1934), and in supersession of notification No. 8111 Com., dated 5th August 1935, the Governor in Council is pleased to order that the provisions of sections 39 and 40 of the said Act shall be so relaxed that the said provisions will not apply to such workers provided the following conditions are observed, namely :—

(*a*) (*i*) in seasonal factories no such worker other than a worker engaged solely in the importing of raw jute shall be employed on a Sunday;

(*ii*) in factories which have been declared not to be seasonal, no such worker shall be employed on a Sunday;

(*b*) the periods for work shall be, in the case of factories in the district of Howrah, within the limits of 7 a.m. and 7 p.m. and in the case of other factories between the limits of 6 a.m. and 6 p.m., and

(*c*) the manager or occupier of any such factory shall, before he avails himself of the relaxation granted under this order, serve on the Inspector and shall display in the factory in accordance with the provisions of sub-section (*2*) of section 76 of the said Act, a notice of his intention so to avail himself, and shall keep the notice so displayed for such time as he avails himself of the relaxation.

KENNETH MCLEAN,
Director of Agriculture, Bengal.

Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 8.

The Board considered an application, dated the 18th May 1936, from one Maulvi S. Mahmudar Rahman of Noakhali for an aid of Rs. 500 under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for the purpose of starting a bakery concern at Chittagong on scientific and hygienic principles.

Ordered unanimously that the application be rejected and the resolution published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 9.

The Board considered an application, dated the 29th July 1936, from Maulvi M. A. Huson of Calcutta for a loan of Rs. 1,000 under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for the purposes of (*1*) purchasing special raw material for cardboard box manufacture, (*2*) paying off the balance of the outstanding principal against the current loan under the Act and (*3*) utilising the balance as working capital for the development of his Rajabazar Cardboard Box Works.

A report of inspection on the progress of the business and the nature of the security offered was read. It was unanimously decided as follows:—

Order—Ordered that in view of Government notification No. 4313 Ind., dated the 7th July 1936, the application need not be advertised as required under rule 3 of rules under section 16 of the Act. Ordered also that in exercise of the powers conferred in Government notification No. 4312 Ind., dated the 7th July 1936, the loan of Rs. 1,000 asked for be paid subject to the following conditions:—

(*1*) that the outstanding principal with interest on the existing loan to the credit of the applicant be paid off before making the above loan of Rs. 1,000;

(*2*) that a mortgage bond be executed by the applicant in the form drawn up by the Solicitor to the Government of Bengal;

(*3*) that interest be charged at the rate of 6¼ per cent. per annum payable with each instalment on the balance of the unpaid principal;

(*4*) that the entire loan be repaid in five annual instalments of Rs. 200 each *plus* interest, each instalment being payable in September of each year beginning with September 1937; and

(*5*) that penal interest be charged at the rate of 8 per cent. per annum on any overdue instalment of the payment of the loan.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

CALCUTTA, THE 26TH AUGUST 1936.

RESOLUTION—No. 13.

The Board considered their resolution No. 16 of the meeting held on the 24th June 1936, unanimously recommending the grant of a loan of Rs. 400 to Md. Hazrat Ali of Shulahashia, Mymensingh, for the purpose of purchasing a sewing machine for his existing boot and shoe factory, prayed for in his application, dated the 6th April 1936, under section 19 (*1*) (*a*) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), which had since been advertised in accordance with rule (*3*) under section 16 of the Act and in response to which no objection has been received.

In exercise of the powers since conferred on the Board in Government notification No. 4312 Ind., dated the 7th July 1936, and the Board having been satisfied that the security offered against the loan is adequate as required under the Act, it was ordered as follows :—

That the loan of Rs. 400 asked for be paid subject to the following conditions :—

(*1*) that a mortgage bond be executed by the applicant in the form drawn up by the Solicitor to the Government of Bengal;

(*2*) that interest be charged at the rate of 6¼ per cent. per annum payable with each instalment on the balance of the unpaid principal;

(*3*) that the entire loan be repaid in five annual instalments of Rs. 80 each *plus* interest, each instalment being payable in September of each year beginning with September 1937; and

(*4*) that penal interest be charged at the rate of 8 per cent. per annum on any overdue instalment of repayment of the loan.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Board of Industries, Bengal,

A. T. WESTON,
Secy., Board of Industries, Bengal.

Orders by the Registrar of Co-operative Societies, Bengal.

NOTICE.

Senate House, the 31st August 1936.

The Senate will proceed in the month of August 1937 to the election of a Tagore Professor of Law for a term of one year, to commence on the 1st August 1938.

The salary of the Professorship is Rs. 9,000 per annum and the Professor will be expected to deliver a course of *not less than twelve lectures* on one of the following subjects:—

(*i*) Moslem Law as administered in British India.

(*ii*) The Law of Partnership with special reference to British India.

(*iii*) Principles and History of Insurance Law with special reference to India.

The salary of the Professor will be paid in twelve *equal monthly instalments*, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are required *to forward their applications to the Registrar on or before the 1st May 1937*, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward, with his application, *one hundred copies of a brief synopsis of his proposed lectures* and, if he so pleases, *the same number of copies of his introductory lecture*.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy will be forthwith referred by the Faculty of Law to a Committee of not more than three persons to be selected for their special competence in this behalf, who will examine the same, and, before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to the Press, as soon as practicable, after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

J. CHAKRAVORTY, *Registrar.*

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

Senate House, the 12th September 1936.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

TENDERS are invited for binding the records-of-rights of Midnapore Settlement. Samples may be seen in the office of the undersigned at 35, Gopalnagar Road, Alipore, on office days between 11 a.m. to 5 p.m., and tenders submitted in sealed covers so as to reach the Settlement Officer positively by 24th September 1936.

The Sri Chitra Exhibition 1936

Trivandrum, Travancore.

The above Exhibition will be held in Trivandrum in connection with the celebration of the next birthday of His Highness the Maharaja of Travancore which will fall on the 12th November 1936. Arrangements will be in the hands of a large and responsible Committee composed of leading officials and non-officials and will be conducted on up-to-date lines with Government co-operation. The Exhibition will afford an opportunity for Agriculturists, Industrialists, Manufacturers, etc., to exhibit and advertise their wares.

Exhibits from all over India, whether manufactured in this country or abroad, will be welcome. Accommodation for exhibits (except machinery) will be provided in stalls $10' \times 10'$ available singly or in multiple units. Stalls of special dimensions at special rates may be had on application. Machinery exhibits will be housed in machinery sheds.

There will be a general stall for exhibiting small articles and rare specimens for the convenience of those exhibitors who do not attend in person or send their representatives; for this a minimum rent will be charged, *plus* a 10 per cent. commission on sales.

Arrangements will be made with the Railway Companies for freight concessions on exhibits.

There will be eight sections, viz., (*a*) Raw materials, (*b*) Manufactured goods, (*c*) Rural industries, (*d*) Machinery and Implements, (*e*) Education, (*f*) Public Health and Sanitation, (*g*) History and Archaeology, and (*h*) Fine Arts. These sections will be sub-divided into appropriate groups.

A detailed prospectus containing the Rules, the Ground Plan, etc., will be published shortly.

Further information can be had from:—

SUPPLEMENT.

Official Papers.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1935-36.

Royal Botanic Garden.

1. **General.**—The art of gardening amongst the general public of Calcutta is coming into its own. No one who has a faculty of observation developed to any degree and who remembers gardening of 15 or 20 years ago can fail to be impressed by the immense improvement that has taken place in the appearance of Calcutta Gardens and in the variety of flowers now generally cultivated here. The interest has become general; it is no longer confined to a class; it has caught on.

The excuse made in an examination paper a quarter of a century ago by a Calcutta student will no longer gain the minimum pass marks. The fern was a plant that grew in the rich man's garden, he said, and how, therefore, could he be expected to outline its life history. Necessity is the mother of invention and ingenuity is always worthy its due, but the patent of 1914 has run out with the variety and profusion of all kinds of plant now grown in the poor man's garden.

To the Indian a love of flowers is natural. He has a long history of interest in gardening to his credit. The plants with which he lives have been taken by him to many of his religious rites and institutions. They are part of his history, and there are crops of them scattered throughout his mythology. But it is increase in his garden variety and profusion that is noticeable of later years, and if we try to seek reasons for this they may be found in the increased opportunity he has through the services of horticultural firms and societies and in the facilities that now offer for the rapid introduction of varieties that are gaining a place in gardens throughout the world.

From the scientific side of the horticultural effort he benefits by the breeding and crossing experiments going on from which a variety of forms hitherto unknown and unsuspected have come to supplement the stocks he formerly had at his disposal.

The average gardens of Calcutta some 20 years ago might have contained all or some of the following:—

Phlox, Verbena, Dianthus, Pansy, Carnations, Nasturtium, Cosmos, Salvia, Sweet Peas, Balsams, Zinnias, Gomphrena, Browallia, Gaillardia, Coreopsis, Hollyhocks, Cannas and Sunflowers. To-day these are all there, but besides the immense improvement in the kinds of them grown we should find now in plenty though formerly rare Dahlias, Double Nasturtiums, Delphiniums, Gladiolus, Stocks, Clarkia, Gypsophila, Eschscholtzia, Statice, Ageratum, Anchusa, Aster, and a host of others. Perhaps the most marked change is in the variety and profusion of Dahlias and Cannas now grown. The Royal Agri-horticultural Society is able to take credit for not a little of the improvement that has taken place in the Canna section.

To say that the variety has been trebled in the last two decades is a conservative estimate and to recognise the enormous improvement effected is a merited compliment to the widespread interest now taken in matters horticultural.

The Royal Botanic Garden has taken its full share in the advance made in the purely horticultural side of its activities. Every year sees a new effort made to test and establish plants not formerly tried, while the standard of production accomplished bears creditable comparison with the effort of lesser known institutions. The exhibits that the Curator has this year put up at horticultural shows have more than held their own in the opinion of the most competent judges. The exhibits were not specially prepared for shows and in quality were fairly representative of the general stocks in cultivation at the gardens.

Improvements effected in the garden during the year range over all sections of its activities; but the progress made towards inclusion of economic plants, especially those of interest to the fruit culturist, deserves special mention. Of recent years the mango has been receiving more than a usual share of attention. Modern methods of transport in cold storage or under other conditions that inhibit the growth of decay organisms have drawn attention to its possibilities in foreign markets. Exhibitions devoted exclusively to the mango, a new departure, are even being organised. The garden was unnecessarily poor in good stock of this tree and additions during the year of 140 mango grafts of good variety were planted out to make good the deficiency. It is unlikely that they will all do equally well but a wider range of material is now here from which in time selections may be made and stock distributed.

Other fruit bearing species will be added till a more just balance in the garden of plants of the purely scientific and economic kind is reached.

The rock garden to which reference was made in recent annual reports has been extended and the following plants added to it :—

Macleaya yedoensis, Taxus baccata, Erigeron canadensis, Thermopsis fabacea. Chrysanthemum coccineum, Fragaria indica, Lobelia syphilitica, Chrysanthemum parthenium, Rosa flexuosa, Robinia hispida, Lupinus polyphyllus, Cercis Siliquastrum, Sophora Sp., Mirabilis Frœbelii, Isatis tinctoria, Lotus corniculatus, Senecio clivorum, Cichorium Intybus, Talinum crasiifolium, Gerbera Jamesoni, Lupinus perennis.

The Curator reports that the year was not very favourable for planting out operations, but the increased importance given to the inclusion of species new to or rare in the garden has not been forgotten. His record of additions includes :—*Clematis integrifolia, Moringa oleifera, Cordia tremula, Dalbergia paniculata, Melia sempervirens, Bauhinia retusa, Pistacia chinensis, Dalbergia hupeana, Clerodendron trichotomum, Peltophorum africanum, Balanites aegyptiaca, Cryptostegia madagascariensis, Sideroxylon dulcificum, Ochna mossambicensis, Aristolochia, altissima, Callitris quadrivalvis, Acacia mollifera, Guazuma ulmifolia, Psidium pumilum, Bauhinia pulchella, Schinus dependens, Ficus colinifolia, Araucaria brasiliensis, Casuarina lepidophloia, Pavetta indica, Diospyros halesioides, Acacia spadicigera, Clerodendron tuberculatum, Acacia Richii, Ischira rosea, Garcinia tinctoria, Rheedia sp., Bauhinia scarlet, Tecoma argentea, Calophyllum antillerum.*

The short rainfall, itself, combined with the reduced normal period of fall affected not a few garden plants in the open, and numbers especially in the riverways entrance to the garden, the Oreodoxa Avenue, had to be removed. This Avenue, so well-known to garden visitors, is now losing its former beauty. Every year one or more members of its stately palm disappear. It is already beginning to look ragged and it must be years before the line of replacements effected some five years ago grows up to allow of a mass removal of the old trees. With the palmyra replacement is easier, for this palm grows so much more quickly that within ten years gaps are nearly filled and the symmetry of its avenues is regained.

In addition to the routine work of the garden the Orchid House has been repaired and a special effort made to make good the damage done to garden labels. This last work is going on apace, but replacement will henceforth have to be viewed as routine work, for time alone and the weather is not responsible for the deterioration in lables that takes place. One would think that a label bearing a Latin name with the name of the family to which a tree belongs and its geographical distribution could excite resentment from no quarter, but the manner in which labels get bent and broken belies the assumption. The damage must be the work of a few malcontents, for the great masses of garden visitors of all classes are orderly and appreciative of what is done for them.

No major work could be undertaken during the year, but a few coolie houses have been partially erected near the economic ground so that some garden labour may live nearby and be able to keep an eye on plant products that excite more than a legitimate interest.

A lotus bowl for experimental work on water plants in the open has been dug near the flower garden and new beds of roses planted up. The garden is now very much richer in the rose class than it formerly was but as with the orchids, rose stock has continually to be introduced. It deteriorates and not all kinds do equally well. Some only just survive. As has been pointed out before the climate of Calcutta is not well suited to this class of plant: Some of our stock has come from abroad but the garden can now depend for regular supplies on the finely stocked gardens of Upper India where the conditions suit it so much better than in Bengal.

As in recent years large numbers of potted plants have been staged out at vantage points throughout the garden.

Experiments on the pollination of Amherstia have been repeated with encouraging results. Some of the seed has gone to Kew where success with the germination of last year's small supply had not been obtained. This tree is in great demand by horticultural institutions throughout the world. Although there is no great difficulty in establishing rooted cuttings of it, the expenses of transporting these in wardian cases militate against its wider distribution. Fertile seed is rarely found, the production of racemes of pendulous flowers, quaint, orchid like and highly specialised seeming to absorb most of the plant's energy leaving little for the production of fertile seed. The absence too of the right pollen carriers, the flowers not seeming to be visited much by insects, may also be responsible for the scarcity of seed. The tree does well under shady conditions at Sibpur, but it is not native here. A suggestion might be made for pollination experiments to be carried out in Burma where it is native and locally not uncommon. Results might be better.

The introduction or reintroduction of cónifers to the garden has been continued. The Araucarias do best, then come some representatives of the genera Pinus and Thuja. These are being added to and others tried.

The limitation of funds made it impossible to do any excavation to the garden tanks and not until machinery replaces the expensive man handling methods ordinarily employed where excavation is in question are we likely to see the garden tanks in a healthy state. Estimates of expenditure for deepening the limited tank area in the Eden Garden will

show how remote is the probability of our seeing this desirable improvement carried out extensively at Sibpur. But in spite of this and other defects the garden looks well. For the benefit of visitors who like to find its secluded spots it is all mowed and rolled several times a year. Modern machinery has come to our aid in the maintenance of its vistas, glades and maidans in lawn like condition. In this respect as in respect of the amount cultivated it is a much richer, more attractive and interesting place than it formerly could be.

Its roads now mostly macadamised, compare favourably with those of its neighbourhood, and the river bank from a point east of the ghat to the west end of the garden is fully revetted. This work has gone over to another department. It has proceeded apace and has rendered the garden much more attractive from the river side. The visiting public shows no decline in numbers, Indians especially flocking to it during fetes and holidays, and it remains a regular rendezvous for the school children of Calcutta.

2. **Plant and seed exchange.**—For horticultural and roadside planting schemes some 8,055 plants were dispatched to institutions in India while 462 packets and 28 lbs. of seed went out. Some 594 plants and 975 packets of seeds were received.

3. **Herbarium and Library.**—The total number of specimens determined is about 3,500 the majority being represented by collections from the Eastern Himalaya. These gatherings of Sikkim plants include a set of valuable specimens brought from Bhutan by His Excellency Sir John Anderson, Governor of Bengal. These specimens have since been worked out by the Curator of the Herbarium, who reports that some of the species of His Excellency's collection appear to be new records. Three or four specimens which could not be matched here had to be sent to Kew and Mr. Biswas expects that at least a couple of them may turn out new to science. These East Himalayan plants also include Mrs. Townend's collections during her trip to Northern Sikkim. A collection of about 290 specimens from Captain Kingdom Ward proved to be a substantial addition to the plants of the Naga Hills, Assam. All these specimens have been identified and mounted. A complete set has gone to the British Museum together with the list of identifications as desired by Captain Kingdom Ward. The collections of Dr. N. L. Bor and Mr. Biswas from Sandakphu and Phalute form also a fair portion of this year's identification ; besides several others received from Messrs. Parkinson of Dehra Dun, Purkayastha of Shillong, Ram Chandra Rao of Karachi. A. C. Dutt of Gauhati College, F. M. Bailey of Nepal, Mother Monica, C. E. Saxton and S. R. Bose of Calcutta and others.

The total number of specimens sent on loan this year is about 421, a much larger number than in the previous year, although the number of correspondents and the variety of specimens supplied are nearly the same. About 95 sheets of Psilotum were scrutinised by Mr. C. E. Parkinson. Mr. C. Norman of the British Museum of Natural History examined critically 77 sheets of Pleurospermum. Y. Tsiang of the Sun Yatsen University, Canton, China, studied 6 lots from the herbarium belonging to the genera *Aganosma*, *Toxocarpus*, and *Gonioslemma*. Dr. S. P. Agharkar of the Calcutta University has

had 29 sheets of *Monotropa*. Some 10 sheets of *Daemonorops* were sent for study to the Director of the Botanic Gardens, Singapore while 116 Liverworts formed the subject for study of Mr. R. S, Chopra of the Punjab University who reports about a dozen of them as new records.

The specimens received back from loan is about 754. Mr. J. B. Hutchinson who was engaged in a monographic work of cultivated cotton plants returned, after revising the names, 554 sheets of specimens of Gossypium sent to him last year. Dr. H. N. Moldenke, Assistant Curator, the New York Botanic Garden, who is engaged in the study of the sheets of the genus Avicennia, returned 164 sheets belonging to this herbarium after incorporating necessary notes. About 36 specimens of a Dipterocarpus lot have been received back from the Forest Botanist, Federated Malay States Museum. From China, Tashkent and Singapore came 336 sheets presented and from other localities smaller numbers.

Plants going out on an exchange basis include 200 local species to Formosa, 30 specimens of Phœnix to America and a collection of flower buds of 17 species in special preserving fluid to Sweden. The National Herbarium, Manila, and other institutions throughout the world also benefited. Enquiries from very many sources on questions that can be answered or regarding which help can be given continue to come to the herbarium.

Some 3,173 specimens have been mounted, 5,097 specimens incorporated and 600 covers changed. The herbarium has this year unfortunately lost through death the services of an expert mounter Debendra Nath Nasker. It is not easy to procure the right type of man for this delicate work of mounting and it takes long experience to acquire the art.

Exploration was largely kept in abeyance due to the Superintendent being on leave but the Officiating Superintendent during the course of inspection work at Darjeeling made a tour to higher elevations.

In addition to Indians who came to headquarters several foreign visitors also visited the herbarium on special quests. Mr. Dowson formerly of the Irak Agricultural Department was helped with the palms and on the methods of their tapping; Professor Tanaka made a prolonged study of our material and literature of Citrus.

Short papers on "Jute and allied fibres"; The "Organic growth of the Calcutta Filterworks"; "The Position of the genus Sansevieria in India"; "The Vegetation of the Hazaribagh district" and "New species from Assam" were contributed by the Curator of the Herbarium.

The treatise on Water plants has attained a larger dimension than was originally intended and delay has resulted in consequence of the inclusion of more cryptogams, but the writing of the work is now completed and the plates nearly all prepared.

The library has been maintained, 30 periodicals being bought and some 196 received on exchange. Several books have been added and the demand for loans increases.

4. **Publications.**—The second part of the text of Sir David Prain and Mr. Burkill's monograph, the genus Dioscorea, is still in the Press.

5. **Finance.**—Out of the total budget allotment of Rs. 48,406 for staff and permanent establishment Rs. 48,382 were spent and under all other heads the expenditure amounted to Rs. 46,862 against the total allotment of Rs. 47,276. There was a net saving of Rs. 438 under all the heads during the year. Receipt of the department during the year amounted to Rs. 2,094.

6. **Staff.**—The writer hold the post of Superintendent from 1st April to 30th May 1935, and from 30th November, 1935, to the end of the year. He was on leave out of India from 31st May to 29th November 1935. Mr. K. Biswas was Officiating Superintendent for the six months and was Curator of the Herbarium from 1st April to 30th May 1935, and from 30th November 1935 to the end of the year. Mr. V. Narayanaswami was Officiating Curator of the Herbarium from 31st May to 29th November 1935. Mr. N. Mitra was Curator of the Garden throughout the year. Mr. Md. Quasem Ali was Assistant Curator, Royal Botanic Garden, Calcutta, throughout the year. Mr. K. S. Joneja was Overseer, Royal Botanic Garden, from 1st April to 18th September 1935, and from 1st November 1935 to the end of the year. He was on leave from 19th September to 31st October 1935.

Mr. A. T. Banerjee was Head Clerk throughout the year. All officers and the clerical establishment have performed their duties satisfactorily.

CALCUTTA GARDENS.

Work in these gardens which include the Eden, Dalhousie Square and Curzon Gardens was again mainly of a routine character. As elsewhere the short rainfall had the effect of delaying planting of winter annuals and the display of these was later than usual. It was, however, in appearance up to the average.

Social function at the Eden Gardens in honour of Their Excellencies The Viceroy and Countess Willingdon also affected to some extent the location and time of planting of annuals, the vicinity of the pagoda being left over till the second week of December.

Number of flowering shrubs and trees were planted out and an improvement effected in the hedges that lead from the pagoda to the bridge. These hedges were being destroyed by visitors who wished to gain short cuts and the *Acalyphas* composing them were replaced by Barleria, it being thought that this would be more resistant to encroachment and at the same time provide a change in the colour effect. The result is satisfactory.

The stocks of ferns and potted palms and orchids were maintained and increased by propagation.

As a result probably of differences in the water-supply the Eden Gardens prove a very much better place than the Sibpur Gardens for the development of Victoria regia. The leaves of this aquatic reached an enormous size. They became interesting objects to the public for photographic purposes and the plants flowered well.

A welcome collection in exchange was received from the Municipal Gardens, Bombay. This included a considerable number of Marantas for the shade houses and of varieties of Hibiscus for the open. The buildings, roads and benches have been kept in as good order as the limited funds would permit.

In the Eden Gardens some 42,000, in the Curzon 16,000 and in the Dalhousie Square Garden 13,000 square feet of road were attended to.

Estimates have been prepared for the excavation of the tanks in the Eden Gardens. Their proximity to Government House and the Council Chamber render it necessary that they should be free of mosquito larvæ, and the proposal to excavate them has the object of making the locality more sanitary. It is not likely that a scheme of this magnitude will readily find a place in the schedules for new expenditure and the ordinary and not very satisfactory palliatives of cleaning and spraying with oil will have to be continued.

The Gardens as a whole look well and there is continued improvement in the Curzon Garden.

One bad factor that will require more attention in the coming year is the state of the iron fences in the Eden Gardens. The budget allotment has been fairly distributed to the most necessary works and the state of all the gardens reflects this.

Finance.—Out of the total grant of Rs. 30,763 under all heads Rs. 30,754 were spent leaving a balance of Rs. 9. Receipts of the Calcutta Gardens during the year amounted to Rs. 10.

Staff.—Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, throughout the year, Mr. Gholam Muhiuddin was Overseer from 1st April 1935 to 2nd March 1936. He went on leave for three months from 3rd March 1936. Mr. J. A. Hulbert, Overseer, Cinchona Plantation, Munsong, acted in his place from 3rd March 1936 to the end of the year.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall at this Garden was 107·8 inches over the year, being below the average. But heavy continuous rain nevertheless destroyed seedlings in the open and replacements had to be made in beds in some cases more than once. The routine work of the Garden has been continued and several attempts at improvement made. Amongst these the most important was a renovation of the rockery. This involved the transport of fresh material to the Garden but the result has been much appreciated by the visiting public. A small ferroconcrete bridge and an artificial waterfall have been added to enhance the effect of the improvement. Species of the following genera from alpine and temperate regions have been planted up in the rockery :—Rhododendron, Rosa, Strobilanthes, Agapates, Vaccinium, Genista, Cotoneaster, Swertia, Spiraea, Lilium, Sexifraga, Anaphalis, Aster, Primula, Hypericum, Lonicera, Allium, Onosma, Pentapterygium, Gentiana, Smilax, Iris, Ranunculus, Berberis,

Daphne, Veronica, Helianthemum, Cathcartia, Meconopsis, Achillea, Arenaria and others. Several of these were collected by the Curator while on botanical tours.

Besides the usual display of flowers on beds the special beds of Meconopsis Wallichii, M. nepalensis, M. combrica, Cathcartia villosa, Primula cashmeriana grown from acclimatised seed, Lilium Nepalense, L. giganteum and L. Wallichii attracted many visitors. The Curator also records a long list, some of interesting or rare flowers in this part, that bloomed during the year. He has added to the Garden collections of orchids by drawing freely on the local jungle supply at the elevation of Darjeeling or lower down. Parts of the lawns have again had to be combed to restrict the growth of moss. Only those who have tried to maintain pure lawns in a damp climate at such elevation in the Estern Himalayas can know how repeatedly the operation of combing has to be done to secure a satisfactory turf.

Some 196 young plants were put out to permanent situations in the Garden during the year. The list includes additions to species already there, repeat trials with those that had not previously succeded and a few plants new to the Garden ; chizandra grandiflora and Stephania rotunda are new additions.

A fairly large number of additions was made as a result of exchanges with the Sun Yatsen Memorial Park, Nankin, China. It is to be recalled that the Lloyd Botanic Garden freely gave material to help and establish the Memorial Park some years ago. From China we are now in receipt of Aucuba chinensis, Idesia polycarpa, Vanieria tricuspidata, Deutzia pilosa, Prunus rufomicans, P. anomala, P. Willsonii, P. pubigera and species of Photinia, Lonicera, Cassia, Lindera, Rubus, Hydrangea, Clematis and other more or less temperate plants.

Some 5,009 packets of seeds, 313 plants and 9,969 seedlings were distributed.

The herbarium and library were kept in good condition and added to. The existence of a local herbarium in Darjeeling may not be so generally known as it should be. It is possible that more local collectors would use it if they knew of its existence. It is the work of successive Curators of the Garden, especially of Mr. Cave, and contains a fairly representative set of the plants of the Darjeeling district. The Curator will be glad to place its collections at the disposal of any local botanists who call to compare specimens and if they fail there the staff at Sibpur will always be glad to supplement the help from headquarters.

Two botanical tours were undertaken by the Curator during the year one to the higher and one to the lower elevations and he helped Mr. Biswas during the latter's inspection with materials for a Guide-book.

Over 47,000 visitors were counted at the gates.

As in former years the garden staff did what was possible to make the local annual flower show a success. The alpine groups staged by the garden were not at their best but the public showed its usual interest in them all the same.

Finance.—Out of the total allotment of Rs. 15,774 under all heads Rs. 15,543 were spent and a sum of Rs. 219 was surrendered leaving a a small balance of Rs. 12.

Staff.—Mr. S. N. Basu was Curator, Lloyd Botanic Garden, Darjeeling, throughout the year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 9th September 1936.

Monthly Weather and Crop Report of Bengal for August 1936.

I. *Character of the season.*—During the month under review, the rainfall was below the normal throughout the Presidency, except in Birbhum, Bankura, Jalpaiguri, Pabna, Dacca, Chittagong, Chittagong Hill Tracts and the Tripura State, where the fall was above the average. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Transplantation of winter paddy continued favourably, except in parts of West and North Bengal, where more rain was needed to facilitate the operation. Harvesting of autumn paddy, cutting, steeping and washing of jute were in progress.

III. *The state of standing crops.*—The state of standing crops was generally satisfactory.

IV. *Prospects and probable outturn.*—The prospects of standing crops were reported to be generally fair. The outturn of sugarcane is expected to be 83 per cent. of the normal.

V. *Damage to standing crops.*—Some damage was caused to standing crops by insect-pests and floods.

VI. *Condition of agricultural stock.*—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from thirteen districts in the Presidency and from Cooch Behar and Tripura States.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Birbhum, Rajshahi and Pabna.

VIII. *Prices of food-grains.*—During the second fortnight of the month the retail prices of common rice of the cheapest quality rose in seven districts and fell in four. The prices ranged from 9 seers per rupee in Darjeeling to 13 5/16 seers per rupee in Tippera.

IX. *Condition of agricultural population.*—The condition of agricultural population was, on the whole, fair, except in parts of 24-Parganas, Nadia, Murshidabad, Khulna, Bankura and Burdwan, where distress continues.

K. McLEAN,

Director of Agriculture, Bengal.

DARJEELING, THE 9TH SEPTEMBER 1936.

RESOLUTION—No. 426T.A.I. AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1935-36.

Administration.—Mr. K. McLean continued in charge of the Department throughout the year. He was confirmed as Director of Agriculture, Bengal, with effect from the 20th October 1935 on retirement of Dr. G. P. Hector.

On return from leave in October 1935 Mr. M. Carbery, Agricultural Chemist, Bengal, took over charge of the post of Assistant Director of Agriculture, Bengal, from Mr. P. C. Chaudhuri, being confirmed in the post at the same time. Mr. P. C. Chaudhuri, Deputy Director of Sericulture, was appointed as Deputy Director of Agriculture, Eastern Circle, in October 1935, in place of Mr. F. Smith, retired, on being relieved by Mr. Carbery. In March 1936 Rai Sahib Jamini Kumar Biswas, who was officiating as Deputy Director of Agriculture, Northern Circle, went on leave preparatory to retirement.

Dr. S. Hedayetullah, M.SC. (Cal.), PH.D. (London), was appointed as Economic Botanist, with effect from 1st October 1935.

General.—The season was a very difficult one for agricultural operations. Owing to shortage of rain, the sowings were generally late specially in highland areas, but in East and parts of North Bengal lowland sowings were carried on satisfactorily with the usual soil moisture. Although general rainfall from the middle of May till June facilitated *kharif* sowings in Western and Northern Bengal and the preparation of winter paddy seed beds, subsequent periods of shortage of rain followed by a long spell of drought seriously affected the winter paddy crop and the *rabi* crops. Western Bengal was most seriously affected and in the districts of Burdwan, Birbhum, Bankura, Hooghly and Murshidabad, which suffered from drought in the previous year, little or no crop was obtained over wide areas and scarcity had to be declared. The only crops returning a normal outturn were jute and lowland *aus* paddy for which the season was favourable.

The intensive campaign for the restriction of the area under jute which was undertaken in 1934-35 by officers of the Agricultural Department with the assistance of the local officials and non-officials bore fruit in the shape of a considerable reduction in the area under the crop and in improvement of its prices. As the underlying object of the restriction was to restore a healthy price-level by bringing the surplus stocks of jute back to normal and avoiding a glut in the market and as it was realised that it would be disastrous if, in the hope of immediate profits, the cultivator failed to restrict to the full extent during the coming season, vigorous propaganda was again undertaken for restriction of the area under the crop during 1935-36. To ensure success a considerable number of temporary demonstrators were also employed to instruct the cultivators in the cultivation of *rabi* crops and to introduce alternative crops such as sugarcane and groundnut.

Research and experiment.—Considerable success attended the activities of the research section during the year where full advantage was taken of the financial assistance offered by the Imperial Council of Agricultural Research and of the advice afforded by their experts. As many as seven schemes of research were worked with their grants, noteworthy among them being those relating to trade rices, sugarcane, fruits, marketing and animal nutrition. At the Universities of Calcutta and Dacca also research work on soils and soil colloids, on nutrition of rice plant and on experimental errors in field trials was continued with their grants. It is confidently hoped that by the successful working of these schemes results of far-reaching importance will be achieved before long which will go a great way towards the amelioration of the economic condition of the cultivating classes.

The work on the scheme for investigation of the possibilities of improving Comilla cotton which was started in the previous year was continued with the grant of the Indian Central Cotton Committee.

That the value of sugarcane as a revenue crop has been recognised by the cultivator would be apparent from the fact that the area under the crop increased from 276,000 acres to 325,000 acres during the year, of which 244,000 acres were reported to be under C. O. 213. Eight vacuum pan factories and 54 open pan factories worked during the season with a full supply of cane. During the year 19,072,000 of C. O. 213 cuttings were distributed. Rupees 15,500 was also sanctioned to meet the cost of cuttings in introducing sugarcane as a substitute crop for jute.

Fifteen new types of cane were introduced into the field testing area from the seed-testing station. Of the types already under investigation C. O. 281 and C. O. 381 proved most promising early ripeners.

There was an increasing demand for departmental types of tobacco and during the year, 4,911 tolas of seed were distributed. The number of demonstration centres was 441 extending over 140 acres and the total area under tobacco was 307,000 acres, of which 70,000 acres were reported to be planted with departmental types.

The investigation into the manurial value of Damodar silt was continued, the silt being found to be rich in all manurial ingredients—Nitrogen, Potash and Phosphate. The investigations undertaken in connection with the economic enquiry into the cost of production of cane and other crops in certain tracts of Bengal showed that in the soils in Bogra and Birbhum lime is lacking, and in Bogra Potash is more than sufficient throughout while Nitrogen and Phosphate are only sufficient in the surface soil. The Birbhum soils were found to be lacking in all essential plant foods.

Several samples of 1934 crop of jute from the experimental plots in different farms in the province were sent to the Dundee Chamber of Commerce and the assessors placed a new type, D. 386 in the first category. This type is a heavy yielder, the yield exceeding that of D. 154 on the Rangpur and Mymensingh farms. In the Olitorius trials, Chinsura Green proved superior to all the other types tested against it.

Animal husbandry.—The Department was fully alive to the necessity of maintaining a sustained effort to attract that unofficial support and interest in live-stock improvement which is so essential to real progress. While the main difficulty in the way of the improvement of stock has been shortage of funds, it was possible to undertake an intensive campaign in the districts of Malda-Rajshahi, Nadia-Murshidabad, Hooghly-Bankura, Dacca-Faridpur and Tippera-Noakhali under the charge of 5 live-stock officers, of whom 3 were appointed during the year. 230 bulls were in charge of the live-stock officer in Rajshahi-Malda and 65 under the charge of the officer in Hooghly-Bankura districts. 19 stud bulls were issued free from district farms and 14 were sold for stud purposes in the districts. The bulls were chosen with great care having regard to their suitability to the type of the cows in the districts concerned and the fullest possible advantage was taken of the pedigree stock available at the Government farms. As regards progeny of the stud bulls, the district boards of Malda and Rajshahi continued to contribute towards the purchase of bulls sired by departmental stud bulls. They also purchased 17 selected bulls from jails for free issue. The district boards of Murshidabad and Hooghly also allotted funds for the purchase of bulls. The premium scheme continued and with a view to meeting the demand for premia from an increased number of owners of bulls and allowing their bulls to come under departmental supervision the amount of premium for each individual premium holder was reduced from Rs. 10 to Rs. 5 each per mensem. The bulls under the premium system covered 3,908 cows against 2,733 in the previous year.

Funds were obtained during the year from the Government of India grant for rural uplift and in accordance with the scheme sanctioned in connection therewith 100 stud bulls will be provided in each of the 10 districts in which live-stock officers are at present posted. In addition to ensuring the most profitable use of these bulls the live-stock officers will endeavour to impress on cultivators and others in their areas the essential importance of preventing breeding by existing bulls of inferior quality. To this effect 10 veterinary officers are also to be posted in these districts for a period of two years to undertake an intensive campaign of castration of scrub bulls.

In the poultry section at the Dacca farm the sixth R.I.R. Chittagong cross continued to prove successful, the best layer laying 240 eggs in the year against 125 eggs of the fifth cross laid during the previous year.

In accordance with a scheme for the improvement of poultry sanctioned at a total cost of Rs. 500 out of the Government of India grant for rural unlift, it is proposed to distribute among cultivators in each of the 10 districts supervised by live-stock officers 20 selected mating birds from the poultry section at Dacca on condition that they agree to get rid of their old male stock.

There has been a continued demand for cuttings of Napier grass which it has been difficult to meet. Around every homestead there is a considerable area of land which is at present not being put to use, and the Department are taking up the introduction of Napier grass in these areas.

Demonstration and propaganda.—While the activities of the Department on the demonstration and propaganda side continued on the usual lines through lantern lectures in hats, exhibition and fairs, through the medium of wireless talks on agriculture given by departmental officers in Calcutta and through cinema shows and departmental publications, it is very satisfactory to note the increasing interest which a large number of district and union boards, as well as khas mahals and Court of Wards estates have taken in the matter by the provision of funds for demonstrating staff and for distribution of seeds, etc.

It is unfortunate that the weather conditions in Western Bengal proved a bad set-back to the increase in the area of departmental paddies. On wide areas in Burdwan, Bankura, Birbhum and Hooghly no crop was obtained and a nucleus of departmental types in paddy seed farms was entirely lost. In these areas seed farms will have to be restocked and a start made again from the beginning. Practically all the farms suffered from drought during the *aman* season, and the Burdwan, Dinajpur and Rangpur farms had floods as well which destroyed the whole of the *aman* paddy crop. On the other hand sugarcane was most successful, C. O. 243 and C. O. 213 giving a yield of 129 maunds and 111 maunds, respectively, of gur per acre in the field.

Artificial farm yard manure was manufactured on all farms as a matter of routine for application to the land and for demonstration to cultivators, the total quantity manufactured being 32,470 maunds.

Agricultural education.—The scheme for the establishment of an Agricultural Institute at Dacca did not materialise owing to lack of funds, but it is noteworthy that the nucleus of a higher Agricultural Institute was established at Rajshahi with the legacy of the late Kumar Basanta Kumar Roy of Dighapatia. The Institution has been named the "Basanta Kumar Agricultural Institute," Rajshahi, of which the course of study will include theoretical and practical training in dairy farming, comprising preparation of dairy products, horticulture, poultry, cigar-making and agricultural farming and will cover a period of four years for Matriculates and those who have not read up to the end of the I. Sc. course, and two years for those who have read up to the end of the I. Sc. course or passed the I. Sc. examination. The scheme will come into operation before long.

There has been an increased demand for admission into the Secondary Agricultural School at Dacca due mainly to the provision of stipends by the district boards for students coming from their respective districts, 14 stipends having been allotted during the year. Accommodation for this increased number is also available owing to the suspension of the scheme for training of teachers at the school which now provides facilities for training of 3 teachers only to replace casualties among trained teachers. The number of schools conducting agricultural classes under the scheme for instruction in agriculture in High English and Middle English Schools during the year was 51, of which 2 were new additions, namely, the Ramkrishna Mission Middle English School, Sarisa, in 24-Parganas, and the St. Gabriel Middle English School, Canning. As many as 3,043 students received instruction in the subject—both theoretical and practical. The working of the schools is regularly inspected and steps are taken to eliminate those which work badly.

The subject of the teaching of nature study in primary schools met with encouraging results during the year, the number of primary schools

ith provision for such training having considerably increased in many
the districts. The district board of Mymensingh contributed
s. 100 as a reward to the teachers in 20 primary schools in the district
hich showed the best results.

Acknowledgment.—Government in the Ministry of Agriculture have
uch pleasure in recording their appreciation of the valuable services
ndered by Mr. K. McLean in the administration of the Department.
hey have also noted the names of other departmental officers—superior
id subordinate—commended in the report. Thanks of Government are
so due to the numerous officials and non-officials who helped the Depart-
ent in various ways, and to the members of the Provincial Agricultural
esearch Committee and other Committees and Boards attached to the
epartment for the services rendered by them.

NOTIFICATIONS.

No. 1079P.D.—16th September 1936.—The following draft of a notification, which it is proposed to issue under sub-section (*a*) of section 12 of the Port Haj Committees Act, 1932 (XX of 1932), is published as required by sub-section (*1*) of section 23 of the said Act for information of all persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor in Council on or after the 13th October 1936.

Any objection or suggestion which may be sent to the Chief Secretary to the Government of Bengal by any person with respect to the said draft on or before the aforesaid date will be considered by the Governor in Council:—

Draft Notification.

In exercise of the powers conferred by sub-section (*a*) of section 12 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rule in supersession of rule 20 of the Calcutta Port Haj Committee Rules, 1933, published with notification No. 13604P., dated the 2nd December 1933, and as subsequently amended by notification No. 1006P., dated the 23rd January 1934:—

Rule.

20. The term of office of the Chairman shall be for a period of one year from the date of approval of his election by the Local Government under sub-section (*3*) of section 11 of the Act or from the date of his appointment under sub-section (*2*) of that section, as the case may be, but he shall be eligible for re-election or re-appointment:

Provided that the term of office of the Chairman shall continue until a Chairman is elected and his election has been approved by the Local Government under sub-section (*3*) of section 11 of the Act or a Chairman is appointed under sub-section (*2*) of that section.

No. 14622P.—17th September 1936.—Whereas it appeared to the District Magistrate of Chittagong that the letting off of bombs or fireworks in Chittagong was likely to cause obstruction to the authorities responsible for the preservation of the public tranquillity and whereas he issued an order, dated the 28th September 1932, under section 144 of the Code of Criminal Procedure, 1898, directing all persons to abstain from letting off any bombs or fireworks within the police-stations of Kotwali, Double Mooring and Panchalaish;

And whereas it appears to the local Government that the conditions in Chittagong which led to the issue by the District Magistrate of the aforesaid order still continue and that the letting off of bombs or fireworks is likely to cause a danger to human life or safety:

Now, therefore, in exercise of the power conferred by section 144(*6*) of the Code of Criminal Procedure, it is hereby directed that the said order shall remain in force for a further period of two months, with effect from the 27th September 1936.

Birbhum.—No. 1149 P. D.—19th September 1936.—In exercise of the power conferred by section 24 of the Bengal Suppression of Terrorist Outrages Act, 1932 (Ben. NOTIFICATION.

The Charitable Endowments Act, 1890.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

No. 3755Medl.—22nd September 1936.—Whereas by notification No. 873T.M., dated the 25th June 1901, published at pages 824-25, Part I of the *Calcutta Gazette*, dated the 3rd July 1901, it was notified that the Lieutenant-Governor of Bengal in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, did thereby order and direct that the Government securities and the sum in cash of which the particulars are contained in the First Schedule thereunder written should as and from the date of the said recited notification vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal and be held by him and his successors subject to the provisions of the said Charitable Endowments Act and the rules from time to time framed thereunder by the Governor-General in Council upon trust to apply the same or income thereof to the endowment and maintenance of a permanent fund to be called the "Walter Thompson Female Scholarship Fund" in accordance with the provisions in that behalf contained in the scheme of which particulars are contained in the Second Schedule thereunder written, and it was thereby further notified that the said scheme should come into operation on the vesting of the said property in the said Treasurer of Charitable Endowments:

AND WHEREAS accumulations amounting to Rs. 500 having resulted from the surplus interest of the securities vested by the said recited notification the same was invested in the purchase of securities and the said securities were by notification No. 873T.M., dated the 25th June 1901, published at pages 824-25, Part I of the *Calcutta Gazette*, dated the 3rd July 1901, vested in the said Treasurer of Charitable Endowments upon the same trusts as are declared by the said first recited notification of and concerning the said Government securities and cash therein comprised from the date of the first publication of the said second recited notification:

AND WHEREAS further accumulations have resulted of the surplus interest of the securities vested by the said first and second recited notifications:

AND WHEREAS it has been found that the actual income arising out of the said securities is much in excess of what is required for the payment of a scholarship of Rs. 7-8 per mensem as provided in the Second Schedule to the said first recited notification:

AND WHEREAS it is provided in clause 3 of the Second Schedule to the said first recited notification that "the surplus income and surplus cash balance shall be applied at the discretion of the Trustee in defraying any necessary expenses connected with the trust or in increasing the value of the said scholarship or in any other way consistent with the declared object of the Fund":

AND WHEREAS Superintendent, Campbell Medical School, the present Administrator of the said Fund, has applied for the modification of the said scheme set out in the Second Schedule to the said first recited notification to give effect to the wishes of the donor:

AND WHEREAS the said scheme has been modified accordingly and is set out in the Second Schedule hereunder written:

AND WHEREAS it is the opinion of the Government of Bengal that the scheme as modified is consistent with the declared object of the Fund:

AND WHEREAS the further accumulations have been invested in the purchase of securities the particulars whereof are set out in the First Schedule hereunder written and it has been resolved that the said securities shall be vested in the said Treasurer of Charitable

Endowments upon the trusts set out in the scheme set forth in the Second Schedule hereunder written:

IT IS HEREBY NOTIFIED that the Government of Bengal (Local Self-Government (Medical), Department), in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, upon the application of and with the concurrence of the said Superintendent, Campbell Medical School, the present Administrator of the said Fund, doth hereby order and direct that the securities the particulars of which are contained in the First Schedule hereunder written shall as from the publication of this notification vest and be henceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal to be held by him and his successors (subject to the provisions of the Charitable Endowments Act, 1890, and the rules from time to time to be framed by the Governor-General in Council) upon trust to hold the said securities as well as the securities vested in the said Treasurer of Charitable Endowments by the said recited notifications, dated the 25th June 1901, and No. 3336 Medl., dated the 29th November 1904, and to apply the same property or the income thereof to the endowment and maintenance of the Fund called The Walter Thompson Female Scholarship Fund in accordance with the trusts in that behalf set out in the scheme set forth in the said Second Schedule hereunder written:

AND IT IS HEREBY FURTHER NOTIFIED that the said scheme as hereby modified shall come into operation on the vesting of the securities mentioned in the First Schedule above referred to in the Treasurer of Charitable Endowments.

The First Schedule above referred to:

Stock of 3½ per cent. loan of 1865 for Rs. 1,900 and stock of 3½ per cent. loan of 1900-01 for Rs. 1,000 held by the Reserve Bank of India.

The Second Schedule above referred to.

1. The Endowment shall be called in memory of the late Walter Thompson of Behcea the "Walter Thompson Female Scholarship Fund" and its object shall be the establishment and maintenance of three scholarships of Rs. 10 each per mensem to be called the "Walter Thompson Female Scholarships" tenable for two years and awardable every year in the month of April to three female students at the Campbell Medical School, Sealdah, who shall pass the annual examination at the said school or if there be no such students eligible therefor or if the number of students so eligible falls short of three then in the month of June to three newly admitted female students of the said school holding qualification certificates or such number of such students as may be required to make up the number of three. The Superintendent for the time being of the school shall elect the recipient of such scholarship and in determining the eligibility of any student shall consider in addition to her other qualifications the student's conduct and as far as possible her parents' or guardian's pecuniary position. 24-Parganas.—No. 3741P.H.—22nd September 1936.—In pursuance of rule 8 of the rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities, it is hereby notified for general information that the scheme for the supply of water to the Halisahar Municipality, has been approved by the Government of Bengal (Ministry of Public Health), and that the particulars of the said scheme are as follows:—

1. (*a*) The water-supply will be derived from tube-wells belonging to the Hukumchand Jute Mills who will pump and deliver a supply not less than 75,000 gallons and not more than 100,000 gallons per day into the municipal mains. The municipality will lay their own distribution pipes varying in sizes from 8″ to 2″ diameters along different roads in the town. The supply will be given through 92 standposts and a limited number of house connections. The principal water main will be along the Ghosepara Road with 19 branches leading to all important centres of the inhabited area of the town. The total length of pipe lines will be about 55,755 feet.

(*b*) The estimated cost of the scheme is Rs. 67,000 to be financed as follows:—

(*1*) Municipal contribution—Rs. 13,000.

(*2*) Fees for house connections—Rs. 8,000.

(*3*) Loan from Government—Rs. 46,000.

(*c*) and (*d*) The cost of maintenance, which is estimated at Rs. 8,210 annually, will be met from the water-rate fund of the municipality.

(*e*) A loan of Rs. 46,000 from Government is required for the scheme by the municipality, to be repaid in twenty years in equal yearly instalments of Rs. 3,310-4-2 each.

2. The scheme will be taken into consideration on or after the 1st November 1936, and any objection or suggestion with regard thereto, which may be received by the undersigned before that date, will be duly considered.

NOTIFICATIONS.

No. 6407F.—1st August 1936.—In exercise of the powers conferred by rule 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers hereby makes the following rules to regulate the gratuities and pensions admissible to, and the retirement of, Government servants in Inferior Service under his administrative control, in supersession of all previous rules and orders on the subject which are inconsistent with the said rules:—

Rules.

1. *Short title and commencement.*—(*1*) These rules may be called the Bengal (Inferior) Services (Gratuity, Pension and Retirement) Rules, 1936.

(*2*) They shall come into force on the 1st April 1936.

2. *Application of rules.*—These rules shall apply to all Government servants in Inferior Service under the administrative control of the Government of Bengal who are or were paid from the provincial revenues of Bengal.

3. *Saving of other rules, etc.*—Nothing in these rules shall be deemed to derogate from any rules or orders in force not inconsistent with these rules.

4. *Classes of pensions and gratuities.*—Pensions and gratuities shall be of the following classes, namely:—

(*i*) Compensation pension and compensation gratuity, granted on discharge from Government service on account of reduction of establishment;

(*ii*) Invalid pension and invalid gratuity, granted on retirement from Government service on account of permanent incapacity resulting from bodily or mental infirmity;

(*iii*) Superannuation pension and superannuation gratuity, granted on attaining the age prescribed in rule 9; and

(*iv*) Retiring pension, granted on retirement from Government service after a qualifying service of 40 years.

5. *Grant of gratuity.*—Compensation gratuity, invalid gratuity or superannuation gratuity, of an amount not exceeding one-half month's pay for every completed year of qualifying service may be granted if the qualifying service on discharge or retirement is less than 25 years.

6. *Grant of pension.*—(*1*) Save as provided in sub-rule (*2*),—

(*a*) Compensation pension, invalid pension or superannuation pension, of the amount set out in Schedule I, may be granted if the qualifying service on discharge or retirement is not less than 25 years;

(*b*) Retiring pension, of the amount set out in Schedule I, may be granted if the qualifying service on retirement is not less than 40 years.

(*2*) In the case of the Government servants specified in Schedule II—

(*a*) Compensation pension, invalid pension or superannuation pension of the appropriate amount set out in Schedule II, may be granted if the qualifying service on discharge or retirement is not less than 30 years.

(*b*) Retiring pension, of the appropriate amount set out in Schedule II, may be granted if the qualifying service on retirement is not less than 40 years.

7. *Pay defined.*—For the purposes of these rules, gratuity and pension shall be calculated on the basis of the monthly substantive pay which the Government servant concerned drew or would have drawn at the time of his discharge or retirement in the permanent post held by him substantively:

Provided that if the pay of a Government servant has been reduced during the last three years of his service otherwise than as a penalty, his gratuity or pension under these rules may, at the discretion of the authority which has power to sanction it, be calculated upon the average of his pay during the last three years of his service.

8. *Qualifying service limited.*—For the purposes of these rules, qualifying service shall not begin until the Government servant concerned has attained the age of 16 years.

9. *Age of retirement.*—A Government servant shall retire when he has reached the age of 60 years:

Provided that a Government servant may be retained in service until he has attained the age of 65 years:

Provided further that such continuation in service after attaining the age of 60 years shall be contingent upon the mental and physical fitness of the Government servant concerned.

NOTIFICATION.

No. 8064F. — 18th September 1936. — In exercise of the power conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers is pleased to make the following amendment to the Bengal Services (Pay of Temporary Posts) Rules, 1935, namely:—

Amendment.

For rule 3 of the said Rules, the following shall be substituted:—

"With effect from the 1st April 1935, any Government servant holding a temporary post which he held on the 21st July 1931, and has, save for periods of leave or for periods of officiating or temporary service in another post on the same rate of pay or in a still higher post, held continuously since then may draw, so long as he holds that post, the pay which he would have drawn had the 15 per cent. cut orders never been issued: that is to say

(*i*) if his pay on the 21st July 1931 was a fixed pay, he may continue to draw that fixed pay;

(*ii*) if his pay on the 21st July 1931 was in a time-scale, he may, with effect from the 1st April 1935, draw pay at the rate which would have been admissible, and draw increments thereafter, on the dates on which he would have drawn them, had the 15 per cent. cut orders never been issued."

And the said rules shall have effect and shall be deemed always to have had effect as if they had been made as so amended.

Agriculture.

CALCUTTA, THE 14TH SEPTEMBER 1936.

RESOLUTION—No. 480 AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

The Bengal Agricultural Research Committee was constituted under resolution No. 4350 Agri., dated the 22nd August 1933. The period of office of the non-official members of the committee having expired, the Government of Bengal (Ministry of Agriculture) are pleased to reconstitute the committee with the following members :—

(1) The Hon'ble Minister in charge of the Agricultural Department, President.

(2) The Secretary to the Government of Bengal in the Agriculture and Industries Department.

(3) The Director of Agriculture, Bengal.

(4) The Director, Civil Veterinary Department, and Veterinary Adviser to the Government of Bengal.

(5) The Principal, Bengal Veterinary College.

(6) One scientific officer of the Agricultural Department to be nominated by Director of Agriculture.

(7) Professor J. C. Ghosh, D.SC., representative of pure science from the Dacca University.

(8) Professor Jnanendra Nath Mukherjee, D.SC., representative of pure science from the Calcutta University.

9. Professor S. P. Agharkar, M.A., PH.D., F.L.S.

(10) Mr. I. S. K. Ghuznavi, B.S., Mymensingh.

The Director of Agriculture will act as Secretary to the committee.

Government reserve the power to add to the number of members. The committee shall have powers to co-opt members possessing expert knowledge and, if necessary, to appoint sub-committees to deal with special problems.

The non-official members will hold office for a period of three years or until further orders.

2. The committee will be entirely distinct from the Provincial Board of Agriculture and its main function will be to co-operate with the Imperial Council of Agricultural Research in matters connected with the advancement of agricultural and veterinary research, as well as to assist in maintaining touch between that body and agricultural activities in this Presidency. Its primary duty will be to examine all programmes of development and research which Government may propose to refer to the Imperial Council of Agricultural Research and report on any application from any association or person within the province for a grant from the Council. It will also advise the Local Government on any scheme or project which may be referred to it for opinion.

3. The Hon'ble Minister takes this opportunity of expressing his thanks to the members of the late committee for the assistance and advice they have rendered to the Agriculture Department.

Order—Ordered that a copy of the resolution be forwarded to the Director of Agriculture, the Veterinary Adviser, the Principal, Bengal Veterinary College, and the Vice-Chancellors of the Dacca and the Calcutta Universities and to the non-official members of the committee, for information.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal

(Ministry of Agriculture),

Extension of time for submission of application for the Test Examination of private candidates for the Matriculation Examination to be held by the Inspector of Schools, Presidency Division.

It is notified for public information that candidates who failed to submit their applications to me by 31st August 1936, may now appeal through my office to the Registrar, Calcutta University, for necessary permission on or before 30th September 1936, stating reasons in full for their failure to submit their applications in time. The appeal should be accompanied by the formal application prescribed by this office in the rules published under the date of 13th July 1936, complete with all particulars and papers.

M. A. Jaafar,
Inspector of Schools, Presidency Division.

Orders by the Hon'ble President and Council of the Bengal Sanskrit Association.

NOTICE.

The Sanskrit First Examination will be held on Monday and Tuesday, the 1st and the 2nd February 1937, corresponding to the 19th and the 20th Magh 1343 B. S.

2. The Sanskrit Second Examination will be held on Wednesday and Thursday, the 3rd and the 4th February 1937, corresponding to the 21st and the 22nd Magh 1343 B.S.

3. Candidates desiring to appear at the Sanskrit First and Second Examinations should apply in the prescribed form with a fee of Re. 1 for the First and Rs. 2 for the Second Examinations, on or before the 2nd December 1936 (the 16th Agrahayan 1343 B.S.) to the Secretary of the examination centre where they intend to present themselves for the examination. No application will be entertained by the Secretaries of local Samajas after the 2nd December 1936.

4. *Adhyapakas of tols should apply for printed copies of application forms to the Secretary of the examination centre where they intend to send up their pupils for examination*, and the Secretary will supply the printed copies of application forms in due course.

5. The subject of examination with their subdivision or group (*e.g.*, Vyakaran—Laghukaumudi, Saraswat, etc., or Nyaya *ka*, *kha*, etc.) must be distinctly and definitely written in the application form. *In absence of such details the application will be liable to rejection without any further reference to the candidate or his* Adhyapaka. The *Adhyapakas* are, therefore, requested to exercise great watchfulness in revising the application forms of their candidates before they are sent to the Secretaries of the local Samajas (in the case of the First and Second Examinations) or of the Bengal Sanskrit Association (in the case of the Title Examination) that all details regarding the specification of subjects and their groups are duly attended to.

6. No change of subject will, under any circumstances, be allowed after the registers of candidates for the First and Second Examinations have been despatched to the office of the Bengal Sanskrit Association by the Secretaries of the local Samajas or after the application forms for the Title Examination have been received by the office of the Bengal Sanskrit Association.

7. Applications for change of centre will not be considered even on payment of the usual fee of Rs. 2 if they are not received *within* the 6th January 1937, corresponding to 22nd Paus 1343 B.S.

8. Candidates disirous of appearing at more than one examination in one year in one subject must take special permission from the Secretary, Bengal Sanskrit Association, *before* they submit their forms and fees to the Secretaries of the local Samajas (in the case of the First and the Second Examinations) or to the Secretary of the Bengal Sanskrit Association (in the case of the Title Examination).

9. The Secretaries of local Samajas or the Superintendents of Examinations should, on no account, allow any candidate to sit for examination unless he can show evidence that he has been authorised by the Secretary, Bengal Sanskrit Association, to sit for the examination at *that* centre.

10. Candidates and their *Adhyapakas* are hereby informed that the office of the Bengal Sanskrit Association neither directly issues any application forms nor entertains the same, so far as the First and Second Examinations are concerned. *The Association office does not undertake any responsibility in case of loss or otherwise of the fees and forms for the First and Second Examinations if these are sent direct to it.*

11. The Sanskrit Title Examination will be held on Saturday, the 6th February, Monday, the 8th February, Tuesday, the 9th February, and Wednesday, the 10th February, corresponding to 24th, 26th, 27th and 28th Magh 1343 B.S. An optional examination in English Grammar, Translation and Composition will be held on Thursday, the 11th February 1937 (the 29th Magh 1343 B.S.).

12. Applications for permission to appear at the Title Examination should be made to the undersigned on or before the 7th December 1936 (the 21st Agrahayan 1343 B. S.), with the usual fee of Rs. 3 only. No application will be entertained with a fee of Rs. 3 if both the fee and the application do not reach the office within the 7th December 1936. Applications will be received with a fee of Rs. 3-8 from the 7th December 1936 to the 21st December 1936, after which no further application will be entertained.

13. Applications for printed copies of Title Examination application forms should be made to the Secretary, Bengal Sanskrit Association.

NOTIFICATION—No. 2073/Ex.

The next B.L. Examination will commence on the 25th January 1937, and will be held on the dates and time notified in the time-table.

2. Applications for admission to the examination shall be made on the printed entry forms which will be obtainable at the office of the Provost of the hall to which the student belongs. The entry form, after it has been duly filled in and signed by the candidates and countersigned by the Dean of the Faculty of Law, shall be presented by the candidate to the Provost of his hall not later than Thursday, the 26th November 1936.

3. Candidates shall submit their University diplomas or the Preliminary B.L. Certificates, as the case may be, along with their entry forms to the Provost for verification of the correctness of their names in the entry forms. Candidates must take back their diplomas or certificates within a fortnight after the examination is over, failing which the Provosts' offices will not be responsible for their safe-keeping. The entry forms will be checked by the Provosts in respect of all the entries made by the candidates in the entry forms. The date of first admission of candidates into the University will be checked by the Provosts with reference to the applications for admission of the candidates concerned. In the case of candidates, who have been granted special permission to appear at the examination, the authority granting them such permission should be quoted in the entry forms of the candidates and duly attested by the Provost. The checking of entry forms by the Provosts will be regarded as final. The entry forms after they have been checked by the Provosts will be forwarded by them to the Accounts office of the University not later than Friday, the 3rd December 1936.

4. Candidates who are required to pay half the usual examination fees under section 32 of Chapter XXXVII of the Ordinances and Regulations, must obtain at the time of depositing fees, a certificate on the examination entry form, from the Examination Section of the University, to the effect that they submitted their examination fees but did not appear at the examination.

5. Candidates shall deposit their proper examination fees and all other dues up to the 5th instalment, 1936, into the Accounts office of the University on the dates noted below for certification that all University dues including the seat-rent, tuition fees, etc., have been paid in full.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 6 T.B.—29th August 1936.—In accordance with the Government (Education Department) notification No. 1665 Edn., dated the 16th November 1920, the following list of text-books, approved by this department for use in all classes of Primary Schools in the Presidency of Bengal, is published for general information. These books are approved for a period of four years from January 1937.

The lists of text-books published with this office notifications Nos. 2T.B., dated the 16th June 1930, and 5T.B., dated the 10th November 1930, are hereby cancelled.

The syllabuses for Infant Class, Class I and Class II in the Revised Curriculum for Primary Schools (and Maktabs), now in force in both parts of this Presidency, shall be adopted, respectively, in the Infant Class, Class I and Class II of Middle Schools and the corresponding Classes of High Schools for both boys and girls. Text-books approved by this department for Infant Class, Class I and Class II of Primary Schools (and Maktabs) will be applicable to the corresponding Classes of Secondary Schools.

District Boards and District School Boards are requested to choose books from the following list for use in Primary Schools under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

J. M. BOTTOMLEY,

Director of Public Instruction, Bengal.

INTRODUCTORY NOTES.

(*i*) The compulsory subjects in all Primary Schools are the following:—

(*a*) Reading.

(*b*) Writing.

(*c*) Arithmetic.

(*d*) Geography.

(*e*) History.

(*f*) Hygiene (for Boys) or Hygiene and Domestic Economy (for Girls).

(*g*) Observation Lessons (for Boys).

(*h*) Physical Training (for Boys) or Needlework (for Girls).

The Primary (Maktab) Final Examination will be held at the end of Class IV and the subjects of examination will be the first six subjects. The preliminary Primary (Maktab) Scholarship (Lower Primary) Examination will be held at the end of Class II, and the subjects of examination will be the first four and the sixth subjects.

In addition, for the Primary (Maktab) Final Examination two of the following optional subjects should be taken:—

(*a*) Drawing,
(*b*) Manual Work,
(*c*) Science or Nature Study based on School Gardening,
(*d*) English, and
(*e*) Zamindary and Mahajani Accounts,

and for the Preliminary Primary (Maktab) Scholarship Examination any one of the following optional subjects should be taken:—

(*a*) Drawing.
(*b*) Manual Work.

(*ii*) A boy from a Primary School intending to enter a High or Middle English School should leave at the end of Class II. A boy may also enter a High or Middle English School at the end of Class IV, provided he has taken English as an optional subject in Classes III and IV.

(*iii*) Prior to the publication of a new edition, all additions, alterations or omissions in the text of a sanctioned book must receive the sanction of the Text Book Committee. Any deviation from these instructions will render a book liable to immediate removal from the approved list of text-books.

(*iv*) No name except that of the author and publisher should be allowed on cover or title page (*i.e.*, no name of editor, reviser, or writer of foreword or preface should be allowed).

(*v*) Mat (*i.e.*, dull) and not shining paper should be used.

(*vi*) Misleading statements on the cover or title page should be avoided. It should be clearly mentioned whether the book is approved as a text-book, a supplementary reader or a prize and library book.

(*vii*) Any deterioration in paper, printing, binding or illustrations of an approved book will render it liable to immediate withdrawal from the list.

(*viii*) Price—

(*a*) One anna and six pies for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to Bengali readers and text-books on History, Science, Hygiene, Arithmetic and Zamindary and Mahajani Accounts.

(*b*) Two annas for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to English readers and text-books on Geography.

(*d*) GEOGRAPHY.

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The subject should be introduced by conversation about the neighbourhood—its roads, waterways, railways, where these come from, where they go to, and what traffic is seen on them.

The children should be shown how to measure the dimension of the school-room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes, islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

The following books and maps may be used for the purpose of oral instruction:—

(*g*) Observation Lessons (for Boys).

(*Infant Class.*)

Observation lessons.—To be begun by conversation lessons on the things in the school such as benches, desks, stools; children measuring the benches, desks, etc., collecting leaves, flowers and fruits from plants and trees growing in the locality and comparing them as to shape colour, smell, number, etc. Additional observation lessons should be given in correlation with other class subjects.

(*Class I.*)

Observation lessons.—Collection and observation of plants such as may be available in the locality, comparing the different parts of each root, stem, leaves, bark, flowers and fruits with those of another. Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; children measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eyesight, power of hearing.

(*Class II.*)

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting other plants having roots and seed leaves like those grown. Collecting and

observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

(*Class III.*)

Nature study based on school gardening. [*Recommended for rural schools (optional).*]—Laying out a garden, a plot of 4 to 6 square cubits, for each scholar or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—sowing 50 or 100 seeds of each of several kinds of plants, paddy, pluses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure; the flowers—their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of differnt manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates, of fruits, etc. The plots should be drawn to scale and all results recorded in the note-book.

(*Class IV.*)

Nautre study based on school gardening (*optional*).—Boys may work in pairs, one of Class III and another of Class IV if single plots are available, otherwise all on a common plot, one being set apart for boys of Class III for experiments only and another for those of Class IV. Plans of work to be prepared in September every year; the plots to be sown with particular seeds should be set out to scale in the note-book; plan should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in plots or boxes. Following operations to be explained:—Digging—its effect, purpose; to sow at depths suitable to various seeds; to prepare trenches—manuring effect and purpose; plant, food, seeding crops to be shown—(1) jute, *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. Lessons on rotation, on insect pests and insecticides. Records to be kept of the quantity of seed used and of the produce.

N.B.—No text-books are required for the use of pupils in the above classes. The following books may be used by teachers for the purpose of oral instruction:—

(2) SYLLABUS IN NEEDLEWORK FOR GIRLS' SCHOOLS.

(Infant Class.)

Needle drill and hemming. Top sewing and running.

(Class I.)

Backstitching, filling and patchwork, making pillow-cases and bags.

(Class II.)

Cross-stitch, making a chemise (gathers can be, but need not be used for the band.) Plain knitting with two needles.

(Class III.)

Cutting out and making a plain petticoat. Making button-holes. Marking on cloth in vernacular characters. Knitting plain and purl with two needles.

(Class IV.)

Cutting out and making a jacket, button-holes and gathering pieces of cloth and putting it into a band. Darning and herring-bonning, knitting of plain socks for babies.

Remarks.—No text-books to be used.

II.—Optional Subjects.

(*a*) DRAWING (OPTIONAL).

(Infant Class.)

Mass drawing using fruits and vegetables as models. No outline is required, but the object is to be built up as it were from the centre outwards. The crayon or chalk or charcoal should be held in the centre and the object produced by rubbing from right to left until the correct shape and mass are represented.

(Class I.)

Drawing with chalk (preferably coloured) on slates and later on scraps of paper, leaves, fruits and thin simple sprays and thence sprays with flowers—various kinds of leaves and fruits may be used.

Remarks.—Children should be provided with pencil and pieces of paper having a good surface. Drawing books only for advaneed pupils. India-rubber to be kept by the teacher and its use allowed only at his discretion.

(Class II.)

Harder models to be given, fruits, etc., being arranged in a variety of groups. Memory drawing of things seen in and out of school. Outline drawing to begin.

Remarks.—No text-book.

(Class III.)

Memory drawing continued. Beginning the elements of perspective. Drawing "construction lines." Drawing a circle or elipse viewed from different points. Drawing a box seen from the following points:—

The box placed—

(1) below the eye,

(2) above the eye,

(3) at the left of the eye,
(4) at the right of the eye,
(5) below and at the left,
(6) above and at the left,
(7) below and at the right,
(8) above and at the right,
(9) directly in front of the eye.

Subjects of greater difficulty by grouping solid figures. Shading.

Remarks.—No text-book to be used.

(Class IV.)

Drawing in perspective to be continued. Groups of solid figures. Attention to light and shade to be expressed by pencil work. Brass utensils, drinking vessels, boxes, bottles, etc., may be used as models.

Complex objects, difficult grouping of single objects, complicated arrangements of flowers and the study of trees should be taken up as more advanced work. Memory drawing, drawing from imagination and the study of movement should next be attempted.

Remarks.—No text-book.

N.B.—No text-books are required for the use of pupils in the above classes. The following books may be used by *teachers* for the purpose of oral instruction:—

(*b*) Manual Works (Optional).

(Class I.)

(*a*) Clay modelling—simple household utensils, pottery, etc., modelling in connection with the beginnings of Geography. The children should model from picture or from models made by the teacher.

(*b*) Stick-laying with the use of seeds to shapes shown on a wall chart. The following shapes may be used :—

An umbrella, a house, a fence and gate, a door, a window, a house with fence and gate, a tree (with half-stick), a verandah of a house, a man, a cart, a cow. Build up a hut from several new elements, children working together.

Remarks.—Wall charts and models.

(Class II.)

Tear out of paper, according to picture chart, a wall, a house, a man, a tree, a boat, a large pucca house, a cow, a hen, a vulture, a

horse, a bullock-cart, a bridge, a man with a lathi, a man with a bundle on his head. Multiply them by folding the paper and so build up a street, a railway engine, carriage, etc. Each model may be improved with pencil or colours. Make a book (using a pin for stitching), an envelope. The teacher may teach any paper-folding which he knows.

Remarks.—Wall charts and models.

(Class III.)

Claywork combined with sticks. The models suggested in the first and second years should be made with clay and sticks combined and any other materials available. All materials may be used, e.g., straw for roof, leaves for plants, paper for man's clothes, scissors and knives may be used.

Remarks.—Wall charts and models.

(Class IV.)

1. Construct a cardboard ruler graduated in inches, half the ruler in half-inches, quarter of the ruler in quarter-inches, a sixth in eighths and over in tenths.

2. Construct a cardboard scale showing 1 inch to a foot up to 3 feet. Measure and draw plans of furniture to scale.

3. Draw circles and simple geometrical figures (*e.g.*, triangles, square, oblong) to scale, cut out in cardboard. Save these models for future experiments.

4. Construct a cardboard 45° set square—copy direct from model—make another half-size. Construct a cardboard 30° and 60° set square. Refer to angles 1, 2 and 3 and make them at each corner.

5. Draw and cut out triangles using set-squares.

6. Construct and cut out a protractor.

7. Graduate and cut out a thermometer scale—copy from actual object.

8. Draw and cut out the following flat objects:—A box with sides flattened out, a clock, a house with sides flattened out, a door, a window, a fence (made of pieces of paper cut to scale), a gate, a bridge, with pillars, with arches, a picture frame, etc.

9. Models constructed to a scale but not in flat, an envelope (in paper), a tray, a picture frame, a box, a table, a stool, a house, a house with windows and doors. Add a fence to it. A weather-cock (working model), a kite, a wind-mill, a fan. Embellish and finish all these models in ways which may suggest themselves to an artistic temperament, but on no account must the finishing process be utilised to cover up inaccurate work.

10. Simple models in paper and cardboard illustrating history, literature and descriptive geography.

Remarks.—A text-book or wall charts showing the dimensioned drawing of the models.

Wall Chart for Manual Work, Parts I-III. (S. B. Chatterjee and Sons, Calcutta.) Recommended for use as models in classes by teachers.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 7 T. B.—29th August 1936.—In accordance with the Government (Education Department) notification No. 3730 Edn., dated the 8th December 1924, the following list of text-books approved by this department for use in all Classes of Moslem Primary Schools or Maktabs in the Presidency of Bengal is published for general information. These books are approved for a period of four years from January 1937.

The list of text-books published with this office notification No. 3T.B., dated the 16th June 1930, is hereby cancelled.

The syllabuses for Infant Class, Class I and II in the Revised Curriculum for Primary Schools (and Maktabs), now in force in both parts of this Presidency, shall be adopted, respectively, in the Infant Class, Class I and Class II of Middle Schools and the corresponding Classes of High Schools for both boys and girls. Text-books approved by this department for Infant Class, Class I and II of Primary Schools (and Maktabs) will be applicable to the corresponding Classes of Secondary Schools.

District Boards and District School Boards are requested to choose books from the following list for use in Maktabs under their control. In making this choice, it is hoped that care will be taken to ensure that undue patronage of either individual authors or publishing houses is avoided. Inspecting Officers should not themselves recommend books directly to Primary Schools.

J. M. BOTTOMLEY,
Director of Public Instruction, Bengal.

INTRODUCTORY NOTES.

1. Any vernacular, *e.g.*, Urdu, may be substituted for Bengali where the controlling authorities of the school consider that circumstances justify it.

2. The compulsory subjects in all schools (maktabs) will be the following:—

(*a*) Reading.
(*b*) Writing.
(*c*) Arithmetic.
(*d*) Geography.
(*e*) History.

(*f*) Koran, Ritual* of Islam and Urdu.

(*g*) Observation Lessons for Boys, Needlework or Domestic Economy for Girls.

The Maktab (Primary) Final Examination will be held at the end of Class IV and the subjects of examination will be the first six subjects. The Preliminary Maktab (Primary) Scholarship (L.P.) Examination will be held at the end of Class II and the subjects of examination will be the first four and the sixth.

3. In addition, for the Maktab (Primary) Final Examination two of the following optional subjects should be taken:—

(*a*) Hygiene (for Boys) or Hygiene and Domestic Economy (for Girls),

(*b*) Manual Work,

(*c*) English, and

(*d*) Zamindary and Mahajani Accounts,

and for the preliminary Maktab (Primary) Scholarship Examination only one of the optional subjects, viz., Manual Work, should be taken.

4. The course will be completed in five years and pupils at the completion of the course will take the Maktab (Primary) Final Examination.

5. A boy from a Maktab intending to enter a High or a Middle English School should leave at the end of Class II. A boy may also enter a High or Middle English School at the end of Class IV, provided he has taken English as an optional subject in Classes III and IV.

6. In selecting text-books for Maktabs preference should be given to those by Moslem authors.

*The Ritual should include a general knowledge of moral precepts from the Koran and from the Sayings of the Prophet.

N.B.—(*i*) Prior to the publication of a new edition, all additions, alterations or omissions in the text of a sanctioned book must receive the sanction of the Committee. Any deviation from these instructions will render a book liable to immediate removal from the approved list of text-books.

(*ii*) No name except that of the author and publisher should be allowed on cover or title page (*i.e.*, no name of editor, reviser, or writer of foreword or preface should be allowed).

(*iii*) Mat (*i.e.*, dull) and not shining paper should be used.

(*iv*) Misleading statements on the cover or title page should be avoided. It should be clearly mentioned whether the book is approved as a text-book, a supplementary reader or a prize and library book.

(*v*) Any deterioration in paper, printing, binding or illustrations of an approved book will render it liable to immediate withdrawal from the list.

(*vi*) Prices of text-books for Moslem primary schools are to be calculated at the following rates:—

(*a*) One anna and six pies for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to Bengali readers and text-books on History, Science, Hygiene, Arithmetic and Zamindary and Mahajani Accounts.

(*b*) Two annas for each 32 pages of printed matter *plus* a concession of 40 per cent.

This rate will be applicable to English readers and text-books on Geography and Urdu.

(*c*) One anna and six pies for a Bengali copy book.

(*d*) Two annas and three pies for an English copy book.

(*d*) GEOGRAPHY.

(*Class II.*)

No text-book is required for pupils in this class, and instruction should be oral, and on the following lines:—

The subject should be introduced by conversation about the neighbourhood—its roads, waterways, railways, where these come from, where they go to, and what traffic is seen on them.

The children should be shown how to measure the dimension of the school room, the house and the grounds, the teacher drawing on the blackboard plans which the children will copy.

The children should be given the idea of direction and the cardinal points of the compass. Ideas of hills, valleys, plains, rivers, lakes,

islands, etc., are to be gained from pictures and models to be made in clay or wood.

Children should observe the position of the school village in the thana or the district map and calculate distances; observe the position of the district in the map of the province. Stories should be told about journeys to important places such as Calcutta, Darjeeling, etc.

The following books and maps may be used for the purpose of oral instruction:—

(Infant Class.)

Observation lessons.—To be begun by conversation lessons on the things in the school such as benches, desks, stools; children measuring the benches, desks, etc., collecting leaves, flowers and fruits from plants and trees growing in the locality and comparing them as to shape, colour, smell, number, etc. Additional observation lesssons should be given in correlation with other class subjects.

(Class I.)

Observation lessons.—Collection and observation of plants such as may be available in the locality, comparing the different parts of each, root, stem, leaves, bark, flowers and fruits with those of another. Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; children measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eyesight, power of hearing.

(Class II.)

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting other plants having roots and seed leaves like those grown. Collecting and observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

(Class III.)

Nature study based on school gardening. [*Recommended for rural schools (optional).*]—Laying out a garden, a plot of 4 to 6 square cubits, for each scholar, or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—sowing 50 or 100 seeds of each of several kinds of plants, paddy, pulses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure; the flowers, their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of different manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates of fruits, etc. The plots should be drawn to scale and all results recorded in the note book.

(Class IV.)

Nature study based on school gardening (optional).—Boys may work in pairs, one of Class III and another of Class IV if single plots are available, otherwise all on a common plot, one being set apart for boys of Class III for experiments only and another for those of class IV.

Plans of work to be prepared in September every year; the plots to be sown with particular seeds should be set out to scale in the note-book; plans should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in plots or boxes. Following operations to be explained—digging: its effect, purpose; to sow at depths suitable to various seeds; to prepare trenches —manuring effect and purpose; plant, food, seedling, crops to be shown—(1) jute, (2) *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip, cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. 8. Draw and cut out the following flat objects:—a box with sides flattened out, a clock, a house with sides flattened out, a door, a window, a fence (made of pieces of paper cut to scale), a gate, a bridge with pillars, with arches, a picture frame, etc.

9. Models constructed to a scale but not in flat, an envelope (in paper), a tray, a picture frame, a box, a table, a stool, a house, a house with windows and doors. Add a fence to it. A weather-cock (working model), a kite, a windmill, a fan. Embellish and finish all these models in ways which may suggest themselves to an artistic temperament, but on no account must the finishing process be utilised to cover up inaccurate work.

10. Simple models in paper and cardboard illustrating history, literature and descriptive geography.

Remarks.—A text-book or wall charts showing the dimensioned drawings of the models.

Wall chart for Manual Work, Parts I-III. (S. B. Chatterjee & Sons, Calcutta.) Recommended for use as models in classes by teachers.

Dy. Accountant-General, Bengal.

Calcutta University.

Senate House, the 18th September 1936.

CIRCULAR No. S/294.

The Registrar of the Calcutta University has issued the following for general information :—

The Vice-Chancellor and Syndicate have withdrawn the privilege of provisional recognition enjoyed by the Raniganj Marwari Sanatan Vidyalaya in the district of Burdwan. They have debarred the Head Master Babu Prafullakumar Sen, B.A., from serving in any recognised High English School as Head Master or Assistant Head Master and the Assistant Head Master Babu Ramsidh Singh from employment in any recognised school under this University. They have further ordered that the students of Class X of the above school should be granted immediate transfer certificates and that the schools in which they will seek admission should scrutinise their cases strictly and satisfy themselves about their *bonafides* before admitting them into their respective schools.

J. CHAKRAVORTI, *Registrar.*

Calcutta University.

Senate House, the 31st July 1936.

NOTIFICATION No. S/292/O.U.

In modification of previous orders on the subject it is hereby notified for general information that students migrating from other Universities or Boards of Secondary Education other than the Dacca Board for purposes of their admission to the Matriculation Examination of this University as regular students in 1939 and subsequent years will ordinarily be required to prosecute a regular course of study in a recognised school or schools for a period of at least two school years previous to the examination at which they intend to appear. They will therefore have to join Class IX of a High School recognised by this University within the month of January and to conform to the usual rules of migration.

Exception may, however, be made by the Syndicate in regard to Bengali and Assamese students residing outside Bengal and Assam who are desirous of taking advantage of the facilities available here. They shall not be admitted into Class X after January without the special permission of the Syndicate, which must in each case be previously obtained. But, as the school session in Assam begins in March, students who desire admission into Class X of a recognised High School in Assam shall not be admitted after March without the special permission of the Syndicate. Exception may also be made in the case of students if their migration to this University is caused by the bonafide transfer of their guardians.

All special cases referred to above will also have to be submitted to the University in the prescribed form together with the requisite fees and documents.

Suri, the 2nd September 1936. [ILLEGIBLE], *for* Collector.

Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the B. A. K. Section of the East Indian Railway, in the district of Murshidabad, will be put up to sale at 12 o'clock noon on the 10th November 1936 corresponding to 24th Kartik, 1343 B.S. (Fasli), at the Court of the Subdivisional Officer, Jangipur, district Murshidabad.

The purchasers of the several plots of lands will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold subject to an annual assessment of Rs. 34 which will be subject to revision at the next general settlement of the temporarily-settled estates of the district to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 31st August, 1936:—

L. A. BILL No. 32 OF 1936.

A Bill further to amend the General Clauses Act, 1897, for a certain purpose.

WHEREAS it is expedient further to amend the General Clauses Act, 1897, for the purpose hereinafter appearing; X of 1897.
It is hereby enacted as follows:—

Short title.

1. This Act may be called the General Clauses (Amendment) Act, 1936.

Insertion of new section 6A in Act X of 1897.

2. After section 6 of the General Clauses Act, 1897, X of 1897.
the following section shall be inserted, namely:—

Repeal of Act making textual amendment in Act or Regulation.

"6A. Where any Act of the Governor General in Council or Regulation made after the commencement of this Act repeals any enactment by which the text of any Act of the Governor General in Council or Regulation was amended by the express omission, insertion or substitution of any matter, then, unless a different intention appears, the repeal shall not affect the continuance of any such amendment made by the enactment so repealed and in operation at the time of such repeal."

STATEMENT OF OBJECTS AND REASONS.

Doubt has sometimes been entertained in the past as to the effect of the repeal of an amending Act which has made textual alterations in a previous Act. The view which the Government of India favours is that an amending Act of this nature is spent once it has secured the inclusion in the text of the parent Act of the changes it was intended to bring about, and that the repeal of the amending Act thereafter does not affect the continuance of the amendments made by it. It has not, however, hitherto been the practice to repeal such Acts after their work is accomplished and the Statute-book is encumbered with much matter which could profitably be removed, but which it was undesirable to remove as long as any doubt concerning the effect of such removal could be entertained. The present amendment of the General Clauses Act, 1897, is aimed at establishing beyond doubt the view set forth above, and enabling a large number of Acts which were confined to making textual amendments in previous Acts to be repealed.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Public Health.

CALCUTTA, THE 18TH SEPTEMBER 1936.

RESOLUTION—No. 3647P.H.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, Bengal, for the year 1935.

As in the previous year, the municipalities continued their policy of financing their schemes by means of loans and contributions raised locally and considerable progress was made during the year in the negotiation of new water-supply and drainage schemes.

Sketch projects for schemes estimated to cost Rs. 28,33,230, detailed projects for Rs. 7,93,765 and detailed estimates and plans for miscellaneous works amounting to Rs. 1,65,867 were prepared during the year.

The stoppage of Government grants towards the execution of water-supply, drainage and other sanitary engineering schemes which was necessitated by the adverse financial position was not, however, without its effect on the number of such schemes undertaken during the year.

The capital expenditure on waterworks was Rs. 2,13,789 in 1935 and on sewerage works Rs. 1,17,273 against Rs. 2,72,893 and Rs. 2,26,339 respectively in 1934. This brings the total amount of capital expenditure till the end of the year up to Rs. 1,67,21,186 on waterworks and Rs. 88,39,149 on sewerage works.

2. The department continued to render valuable assistance to the municipalities in the matter of inspection, advice and supervision.

3. The metering of house connections which was enforced in the two municipal towns of Comilla and North Chandpur strikingly demonstrated the need for continued vigilance on the part of the municipalities for the prevention of waste in the supply of water to the householders. Although the new Bengal Municipal Act gives power to the municipalities to enforce metering at the cost of the householders even in the case of old house connections, there is a general reluctance to enforce metering as a means of checking waste of water. Even where connections are metered excess water charges are not promptly realized, with the result that there is often considerable waste of public funds. The Chief Engineer reports, however, that the "decentralised storage" system of distribution, to which reference was made in last year's resolution, has proved a success in the municipalities of Asansol, Jalpaiguri and English Bazar where it was introduced as a method of checking waste of water, and it is proposed to introduce this system of distribution in all new schemes of water-supply. The Dacca Municipality has decided to reorganise a part of its supply area on the decentralised storage system, and the sketch project of water-supply for the new Garden Reach Municipality has been designed on this system.

4. The Sanitary Board met seven times in the year. The Board examined the various schemes before their submission to Government, and generally reviewed the reports of inspection of the departmental officers, suggesting necessary action. Their advice was of particular value in regard to measures for the control of malaria and other mosquito-borne diseases.

5. The Board formed a tuberculosis sub-committee with the Surgeon-General as Chairman, the Director of Public Health as Secretary and Dr. (Mrs.) Mary H. Y. Remfry, as member.

6. The Government of Bengal desire to convey their thanks to the members of the Board for the valuable advice given by them during the year of review.

They also desire to express their appreciation of the services rendered during the year by the officers of the department, and of the ability with which Mr. F. C. Griffin carried out his duties as Chief Engineer.

By order of the Govt. of Bengal

(Ministry of Public Health),

G. S. DUTT,

Secy. to the Govt. of Bengal.
